ASICS AMERICA CATALOG

PERFORMANCE RUNNING

SOUND MIND, SOUND BODY

At ASICS, we believe in the positive impact of sport on the mind. Take our name, an acronym for Anima Sana in Corpore Sano or “a sound mind in a sound body.” Our founding philosophy is perhaps more relevant than ever and we’re recommitting to promoting the positive, uplifting power of sport.

ASICS DESIGN PHILOSOPHY

ASICS Design Philosophy combines four key areas of research and development:

- 1 USER TESTING:** Performance evaluation and user sensory wear testing with athletes, consumers, influencers.
- 2 SCIENCE:** Insights from a human-centered scientific approach and laboratory testing across Biomechanics, Physiology, Materials Science, Kansei Engineering.
- 3 INNOVATION:** Decades of continuous product innovation and kaizen improvements to ensure the highest quality and functionality.
- 4 SUSTAINABILITY:** We are taking action to implement more sustainable processes to reduce carbon emissions while maintaining high product performance.

GEL-CUMULUS® 27

- Experience a soft feel underfoot with the GEL-CUMULUS™ 27. This neutral everyday trainer is a versatile choice for various running workouts and distances
- FF BLAST™ PLUS cushioning and PureGEL™ technology are strategically positioned in the midsole. These materials help create softer landings and a more energized toe-off during your training.
- Additionally, the FLUIDRIDE™ outsole helps create smoother transitions between strides.

FEATURES

- FF BLAST™ PLUS technology cushioning provides lightweight impact absorption and a responsive rebound
- PureGEL™ technology helps provide lightweight cushioning and softer landings
- Engineered mesh upper helps improve breathability and comfort
- FLUIDRIDE™ outsole helps create smoother strides
- Reflective details designed to help improve visibility
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- At least 75% of the shoe's main upper material is made with recycled content to reduce waste and carbon emissions
- OrthoLite™ X-30 sockliner provides soft step-in comfort
- Knit heel pull tab

GEL-EXCITE™ 11

- The GEL-EXCITE™ 11 shoe features a comfortable and versatile design. It's formed to help create more underfoot comfort for your run and fitness routine.
- Layered with AMPLIFOAM™ PLUS technology in the midsole, this shoe also includes a higher stack height to help provide a more comfortable cushioning experience.

FEATURES

- Engineered jacquard mesh upper
Creates a softer feel against the foot while improving breathability
- AMPLIFOAM™ PLUS cushioning
Helps to improve durability creates a softer and more comfortable feel at foot strike
- Rearfoot GEL™ technology improves impact absorption and creates a softer feeling at foot strike
- OrthoLite™ sockliner provides soft step-in comfort
- Vegan Friendly: For this product, no materials of animal origin are applied in the design and material selection stages, including: the yarns, glues or other adhesives applied in the product.
*The product is not certified as vegan by an independent third party."

GEL-CONTEND® 9

- The GEL-CONTEND™ 9 running shoe provides good cushioning, support, and durability.
- An engineered mesh upper stretches with the foot's natural motion and creates a comfortable fit. Meanwhile, the synthetic stitching on the overlays helps create a more supportive foothold.
- The midsole features GEL™ technology and AMPLIFOAM+ cushioning. These technologies help increase durability while creating a softer feel underfoot.

FEATURES

- Rearfoot GEL™ technology cushioning improves impact absorption and creates a softer feeling at foot strike
- Jacquard mesh upper improves airflow
- OrthoLite™ sockliner offers excellent step-in comfort
- Flex grooves in the outsole improve flexibility
- Synthetic stitching on the overlays improves support
- AMPLIFOAM+ cushioning helps improve durability
- GUIDANCE LINE™ technology provides a more consistent stride
- At least 20% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

BOUNCE

SUPERBLAST™ 2

- Move from feeling standard to super in the SUPERBLAST™ 2 shoe. It's designed to help provide the most responsive, energized feel compared to other shoes in the ASICS cushioning range.
- The midsole features a combination of FF BLAST™ PLUS and FF TURBO™ PLUS cushioning. Also used in our METASPEED™ racing models, this foam helps create one of the lightest and bounciest running experiences.
- This shoe's upper construction features an asymmetric mesh design. It features different colors on the medial and lateral angles of the shoe for visual interest.

FEATURES

- Engineered mesh upper material: Improves airflow to help your feet keep cool
- Gusseted tongue wing fit system: Improves the midfoot fit and reduces tongue sliding
- FF TURBO™ PLUS technology: Cushioning improves compression and creates a responsive feel underfoot
- FF BLAST™ PLUS technology: Cushioning provides lightweight impact absorption and a responsive rebound
- Trampoline-inspired outsole design: Provides a more responsive bounce back
- AHARPLUS™ heel plug rubber: Improves the outsole durability
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- Reflective details: Designed to improve visibility in low-light settings

SONICBLAST™

- The SONICBLAST™ shoe offers a lightweight and responsive ride that makes it functional for tempo runs and your daily training.
- The midsole features a two-layered foam with FF BLAST™ MAX and FF TURBO²™ cushioning to help create a lightweight and bouncy running experience.
- Additionally, an ASTROPLATE™ propulsion mechanism is centered in the foam. This helps propel your momentum forward, creating a faster feel underfoot.

FEATURES

- Engineered mesh upper for breathability
- ASTROPLATE™ technology helps propel your stride forward
- FF BLAST MAX™ cushioning helps create cloud-like softness and a responsive energy return
- FF TURBO²™ midsole foam is extremely light weight, and this bouncier foam material helps provide advanced cushioning
- ASICSGRIP™ outsole rubber helps to improve traction on various surfaces
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

NOVABLAST™ 5

- The NOVABLAST™ 5 midsole and outsole geometry helps produce an energized ride.
- A tongue wing construction in the upper helps improve the fit while reducing tongue movement. It's complemented with an engineered jacquard upper that offers more stretch, ventilation, and durability.
- Lastly, FF BLAST™ MAX cushioning helps create softer landings and a more energized toe-off during your training.

FEATURES

- Breathable engineered mesh upper
- Tongue wing construction: Added stretch helps improve the fit while reducing tongue movement
- FF BLAST™ MAX cushioning: Helps provide a lightweight and energetic ride
- Trampoline-inspired outsole design: Helps provide a more responsive bounce back
- Reflective details: Designed to help improve visibility in low-light settings
- At least 75% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- AHAR™ LO outsole rubber: Help create better traction, improved softness, and advanced durability

DYNABLAST™ 5

- The DYNABLAST™ 5 shoe is designed for the fitness enthusiast seeking comfort for their runs or training routine.
- A soft, engineered jacquard upper and mesh tongue improves the shoe's fit, comfort, and breathability.
- The midsole and outsole are engineered to target the ball of your foot and heel striking zone. This helps create a higher energy return and more bounce at a lower stack height.

FEATURES

- Engineered jacquard upper: Helps improve breathability
- FF BLAST™ PLUS cushioning: Helps provide lightweight impact absorption and a responsive rebound
- Trampoline-inspired bounce
- OrthoLite™ X-30 sockliner: Helps provide soft step-in comfort
- AHAR™ outsole rubber: Helps improve durability
- At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

VERSABLAST™ 4

- The VERSABLAST™ 4 shoe is a versatile training partner for varied workouts and running regimens.
- Inspired by our BLAST BEYOND series, we wanted to make this shoe softer and lighter. It's designed to provide good comfort for a range of activities.
- By focusing on the shoe's energy return, we equipped the midsole foam with a responsive rebound for a fast feel underfoot.

FEATURES

- Repeat mesh upper: Helps provide good breathability
- AMPLIFOAM+ cushioning: Provides soft cushioning with a responsive rebound
- Vegan Friendly: For this product, no materials of animal origin are applied in the design and material selection stages, including: the yarns, glues or other adhesives applied in the product.
*The product is not certified as vegan by an independent third party.

STABILITY

GEL-KAYANO® 32

- Move your mind with the GEL-KAYANO™ 32 shoe's adaptive stability and premium comfort.
- FF BLAST™ PLUS cushioning is combined with a higher midsole stack height. In addition to making it softer and lighter, these features also make your distance training feel smoother and more comfortable.
- The 4D GUIDANCE SYSTEM™ helps provide adaptive stability. This helps you experience a more supportive and balanced stride during your distance training. There's also a 3D SPACE CONSTRUCTION™ in the women's model, that helps increase step-in comfort and flexibility.

FEATURES

- Engineered stretch knit upper improves comfort around your foot
- Knit heel pull tab for easy on and off
- 4D GUIDANCE SYSTEM™ helps create adaptive stability for a more balanced stride
- Rearfoot PureGEL™ technology helps provide lightweight cushioning and softer landings
- FF BLAST™ PLUS cushioning is made with approximately 20% bio-based content and helps provide cloud-like comfort
- OrthoLite™ X-55 sockliner improves comfort
- Reflective details designed to help improve visibility
- Hybrid ASICSGRIP™ improves the outsole durability
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology.

GT-2000™ 14

- The GT-2000™ 14 shoe is designed to help provide a more energetic ride in a stable running experience.
- A trampoline-inspired forefoot pod is positioned on the medial side of the outsole. This helps produce better stability and a more balanced toe-off.
- The midsole is updated with a FF BLAST™ MAX cushioning unit. Creating a more energized toe-off, this foam also offers cloud-like softness during the landing phase of your stride.

FEATURES

- Woven mesh upper breathable material helps keep your feet dry
- Asymmetric tongue wing helps to improve the overall fit
- At least 50% of the shoe's main upper material is made with recycled content to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- Trampoline-inspired outsole pod helps to improve stability during the toe-off stage of your stride
- 3D GUIDANCE SYSTEM™ helps provide advanced stability for a smoother stride
- Rearfoot PureGEL™ technology helps provide lightweight cushioning and softer landings
- FF BLAST™ MAX cushioning this material helps provide cloud-like softness and a responsive rebound
- OrthoLite™ X-30 sockliner helps provides soft step-in comfort
- AHARPLUS™ heel plug rubber helps improve durability
- AHAR™ LOW HARDNESS outsole material helps improve resistance against wear
- Reflective details designed to help improve visibility in low-light settings

GT-4000™ 4

- The GT-4000™ 4 is one of the most stable shoes in the ASICS running collection. Featuring a softer and smoother design, it is functional for overpronators seeking a more supportive and cushioned step.
- The midsole implements a FF BLAST™ cushioning unit and PureGEL™ technology. These features help provide a more energized toe-off with cloud-like softness underfoot.
- Meanwhile, the LITETRUSST™ midsole technology improves stability, creating a smoother and more balanced stride.

FEATURES

- Engineered mesh upper: Improves breathability and wraps the foot with a soft feel
- LITETRUSST™ Technology: Improves medial support and midfoot integrity
- FF BLAST™ cushioning: This material helps provide lightweight impact absorption and a responsive rebound
- Rearfoot PureGEL™ technology: Helps provide lightweight cushioning and softer landings
- OrthoLite™ X-30 Sockliner: Provides soft step-in comfort
- Full-ground contact design: Creates a smoother and more efficient ride"

GT-1000™ 14

- Our approach for the GT-1000™ 14 shoe was to modernize the shoe with more energized cushioning experience.
- The midsole is updated with FF BLAST™ cushioning in the midsole. It's designed to help create a lightweight and more energetic response.
- This design also features a 3D GUIDANCE SYSTEM™ to help increase stability for a balanced and confident stride.

FEATURES

- Engineered mesh upper
Improves breathability and wraps the foot with a soft feel
- 3D GUIDANCE SYSTEM™ helps provide adaptive stability
- FF BLAST™ cushioning provides lightweight and energetic impact absorption
- Rearfoot PureGEL™ technology helps provide lightweight cushioning and softer landings
- OrthoLite™ Hybrid Max sockliner provides soft step-in comfort
- AHAR™ LOW outsole rubber help create advanced

COMPETE

NOOSA TRI™ 16

- The NOOSA TRI™ 16 shoe is designed to help create an energetic toe-off and advanced energy savings.
- Bold colors and patterns are met with a breathable engineered mesh upper to help keep your feet cool and comfortable.
- The midsole includes a FF BLAST™ PLUS cushioning unit that helps create lightweight and soft impact absorption underfoot.

FEATURES

- FF BLAST™ PLUS cushioning: Our softest cushioning material that's also lightweight
- 3D GUIDANCE SYSTEM: Helps provide adaptive on-demand stability
- Engineered mesh upper: Improves breathability
- ASICSGRIP™ outsole: Helps to improve durability
- The sockliner is produced with a solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- Full-ground contact design: Creates a smoother and more efficient ride

FUJI LITE™ 6

- The FUJI LITE™ 6 shoe helps provide better control so you can have the confidence to go fast on the trails.
- FF BLAST™ PLUS cushioning is positioned in the midsole to help provide lightweight impact absorption to keep your feet comfortable on varying terrain.
- The midsole is modified with a midfoot wrap feature in the lateral section of the forefoot. This update helps you experience better control on challenging trails and helps give you the confidence to run fast.

FEATURES

- Engineered mesh upper improves breathability
- At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- Reflective details help improve visibility
- Lace garage tongue feature allows the wearer to tuck in their laces, so they don't come untied or snag anything when you're running
- FF BLAST™ PLUS cushioning made with approximately 24% bio-based content using renewable sources creating a softer landing and a more responsive toe-off
- ASICSGRIP™ outsole helps runners experience better traction and durability on wet and dry trail surfaces
- Vegan Friendly: For this product, no materials of animal origin are applied in the design and material selection stages, including: the yarns, glues or other adhesives applied in the product.
*The product is not certified as vegan by an independent third party.

GEL-TRABUCO® MT GTX

- The GEL-TRABUCO™ MT GORE-TEX shoe is a comfortable design for exploring the trails. With a more comfortable GORE-TEX™ invisible fit system, this shoe helps prevent rain and snow from entering the shoe's interior.
- The mid-top construction is designed to help keep various elements from entering the shoe's interior. It also features a durable toe guard to resist the trail's rugged conditions.
- A lightweight and energetic foam technology called FF BLAST™ PLUS cushioning is strategically positioned in the midsole. This helps create a soft feel with advanced impact absorption underfoot. Meanwhile, a rock protection plate helps shield your feet from impact against rocks and debris on the trails.

FEATURES

- GORE-TEX™ invisible fit
Helps prevent rain and snow from entering the shoe's interior while keeping your feet warm
- At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- Lace holder helps keep the laces from coming untied
- Rearfoot GEL™ technology improves impact absorption and creates a softer feeling at footstrike
- FF BLAST™ PLUS cushioning made with approximately 24% bio-based content using renewable sources creating a softer landing and a more responsive toe-off
- Toe guard helps to improve durability around the toe area
- Rock protection plate features a flexible design that helps shield your foot from rocks and rugged terrain
- Reflective details designed to improve visibility in low-light conditions
- ASICSGRIP™ outsole rubber provides advanced grip on varying terrain
