Let's connect — whether it's for a moment, a mile, or a marathon.

Because when we move together, we become something much bigger than ourselves.

Let's share more than the road.
Let's share our stories, our motivations,
and our passions.

Let's create deeper bonds, lasting memories,
and enduring community.
One step at a time.
One foot in front of the other.

Let's
Run
There

RUNNING RESPONSIBLY

Our goals are simple: everyone who wants to run is welcome to run and everyone who runs has a place to do it.

OUR PEOPLE AND PLANET PATH GUIDES OUR EFFORTS AROUND FIVE PRIORITIES:

1. Workplace, Runners, & Run Community
Reduce barriers to participation in the running industry, on the run, and in the running community

2. Community Impact
Create partnerships to advance health and well-being in our communities and make the run open to all

3. Responsible Sourcing
Establish long-term relationships with factories that share our objectives to trace our supply chain, respect human rights, and strengthen environmental management

4. Climate Action
Achieve science-based targets to reach net-zero greenhouse gas emissions by 2040

5. Sustainable Consumption
Convert to recycled or bio-based materials, eliminate footwear manufacturing material waste sent to landfill or incineration, and take responsibility for our product at its end of life

Each season is an opportunity to take a step closer to our People and Planet goals. We're excited to share key highlights of our progress toward our Climate Action and Sustainable Consumption objectives.

FALL 2026 FOOTWEAR STATISTICS

- New Fall 2026 footwear styles avoided 3.5 million kilograms of greenhouse gas emissions by using recycled materials equivalent to over 6.1 million miles driven by an average gasoline-powered passenger car.
- 99% recycled content in the textile materials of each product, on average.
- 30% recycled content in each product, on average, including upper components, midsole, and outsole.
- 14% recycled content in the outsoles of all road styles on average, with 30% recycled content in the Ghost 18 GTX.

SEASONAL COLOR

We harness the power of color to distinguish our brand, amplify our product, and connect with you.

Our color designers, who are experts at capturing emotions and creating connections through color, carefully select hues that speak to your inner feelings, desires, and aspirations. Every combination is crafted to evoke the right mood, making sure the colors resonate with who you are and how you want to feel.

Whether you want to stand out, pump up, or kick back, we've got a color palette to match your every mood and every move. Choose your adventure.

PRODUCT MAP

Introducing **Series** and **Experience Platforms**

This season, we're organizing product in a new way to spur exploration and help every runner find their ideal experience.

**SERIES REPRESENT A CLEAR PRODUCT PROMISE
THAT APPLIES TO ALL STYLES WITHIN IT.**

GLYCERIN: Ultimate Luxury

Ultimate expression of the smartest and most innovative technology in our line to deliver a premium, plush ride.

HYPERION: Performance Advantage

Leveraging performance technology to make fast feel easier.

GHOST: The Perfect Blend

Optimizing the combination of footwear technology to bring perfect balance to the run.

REVEL: Gateway to the Run

Drawing on features and design from core Dynamic Cushion to deliver performance product at a more accessible price point.

ADRENALINE GTS: Reliable Structure

Targeted structure that is fine-tuned to provide confidence with each step.

EXPERIENCE PLATFORMS DENOTE A SPECIFIC INTENTION OR FIT TYPE THAT'S APPLIED TO THE SERIES.

Product Architecture

Men's

RUN & WALK

GLYCERIN 23

\$175 | #5269

Run distraction-free with tuned cushion for plush landings and electric toe-offs.

More tuned cushion

DNA TUNED via zonal nitrogen infusion takes plush landings and electric toe-offs to the next level, so you can savor every mile.

Comfortable, accommodating fit

Our modern and streamlined upper features an engineered knit, which provides enhanced comfort and breathability in a fit that's soft and accommodating.

Smooth and stable transitions

The wide platform plus the tuned heel and forefoot provide a smooth and steady transition from heel-to-toe.

More Details

- 2 mm more DNA TUNED cushion in forefoot than Glycerin 22
- Enhanced triple jacquard warp knit for a more plush, comfortable fit
- 8 mm offset

Men's

RUN & WALK

GLYCERIN FLEX

\$170 | #0539

Be in control of the run like never before with innovative flexible cushioning working as an extension of the body.

Unleash your feet

The innovative smooth ride offers carefully crafted flexibility, from midfoot to toe-off, to feel the best parts of the run and support to go the distance. The strategically placed asymmetrical midfoot flex groove combined with the podular lateral forefoot flexibility work together to provide flexibility and support where you need it.

Expertly tuned cushion

Featuring DNA TUNED with tuned nitrogen infusion for plush landings and electric toe-offs to keep you running with ease.

Comfortable, flexible fit

Our engineered flat knit upper provides enhanced comfort and breathability that's flexible and moves with your foot.

More Details

- Strategic flex grooves are designed for optimal flexibility and a smooth ride from landing to toe-off.

RUN & WALK

Men's

GLYCERIN MAX 2

\$200 | #00011

Run on autopilot and experience more memorable moments as you land with max softness and spring forward with ultimate ease.

Expertly tuned cushion

Featuring nitrogen-infused DNA TUNED foam, combining large cells in the heel for airy landings and small cells in the forefoot for electric toe-offs. No added layers. One seamlessly tuned cushion.

Effortless transitions

Our thoughtfully crafted GlideRoll™ Rocker features dramatically sculpted bevel and toe spring geometries designed for an optimal and effortless heel-to-toe transition.

Stacked to the max

A boundary-pushing amount of DNA TUNED helps protect your body from impact and will leave your legs feeling fresh.

More Details

- Triple jacquard air mesh provides plush comfort around the foot and supportive midfoot adjustability.

RUN & WALK

Men's

NEW

GHOST 18

\$150 | #0528

Embrace the run with the perfect blend of cushion, balanced support, and comfort.

Soft and dynamic cushioning

Nitrogen-infused DNA LOFT v3 foam delivers lightweight, soft, and dynamic cushioning with balanced support. Plus, a new Ortholite sockliner provides a soft step in and a smooth ride.

Secured and supportive fit

Feel secured and supported with an enhanced upper construction, featuring a flat knit tongue and breathable, triple jacquard engineered mesh to help lock the foot in place.

Refined design

The new, two-color engineered air mesh provides breathability, and the smooth and flexible flat-knit tongue features a pillow design to help protect the top of your foot.

What's New

- Soft and flexible flat knit tongue for top-of-foot comfort
- New triple jacquard engineered air mesh with roundlight yarn
- Ortholite X-60 sockliner for soft step in

More Details

- The outsole features lightweight RoadTack rubber, which is made using a mix of rubber and recycled silica
- 3M reflectivity on heel collar and lateral heel
- Mini path logo on vamp mesh

RUN & WALK

Men's

NEW

GHOST 18 GTX

\$180 | #0099

Embrace rainy runs with the perfect blend of cushion, balanced support, and comfort.

Waterproof GORE-TEX® technology

A waterproof GORE-TEX® Invisible Fit membrane is bonded directly to the upper for a lightweight, breathable, flexible fit.

Soft and dynamic cushioning

Embrace your run with premium nitrogen-infused DNA LOFT v3 foam, which delivers lightweight, soft, and dynamic cushioning, plus reliable, balanced support.

Wet traction

The outsole is designed to help improve traction in wet conditions, so you can comfortably run in the rain.

More Details

- Reflectivity on the eyestay and heel

RUN

NEW

GHOST AMP

\$150 | #0528

Engineered with responsiveness and forefoot pop to make the run feel energizing.

Amp up your run

Featuring new SpringRamp forefoot technology designed to help you push off the ground with greater forefoot pop and momentum.

Energizing cushion

New nitrogen-infused DNA HYPE cushioning, a combination of PEBA and EVA, blends softness and responsiveness to pump up the thrill.

Breathable, secure upper

The lightweight warp knit spacer upper is built for breathability, temperature control, and comfort — with structure and lockdown to help secure the foot at high speeds.

More Details

- Nitrogen-infused DNA HYPE cushioning made with a blend of PEBA and EVA
- Lightweight and breathable warp knit spacer upper material
- 6 mm offset
- Gusseted tongue for midfoot lockdown

RUN & WALK

Men's

NEW

GHOST MAX 4

\$165 | #5709

Soft and protective max cushion with seamless transitions help running feel easy.

Soft and protective cushioning

Nitrogen-infused DNA LOFT v3 cushioning stacked high provides comfort and protection to help lessen the feeling of impact on runs.

Easy, assisted transitions

A low offset and the curved shape of our GlideRoll™ Rocker actively assist your heel-toe transition, helping runs feel easier.

Stable and accommodating fit

A broad base provides inherent stability, plus its ample volume accommodates orthotics and varied foot shapes and sizes.

More Details

- Linear last adds more volume to the shoe for a comfortable, more inclusive fit that also is great when using orthotics.

RACING

NEW

HYPERION ELITE 6

\$275 | #52151

Athlete-tested innovation for next-level racing speed and endurance.

Limitless power

New softer, lighter, and more responsive nitrogen-infused DNA GOLD cushioning is made with pure PEBA and is designed to optimize force production to help give you an advantage. Based on pressure maps used with athletes, the new carbon fiber SpeedVault+ plate is engineered to help propel you forward faster.

Aggressive propulsion

Get to your next step faster. We updated our propulsion system by increasing the steep angle of descent for the SpeedVault+ plate and updating the RapidRoll rocker geometries to help lock up the forefoot, ultimately pushing you forward sooner.

Cutting-edge fit for raceday

Experience an ultralight, silky, and fitted upper that offers stretch where you need it. Silicone lace-sheaths and a full TPU-pressed upper seamlessly connect the shoe to the body to help keep your foot on the platform. The upper is engineered with breathability and reinforcement where needed to reduce layers and excess weight without adding extra parts and pieces.

More Details

- Tested and developed with Brooks-sponsored athletes
- Improved formulation of DNA GOLD
- Carbon SpeedVault+ plate

NEW

HYPERION MAX 4

\$200 | #00011

Maximize your training with this lightweight, cushioned and speedy trainer.

Train to the max

A high-stack combination of DNA GOLD and DNA FLASH v2 helps protect you from impact while our nylon SpeedVault plate helps propel you to hit your times.

Quick, easy, assisted transitions

The curved geometry of our RapidRoll™ Rocker actively assists your heel-toe transition to help promote quick, forward turnover.

Breathable, secure upper

The new upper is built for breathability, temperature control, and comfort in high-irritation areas. A gusseted tongue helps provide midfoot lockdown with lofted zones for protective comfort.

What's New

- Lightweight and breathable triple jacquard warp knit upper material

RACING

HYPERION ELITE LD 2

\$180 | #0099

Athlete-tested, ultra lightweight innovation for next-level long distance racing.

Lighter than air

Feel distraction-free as you step onto nitrogen-infused, 100% PEBA DNA GOLD.

Optimized for speed

Nitrogen-infused foam and a Pebax spike plate that optimizes torsional rigidity are designed to go the distance, propelling you with extra power during mid-race surges or the final kick.

Invisibly connected

Our lightweight, tensile strength knit upper is built with an anatomical athlete last designed to seamlessly disappear on your foot and help you best any competitor on raceday.

More Details

- 100% PEBA DNA GOLD cushioning
- Tensile-strength knit
- World Athletics-approved for competition use.
- 4-pin spike plate

RACING

HYPERION ELITE MD 2

\$200 | #00011

Athlete-tested innovation for next-level middle distance racing.

Unisex

Power boost

The meticulously engineered, inverted spike plate helps transfer your force on the track into maximized energy return, for propulsive turnover. Our unique plate design features a top-loaded carbon fiber plate and a bottom-loaded Pebax spike plate, which optimize bending stiffness and help give back the energy you transfer with each step, so you can get onto your toes for that final kick or mid-race surge.

Optimized for speed

100% PEBA DNA GOLD nitrogen-infused foam, paired with the propulsive inverted spike plates, help optimize torsional rigidity, to push your speed limits.

Fully connected

Our 100% TPU woven upper is anatomically designed to create the ultimate, locked in fit for any speed on raceday.

More Details

- 100% PEBA DNA GOLD cushioning
- Woven and knit upper
- World Athletics-approved for competition use.
- 6-pin spike plate

LAUNCH 12

\$120 | #0066

Say hello to this authentic running shoe that is supported, fun, and focused. It has everything you need and nothing you don't.

Design utility

Every detail in the upper design, including the airy mesh material, is crafted to deliver a comfortable fit while colorfully celebrating the reliable, fun features of the shoe.

Fast is fun

Run boundlessly with lightweight, nitrogen-infused DNA FLASH cushioning, plus responsive DNA FLASH v2 cushioning in the forefoot, to help you push off the ground.

Support each step

The cushioning hugs your foot to help stabilize landings, and the RoadTack rubber outsole provides grip and traction for forward turnover, so you feel ready to run any pace, any time.

BEAST GTS 26

\$170 | #0539

ARIEL GTS 26

\$170 | #0539

Structured support and durable cushioning for a reliable running experience.

GuideRails™ support

GuideRails™ offers structured support that lets you move confidently and comfortably by helping guide you, as needed. This technology, mixed with a broad, stable base, gives the Beast/Ariel GTS 26 its trusted support.

Comfortable and durable cushioning

Nitrogen-infused DNA LOFT v3 provides balanced, adaptable cushioning that's durable and comfortable, with more softness that doesn't detract from support.

Accommodating, secure fit

The modern streamlined upper is designed to offer a generous, roomy fit that accommodates varied foot shapes yet provides the lockdown you need for comfort and zero distractions.

TRAIL

Adapt to any terrain

Rugged alpine climbs. Jagged volcanic peaks. Loose glacial till. The trails of the Pacific Northwest can be as diverse as they are demanding. The Cascadia series harnesses twenty years of experience running PNW trails to create adaptive footwear that's as formidable as its namesake.

Whether you're in the trail racing circuit and need the precision and performance of the Cascadia Elite, or you're running on local trails and need the comfort and versatility of the Cascadia 20, the Cascadia series is ready for it all.

Beyond the Cascadia series, our Ghost Trail offers accessibility to those just beginning to venture onto trails. From technical trails to light gravel, our trail line has something for everyone looking to hit the trails.

The Cascadia logo is located in the bottom right corner of the page. It features the word "CASCADIA" in a bold, sans-serif font. The letters are white with a thick black outline. A small registered trademark symbol (®) is positioned to the right of the word. The logo is set against a dark, rectangular background that appears to be a close-up of a shoe's sole or tread pattern.

CASCADIA®

NEW CASCADIA 20

The workhorse of our trail products, the Cascadia 20 offers a stable and adaptable ride, all-terrain traction, and protective comfort for any trail.

NEW CASCADIA 20 GTX

The workhorse of our trail products, the Cascadia 20 GTX offers a stable and adaptable ride, all-terrain traction, and protective comfort for any trail with a waterproof GORE-TEX upper for rainy trail runs.

GHOST TRAIL

The most approachable of our trail products, the Ghost Trail provides the runner with confidence to venture off-road.

CASCADIA ELITE

The athlete-validated Cascadia Elite is an ultra-ready, plated racing shoe for competitive trail runners looking to race any distance.

TRAIL

CASCADIA ELITE

\$275 | #52151

An athlete-validated plated racing shoe for competitive trail runners looking to chase FKTs and podiums.

Float across trails

Designed to sustain speed across the trail thanks to our carbon-infused Pebax SpeedVault+ trail plate sandwiched between layers of DNA GOLD 100% PEBA cushioning. This combination helps you stay controlled as you climb, propel effortless strides on flat surfaces, and enable a smooth and stable ride as you descend.

Vibram Megagrip Elite

Confidently traverse any wet or dry terrain on raceday, with a Vibram Megagrip Elite outsole, meticulously designed to provide excellent grip on a variety of surfaces and to keep up with you as you push the pace. This race-ready outsole rubber underwent countless hours of testing to ensure optimization for elite performance.

Ultra performance fit

The dynamically secure MATRYX® engineered woven upper with Kevlar® fibers is designed to hold your foot in place while still being flexible. The PU-coated yarns offer a hydrophobic quality to help water and sweat escape from your shoe and eliminate added weight, so you can avoid distractions and focus on your race.

TRAIL

NEW

CASCADIA 20

\$160 | #0088

A stable and adaptable ride, industry-leading traction, and protective comfort for any trail.

Vibram Megagrip outsole

The industry-leading Vibram Megagrip outsole features 4 mm lugs and Traction Lug technology for exceptional grip on wet and dry surfaces. This trail-ready outsole provides excellent traction on soft and firm terrain.

Trail Adapt technology

Our Trail Adapt technology features a wide base of support, flexibility in critical areas, and adaptable lugs to help you move through the trail. Plus, we've added 4 mm of nitrogen-infused DNA FLASH v2 cushioning for comfort and protection.

Enhanced, trail-ready fit

The upper incorporates a durable yet soft air mesh with added 3D overlay protection features for zonal protection on high-abrasion areas.

What's New

- Vibram Megagrip outsole
- Nitrogen-infused DNA FLASH v2
- 4 mm added cushion in heel and forefoot

More Details

- Toe cap and mudguard for upper protection

TRAIL

NEW CASCADIA 20 GTX

\$190 | #05401

Waterproof, stable, and adaptable, with industry-leading traction for rainy trail runs.

Waterproof GORE-TEX® technology

A waterproof GORE-TEX® Invisible Fit membrane is bonded directly to the upper for a lightweight, flexible fit that provides breathable protection from the elements.

Vibram Megagrip outsole

The industry-leading Vibram Megagrip outsole features 4 mm lugs and Traction Lug technology for exceptional grip on wet and dry surfaces. This trail-ready outsole provides excellent traction on soft and firm terrain.

Trail Adapt technology

Our Trail Adapt technology features a wide base of support, flexibility in critical areas, and adaptable lugs to help you move through the trail. Plus, we've added 4 mm of nitrogen-infused DNA FLASH v2 cushioning for comfort and protection.

What's New

- Vibram Megagrip outsole
- Nitrogen-infused DNA FLASH v2
- 4 mm added cushion in heel and forefoot

More Details

- Reflectivity on lateral eyestay and lateral mudguard for increased low light visibility

TRAIL

GHOST TRAIL

\$150 | #0528

Discover new adventures with a trusted run companion that gives runners the confidence to venture offroad.

Reliable comfort

Experience the familiar, comfortable feel and ride of the fan-favorite Ghost with nitrogen-infused DNA LOFT v3, designed to help soften your landings.

All-terrain traction

The flexible Ghost-inspired outsole and geometry are upgraded with TrailTack Green rubber, which offers excellent traction on wet and dry surfaces. This outsole is enhanced for all-terrain traction with 3 mm lugs, so you can run offroad with confidence.

Comfortable fit with durability

Our soft and breathable air mesh upper offers a comfortable and secure fit, with an added 3D-printed layer in the toe cap and mudguard, for just enough protection and durability to venture offroad.

More Details

- TrailTack Green is made with 25% recycled content.

NEW

GHOST MAX SLIP RESISTANT

\$175 | #5269

Soft and protective max cushion for all-day wear, with water and oil slip resistance.

Soft and protective cushioning

Nitrogen-infused DNA LOFT v3 cushioning stacked high helps to decrease underfoot pressure for added comfort and protection over long hours on foot.

Water and oil slip resistance

Our slip-resistant outsole features VersiGrip technology, specifically designed for slip resistance on water and oil surfaces. The outsole complies with ASTM 3445-24.

Easy-to-clean leather

Upper features full-grain leather for durability and comfort, plus its smooth finish makes it easy to clean.

More Details

- New VersiTack rubber
- Linear last adds more volume to the shoe for a comfortable, more inclusive fit that also is great when using orthotics.
- Tested in accordance with ASTM 2913-24
- Non-marking outsole
- New 6 mm Ortholite sockliner

Feel the run — cushioned, flexible, and fresh.

In-tune experience

High-pile cushioned pressure points placed in key areas of the foot offer a unique sensory experience. Designed to allow you to feel more in tune with the run than ever before.

Enhanced flexibility

We reduced the compression underfoot, utilizing a looser knit weave under the arch for more freedom and midfoot flexibility.

Anatomically designed

Engineered for your feet — not just your shoe size — with a seamless toe to prevent rubbing and targeted underfoot cushioning to absorb impact.

NEW

CASCADIA CREW SOCK

280546 | \$25 | #0521

Sizes

S-XL

Intro date

06/27/2026

Fabric

- 63% Nylon, 33% Polyester, 4% Spandex

More details

- Cushion: Medium
- Mesh at top of foot for breathability
- Strategically placed ribbing on leg for stretch and ease of wear
- Seamless toe
- Y-heel design provides a locked in fit at the heel

Long-lasting comfort over the toughest trails.

Sweat wicking

Featuring a technical yarn blend to wick moisture fast and keep your feet cool. Fiber cross-sections move moisture to the outside of the fabric, where it quickly evaporates.

Antimicrobial

An added antimicrobial treatment helps fight odor before it starts — so you stay fresher, longer.

Anatomically designed

Engineered for your feet — not just your shoe size — with a seamless toe to prevent rubbing, targeted underfoot cushioning to absorb impact, and arch support that hugs your foot to eliminate unwanted movement.

RESET CREW SOCK 2-PACK

280552 | \$28 | #0041

Our go-to cotton-blend sock.

All-day comfort

Knit with soft and smooth cotton blend for comfort that lasts.

Plush cushioning

Underfoot cushioning provides extra padding to help absorb impact and improve overall comfort.

Odor resistant

Stay fresh longer. These socks are treated with an odor-resistant finish that helps keep unwanted smells at bay.

Sizes

TECH TALK

Specialized, high-tech features that set our shoes apart.

midsole

MIDSOLE FOAMS

DNA GOLD

DNA GOLD represents our pinnacle performance foam. We are constantly iterating on this foam to deliver the most cutting-edge, performance-oriented formulation, optimized for elite athletes on race day.

DNA FLASH v2

A fine-tuned nitrogen-infused midsole cushioning compound that is softer, lighter and has nearly 10% more energy return than the original DNA FLASH.

DNA FLASH

A nitrogen-infused midsole cushioning compound that provides ultralight softness with plenty of energy return to power your run.

DNA HYPE

A nitrogen-infused foam featuring a blend of PEBA and EVA for lively responsiveness and just the right amount of softness.

DNA TUNED

The next nitrogen-generation of foam is here. DNA TUNED is infused with nitrogen and features dual-size cell technology — larger cells for softness and smaller cells for responsiveness.

DNA LOFT v3

We fine-tuned the nitrogen infusion process to amplify our soft cushion compound. DNA LOFT v3 boasts optimized softness, enhanced responsiveness, and lighter weight, all without sacrificing durability.

DNA LOFT v2

Lighter than the original but just as soft, DNA LOFT v2 has a unique balance of rubber, air, and a less dense, lighter foam, for a plush feel that won't bottom out or weigh you down.

DNA LOFT

A finely calibrated mix of Brooks DNA foam, air, and rubber, DNA LOFT is our soft cushioning engineered for plush comfort without lost responsiveness or durability.

MIDSOLE TECHNOLOGIES

Flex Grooves

Strategic etching underfoot that enhances flexibility, for an effortless forefoot ride without compromising the integrity of the cushioning.

SpeedVault Plate

Built for daily use, this Pebax Rnew® speed plate features optimized stiffness for training. It's designed to propel the runner forward and provide energy return.

SpeedVault+ Plate

Made for speed, this carbon fiber plate delivers a consistent experience for runners with different shoe sizes and builds — the right bending stiffness, with no added weight. And no added waste, thanks to near-zero-waste manufacturing methods.

SpeedVault+ Trail Plate

A trail-specific carbon-infused Pebax plate with optimal design and geometry for stable propulsion and adaptability on trails to help efficiently sustain momentum.

SpringRamp Technology

An engineered propulsion zone that offers a firmer platform for more explosive toe-offs.

Segmented Crash Pad

A system of fully integrated shock absorbers that accommodates any foot landing to maximize efficiency, provide cushioning, and create smooth heel-to-toe transitions.

RapidRoll™ Rocker

The curved sculpting of the heel and toe of the midsole is constructed to actively propel you forward with effortless speed.

GlideRoll™ Rocker

The GlideRoll™ Rocker facilitates a smooth transition forward in each step. It delivers more comfort — keeping some people in their habitual motion path — to help the body do less.

Trail Adapt Technology

A set of features that work to provide adaptability on varied terrain, including a wide base of support, flexibility in critical areas, and adaptable lugs.

midsole *(continued)*

SUPPORT

Structured Support

Featuring GuideRails™ Technology System, an innovative, on-demand support technology that guides the body — hips, knees, and joints — into its natural motion path of least resistance.

Flexible Support

Midfoot flex groove helps facilitate the body's preferred motion path.

Balanced Support

Secure heel with dynamic forefoot provides inherent stability.

Max Support

GlideRoll™ Rocker provides assisted transition from landing to to-off.

Extended Progressive Diagonal Rollbar

An extended version of our Progressive Diagonal Rollbar, which is a tri-density post at the medial arch that is biomechanically engineered to allow for progressive support and create smoother transitions from the midstance phase to the propulsion phase.

outsole

Ballistic Rock Shield

A toughened, thermoplastic EVA sheath between the outsole and midsole that protects the forefoot by spreading out point loads from sharp objects.

Blown Rubber

A low-weight rubber compound. We dialed down the density to crank up the responsiveness.

HPR

High-performance rubber, or HPR, is an outsole compound that's abrasion resistant and durable for longer wear.

RoadTack Rubber

Our do-it-all rubber compound designed for durability, light weight, and rebound. Made using a mix of rubber and recycled silica.

TrailTack Rubber

A sticky rubber compound that provides outstanding uphill and downhill traction, even on wet surfaces.

TrailTack Green

The next generation of TrailTack Rubber, TrailTack Green, includes recycled content and requires less material to build than the original. So it's easier on the environment while still delivering excellent wet-dry traction on the run.

Vibram Megagrip Elite

Meticulously designed to provide grip on diverse surfaces and to keep up with race paces. This premium outsole rubber underwent countless hours of testing to ensure optimization for elite performance on raceday.

Vibram Megagrip

A high-performance rubber compound by industry-leading Vibram with excellent traction on both wet and dry terrain.

upper

Engineered Mesh

Custom-designed and strategically woven, our knit mesh provides optimal structure and breathability.

Flat Knit

Knit construction specifically designed to move and expand seamlessly with your foot for a sock-like fit and optimal performance.

GORE-TEX® Invisible Fit

An updated lightweight membrane is bonded directly to the upper for a lighter, more flexible fit, offering breathable, waterproof protection on the run.

MATRYX® Upper

An engineered woven upper with Kevlar fibers for strength and durability and PU-coated yarns for a hydrophobic quality.

OrthoLite® Sockliner

Contoured insert designed to fill any negative space under the foot.

3D Fit Print

An advanced screen printing process to apply strategic stretch and structure for a seamless, impeccable fit.

Stretch Woven

A lightweight upper construction that wraps the foot for a pliable yet locked-in fit.

TPEE

A durable, abrasion-resistant, hydrophobic fiber used primarily in our Trail upper textiles to help protect the foot from debris.

Ultimate Sockliner

A PU insert with an OrthoLite® memory foam middle layer and convoluted egg-crate surface that provides substantial cushioning, breathability, and conformability.

Service is important to us at Brooks. That's why we strive to make FastTrack, our B2B Solution, the best it can be for you!

WITH FASTTRACK, YOU CAN:

- Hide wholesale/discount prices and show your customers what is available in the specifications they want
- Use it via web browser on mobile, desktop, laptop, and more
- Easily place future orders during the seasonal booking window
- See and place MRAs (Brooks Special Make Ups)
- Drop ship an order for a customer anywhere in the state your store(s) are located
- Quickly view LIVE Available to Sell (ATS) inventory for footwear, apparel, bras, and accessories
- View your order status and track your shipments
- Scan barcodes on box labels or app tag to see more product information and place a replenishment/special order
- Use "smart panels" to display what you have coming on order in the next 30, 60, or 90 days
- See what product is on discount, which styles are the top shipped, and more

For the best performance, we suggest operating FastTrack on the Chrome browser.

You can also access our world-class customer service team (Brooks Runner Experience experts) using Runhappy Retail via runhappyretail@ebrooksrunning.com. Please cc your Brooks sales rep and note your account name, number, and specific inquiry.

LOCALLY

Did you know runners are 4x more likely to do their research on brooksrunning.com and buy in a physical store than they are to finish their purchase online? Locally.com allows Brooks to tell online shoppers when you have our products available in store. We have found that retailers who share their inventory with Locally.com benefit from the web traffic on brooksrunning.com. Signing up for Locally can:

INTRODUCE RUNNERS TO YOUR STORE

Locally provides additional exposure to runners new to town or who haven't been into your store yet. Enjoy a customizable notification schedule that lets you receive text and/or email alerts during business hours. You also have the option to direct message with the shopper at any time during the ordering process. Retailers who share inventory with Brooks through our dealer locator on Locally get five times more views than those that don't.

DRIVE TRAFFIC AND SALES

On Locally, customers can choose between these options: Reserve Online/Pickup In Store, Buy Online/Pickup In Store/Same Day Delivery. Sales from these transactions on Locally have increased 4-6X throughout 2020 as customer shopping behavior has evolved. This expanded toolkit gives runners more opportunities than ever to shop your store. You can also accept orders for in-store pickup directly from brooksrunning.com, Facebook, your own site, and Locally.com.

HELP US HIGHLIGHT YOUR STORE

When our website inventory runs low, we direct runners to Locally to search retail inventory in their hometowns — at stores like yours! And Brooks can layer Locally's store locator tool into marketing campaigns to drive attendance to store events.

Have any questions or just want to get started? Contact your Brooks rep, or head straight to www.locally.com/go/launch.

NEW

Locally now offers same-day delivery. To provide support for new shopping behaviors, Locally now enables all participating retailers same-day delivery with no additional cost. Same-day delivery is a great addition to in-store or curbside pickup. Available in Postmates market (US only for now), standard 3.5% transaction fee plus carrier delivery charges still apply.
