ELIAS DIAZ

Pro-Elite®

If it ain't broke, don't fix it. That's what we hear from the pros. The exceptional leather and proven pattern make our Pro-Elite® mitts the choice of serious catchers. Our players remain loyal to our mitts because they choose the tools of excellence.

Our tan leather is more supple than our black leather. It forms a great pocket and has a loud pop that pitchers love. The black leather on the back provides stability throughout the season.

Our solid black mitts have increased in popularity recently. The professional #focus team members tell us that pitchers are throwing harder each year.

There's been a big shift from our 33.5" mitt to our 34" size. Again, we hear from our #focus team that pitchers are not only throwing harder and faster but they have more movement. The small increase in size provides a little margin for error and perhaps some peace of mind.

The black leather backing is stiffer, and gives the mitt the right amount of support and increases its life.

PRO-ELITE® // SOLID BLACK

STYLE NO.	SIZE	COLOR
CM3000MBK	34"	SOLID BLACK, PRO-ELITE™ / AS USED BY MARTIN MALDONADO

In 2011 Martin Maldonado started his professional career using the CM3000XSBK, our 32" mitt. No room for error with this small and precise mitt. Soon, Maldonado switched to our most popular 33.5" size. He and several other All-Star Focus Team players asked for little more room to receive the ball with confidence because Pitchers are throwing faster and with more movement. In the 2017 season Maldonado used a custom 34" mitt and won the Rawlings Gold Glove Award®. That year Maldonado sharpied 100% on the back of his web. It was his reminder to give 100% of the pitches his 100% attention and focus.

YOUTH COMP™ MITTS

STYLE NO.	GLOVE HAND	AGE
CM1011	RHT /LHT	31.5 INCHES

The CM1011 is designed as an entry level catcher's mitt but mimics the look of our high end youth and adult mitts. It features our classic black and tan leather look and uses a proven stitching pattern. Mitt includes Velcro closure, Flex Action crease, and profiled toe. 31.5 inch pattern only.

THE FOCUS FRAMER

STYLE NO.	HAND	SIZE
CM150TM	RHT	29 INCHES

The Focus Framer is all about velocity. This mitt works similar skill sets as The Pocket, but is intended for faster ball speeds. It's undersized build combined with the faster velocity require some sharp focus.

THE POCKET

STYLE NO.	HAND	SIZE
CM100TM	RHT	27 INCHES

A favorite of many coaches and athletes, this tiny 27 inch mitt offers very little other than a pocket and a guaranteed way to increase your catching skills. Great for developing fast hands, catching in the correct location, blocking, and improving ball transfer speeds.

THE ANVIL FIELDING GLOVE

STYLE NO.	HAND	SIZE
FG3500ITM	RHT	11.5"

The All-Star Anvil fielding glove is a multi-purpose trainer that uses added weight to improve fielding mechanics. The glove uses a standard 11.5" infield pattern but features an additional 1 lb. of weight.

THE ANVIL CATCHING MITT

STYLE NO.	HAND	SIZE
CM3500TM	RHT	33.5"

The All-Star Anvil Catcher's Mitt is a multi-purpose trainer that uses added weight to improve receiving and transfer skills. Starting with the game's most popular 33.5" pattern, over 2 lbs. of weight is evenly added to the thumb and pinky pads. This version of "weight training" helps strengthen those, hard-to-get-to small muscles that help with receiving pitches quietly and speeding up transfer times.

THE FLAPJACK

STYLE NO.	HAND	SIZE
FG200TM	RHT	29 INCHES

A traditional flat pancake glove with a bit of a tweak - a slight depression for building pocket awareness. Stiff with no break. For infielders and catchers working on soft hands and fielding and transfer drills.

THE PICK

STYLE NO.	HAND	SIZE
FG100TM	RHT	9.5 INCHES
FG100TM-FR	LHT	9.5 INCHES

Modeled after the CM100TM, the FG100TM fielder's training glove is an undersized 9.5 inch glove designed to help develop fast hands and improve coordination for fielders. Mitt was designed and developed after feedback received from catchers that their fielding teammates were stealing their CM100TMs!

THE KEYHOLE

STYLE NO.	HAND	SIZE
CM4000TM	RHT	35 INCH

This is the training mitt that everyone has been talking about. Pocket awareness is the key to accurate receiving, quick transfers, and manipulating the ball in the zone to convert balls into strikes. Pros use the Keyhole for soft toss drills often times with tennis balls or lite baseballs. The hole is just big enough for a baseball and located where one should receive the ball. Working up through the zone, the goal is to cleanly pocket the ball in the net. Not recommended for real baseballs off a machine at high velocity.

THE DONUT

STYLE NO.	HAND	SIZE
CM1000TM	RHT	33.5 INCH

The absolute best mitt for working on quick transfer speeds. This vintage style catching mitt modernized with the All-Star® black/tan leather is a tool recommended by catchers, coaches, and teams for developing the fastest transfer speeds. When received into the pocket correctly, high speed balls can be caught when transferred to throwing hand. Perfect for working on general receiving skills too. Balls which hit the pocket drop straight to the floor while balls missed rebound away.

THE EQUALIZER

STYLE NO.	HAND	SIZE
CM3000TM	RHT	35 INCH

A full 35 inch professional grade mitt without a web! This training mitt is designed to force catchers to catch in the pocket and not the web. Unlike the other training gloves, this mitt can be used to catch live ball pens.

AF-Elite®

AF-ELITE FASTPITCH SERIES // CATCHER

STYLE NO.	HAND	SIZE	COLOR
CMW3001-B	RHT/LHT	33.5"	BLACK / WHITE

This AF-Elite Fastpitch Series catcher's mitt is designed for advanced fastpitch catchers playing at an elite travel ball through college level. For the player, the single hinge design increases the structure around the thumb, thus potentially minimizing impact on the thumb. AF FASTPITCH SERIES // FOCUS FRAMER

STYLE NO.	HAND	SIZE	COLOR

With an undersized pocket, the Fastpitch Focus Framed is intended to increase concentration during a variety of catcher-specific drills. This training mitt is a must-have for coaches and catchers who are focused on refining their craft.

STYLE NO.	HAND	SIZE	COLOR
CMW1011	RHT/LHT	31.5"	SADDLE / CREAM

This mitt is 31.5 inches, which makes it perfect for a young catcher who is just starting out. Constructed with a combination of cowhide and pigskin, this mitt is very soft out of the box allowing for a fast break-in time. The closed back and Velcro strap gives players plenty of flexibility in creating a custom and secure fit.

AF FASTPITCH SERIES // CATCHER

MVP

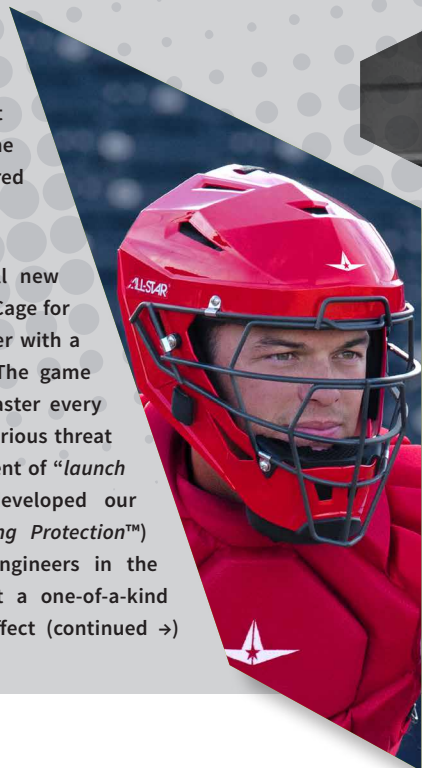

From Professional Catchers to Sandlot Stars, All-Star Sports® has defined safety in baseball for generations. The All-Star® Test Lab has been researching, testing, and perfecting the modern-day catcher's helmet, introduced as the original MVP™ Helmet in 1996. Now in 2022, we're introducing the 5th generation of our game changing product, *the all new MVP5*.

Four years of extensive development has led to the creation of a new industry standard for both professional catchers and everyone else grinding their way to the top. The MVP5 is packed with new advancements in protection and technology to take your game to the next level. More than 60 years of company product innovation, collaborating with dozens of pro players, designers, engineers, and

independent test labs has all lead us to *Deflexion™*, the latest protective creation out of the All-Star® Test Lab, and featured proudly in our new MVP5.

We're also introducing an all new version of our popular *I-Bar™* Cage for the MVP5 - it's better than ever with a new stealth graphite finish. The game is being played harder and faster every year, and back swings are a serious threat to player safety. With the advent of "launch angle swing-paths" we've developed our proprietary *BSP™* (Back Swing Protection™) technology. The advanced engineers in the All-Star® Test Lab have built a one-of-a-kind bat-swing rig to study the effect (continued →)

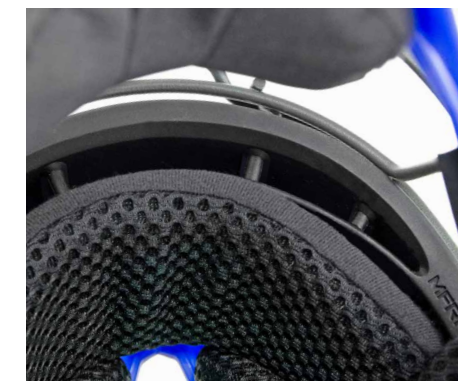

of dangerous back swings. Our next generation cage is designed to extend past the ear for protection against unintended impacts. The new shape also enhances the structural stability of the helmet while improving overall weight distribution and balance for a secure and comfortable fit.

Back for the MVP5 is a new and improved version of our classic *Air-Mesh Padding*. By coupling it with redesigned laser cut foam, we've enhanced breathability, comfort, and shock absorption.

Our all-new *Deflexion™* technology is made of durable *TPR Shock Hammocks* placed along the forehead and chin to isolate your dome from energy caused by direct impacts. The best way to protect a player is to disperse energy from direct impacts, and *Deflexion™* is the answer. Its ability to absorb and displace unwanted energy on impact is revolutionary. Meet the face of the future, MVP5 by All-Star®.

MVP HELMETS

For the most accurate sizing, it is recommended to use the players hat size, found by measuring the circumference of the players head, and then using the charts to the right to figure out the recommended model / size.

CHEST PROTECTORS

To measure All-Star® AFx chest protectors find top of hip bone, bring over to mid-line; measure from that mid-line point to the indent at the top of the sternum. The chest protector should fit high, with the throat guard over the base of the neck.

LEG GUARDS

Best done while seated, measure from center of the players knee cap to the knot in the laces on the players cleats.

Catching helmets must fit securely for proper performance. If a player measures in between sizes, it is best to select the smaller size. Contact our team for any questions regarding proper helmet adjustments and fitting.

If the player measures in between chest protector lengths it is recommended to select the longer length. *The players correct measurement is more important than their age.*

If the player measures in between leg guard sizes it is recommended to select the longer length. *The players correct measurement is more important than their age.*
