ASICS DESIGN PHILOSOPHY

ASICS Design Philosophy combines four key areas of research and development:

1

USER TESTING: Performance evaluation and user sensory wear testing with athletes, consumers, influencers.

2

SCIENCE: Insights from a human-centered scientific approach and laboratory testing across Biomechanics, Physiology, Materials Science, Kansei Engineering.

3

4

INNOVATION: Decades of continuous product innovation and kaizen improvements to ensure the highest quality and functionality.

METASPEED

METASPEED

Breeze through your runs with the ASICS pinnacle METASPEED™ SINGLET. Designed with ACTIBREEZE™ technology to help you keep cool and comfortable. It's made with a mesh jacquard knit material that helps keep the garment lightweight, comfortable, and breathable. This top's strategic body-mapped fabric also provides targeted ventilation in key heat zones. At least 50% of the garment's main material is made with recycled content to reduce waste and carbon emissions.
