BASEBALL SOFTBALL

PERFECTION

Made with premium game leather, the Perfection Pro Baseball is the preferred baseball for collegiate and elite-level high school baseball programs.

PREMIUM MATERIALS

Pro-grade gray wool windings and a premium leather cover make this the top-of-the-line baseball.

MAXIMUM PERFORMANCE

Proprietary winding technology creates a more durable, high compression core for the best performance.

CONSISTENT FEEL

Cushioned cork center keeps leather tight to the core, eliminating stretch and undue softness found in other baseballs.

WHY RUIN ANOTHER GAME BALL?

DEFY THE RAIN

with the ALL WEATHER™ BASEBALL

- Save up to 50% of your baseball budget—don't waste standard wound balls when it's wet.
- Balls remain playable even when wet and return to original weight after 24 hours drying time.
- Differentiate from your official league baseballs with our blue seam.
- Doubles as a great practice ball in dry conditions outside.

The All Weather ball and the traditional ball are placed into water at the same time.

After 20 minutes the traditional ball sinks due to moisture absorption while the All Weather ball is still afloat.

After 24 hrs in the water the All Weather ball is still floating!

With 24 hrs of drying time, the All Weather ball has returned to its original weight, while the traditional ball remains unplayable.

SEEING IS BELIEVING

Different pitches will produce different spin and seam movement. Learn to identify multiple pitch types in the cage. Baden training balls are the ONLY practice balls to feature an inset red seam.

FASTBALL

Significant backspin and seam movement, Vertically blurred, 6 o'clock to 12 o'clock rotation.

CURVEBALL

Large amount of horizontal and vertical movement, Slower rotation than a fastball, 11 o'clock to 5 o'clock rotation (RHP).

SLIDER

More horizontal than vertical movement, Faster rotation than a curveball, 9 o'clock to 4 o'clock rotation.
