END OF AN ERA...

2022 marked the end of an era for Cap America. Senior Vice President Bob Rauh retired at the end of this past year after being with the company for twenty-one years. Bob met company founder Phil Page when they both worked together at International Hat almost forty years ago. Phil left International Hat to found Cap America, but it wouldn't be the last he saw of Bob. Sixteen years later in 2001, Cap America was just getting into the import business. Bob was familiar with the company his old colleague had founded and through a mutual connection, presented an entire import proposal to Phil. Phil accepted, and the rest, as they say, is history.

Bob officially joined Cap America at the end of 2001 and worked remotely from beautiful Temecula, California. He found a

dedicated on-site colleague in Cindy Ward, who worked at the factory in Fredericktown, Missouri and was able to help begin to develop an overseas department. "When we started the overseas department, I knew nothing about overseas production, but Bob was very patient and taught me so much," Cindy told me. "It is amazing to see how much the department has grown over the years and that is in large part due to Bob. He was an amazing boss and is an amazing friend. I wish him the best in his retirement."

Bob also hired Joyce Li and created the first Cap America international office in 2003. He spent time traveling throughout Asia working closely with our factory partners to build long lasting business relationships that Cap America could depend on for years to come. "It is really difficult to say goodbye to a colleague and friend of over twenty years," Joyce said. "I have learned so much from Bob about sourcing and product development, but the most valuable thing I learned from him and will cherish is the sense of gratitude for our current successes and the desire to continuously progress towards more."

A few years after hiring Joyce, Bob brought Sarah Page in to join the team. Together, the two of them have worked tirelessly to build Cap America's importing business into the trusted and well-respected entity it is. "I've had the privilege to work with Bob for 17 years," Sarah said. "He has been instrumental in my professional growth, offering his guidance and support while demanding excellence. He has also become a dear friend and I value the time he's invested in me and our division. He has taught us all so much and will be greatly missed."

Personally, I will never forget first meeting Bob. It was at the conclusion of my first Cap America sales meeting. He waited until everyone else in the room had left so we could speak without being

interrupted. We ended up talking for hours, and he has been an amazing friend and confidant ever since. I will miss him greatly, but I also know that his legacy will continue on at Cap America. So Bob, dear friend and colleague, this one is for you. I hope you enjoy every second of retirement. I know that I speak for every single person here at Cap America when I say that you will be missed and remembered fondly.

All the best,

DEFINING HEADVVEAR

Basic terminology used for our cap styles

PROFILE Refers to the crown height of the cap above the visor. There are generally 3 types of cap profiles:

► Low Profile ► Medium/Mid Profile ► High Profile

STRUCTURE A baseball cap can have buckram or stiff fabric behind the front two panels of the crown giving it structure & therefore it is called a structured cap. An unstructured cap has no additional support behind those front two panels. If you take a cap off your head & set it down on a flat surface, a structured hat will continue to look the same & generally keep its shape. An unstructured cap will collapse slightly without your head in the hat supporting it.

CLOSURE Adjustable baseball caps have closures on the back of the caps that allow you to adjust the size. Types of closures include:

- Adjustable plastic snap tab, sometimes referred to as a snap back
- ► Fabric strap with two piece hook & loop closure
- ► Stretchable hook & loop closure
- ► Fabric strap with antique sliding buckle
- ► Plus more options

FLEXFIT® The pioneer of stretch-fit headwear, the Flexfit® cap delivers a perfect blend of comfort & style. Available sizes are generally XS, S/M, L/XL and XXL.

FLEXFIT 110® A perfect combination of Flexfit® Tech & adjustable, the Flexfit 110® cap will provide impeccable fit & comfort.

STRUCTURED

UNSTRUCTURED SOFT STRUCTURED

PRODUCTION

Rush orders are accepted only if the production schedule allows. Always contact customer service for current production times.

PRE-PRODUCTION PROOFS ON IN STOCK HEADWEAR

Applicable set up charges such as disc or screen charges will be invoiced when pre-production proof is approved. Proofs for orders will be virtual unless a shipping number is provided.

OVER-RUNS/UNDER-RUNS

Every effort is made to ship exact quantities; however, a 5% over or under variance will be considered complete & billable. A \$40.00(A) charge applies to orders requesting an exact quantity & purchase order must indicate as such.

FABRIC COLOR VARIATIONS

Due to color variations of dye lots, exact color matches of material are not guaranteed. In camouflage patterns, variations may occur in the placement of certain areas of the pattern due to random cutting. Certain distressed materials will have shading variations.

IMPRINT COLORS

Color matches are not guaranteed to be exact, whether PMS colors or color swatches. All materials print differently; therefore, there may be a variation of print colors on orders of different materials or colors. When decorating on camouflage, no guarantees can be made that the pattern will not interfere with decoration (i.e. a branch, leaf or bark may fall behind decoration). Cap America is not responsible for fabric bleeding which may occur when imprinting a light color on a dark fabric. It is not recommended to place a white imprint on a red or black cap because the imprint may have a pink or gray hue. Distressed materials in all colors have a tendency to bleed into light colored embroidery threads & prints.
