TECH STORIES

GROUND CONTROL

PERFECTLY ENGINEERED SCOOP ANGLE DESIGNED SPECIFICALLY TO PICK UP GROUNDBALLS WITH EASE

XRAIL TECHNOLOGY

ENGINEERED TO DISTRIBUTE THE STRESS TO THE OPPOSITE RAIL CREATING A LIGHTWEIGHT AND STIFF DESIGN

TENSION LOCK

ENABLES THE STRINGER TO PRECISELY LOCATE A DEFINED SHOOTING CHANNEL FOR INCREASED ACCURACY

CONTROL CORE

DESIGNED WITH REDISTRIBUTED MASS IN THE SCOOP AND THROAT TO DECREASE WEIGHT, INCREASE STIFFNESS, AND ENHANCE BALL CONTROL

OPTIMAL RELEASE POINT

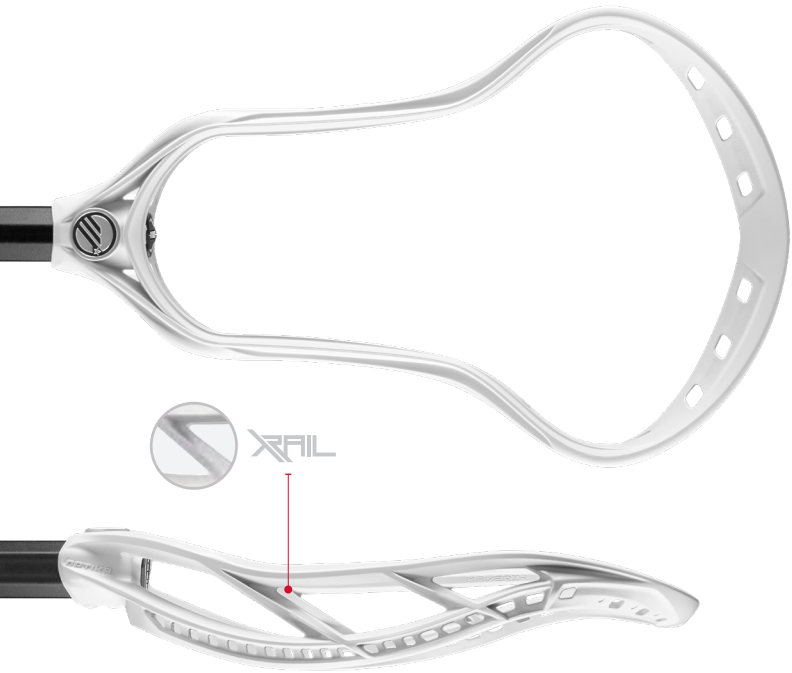

INCREASES CONTROL WITH ADDED HOLD AND HAS EXTREME ENERGY TRANSFER WHEN SHOOTING

DURATOUGH MATERIAL

INCREASES STIFFNESS AND PROVIDES CONSISTENCY IN ALL WEATHER CONDITIONS

OPTIK 3 | FOR THE QUICKEST AROUND THE CREASE

The OPTIK 3 is designed for the elite attackman who initiates the offense. With the addition of Ground Control technology and a shortened throat, this head will improve your accuracy, and control on the offensive end. Used by arguably the best dodging attackman of our generation; Team USA's Jordan Wolf.

KINETIK 2 | FOR THE ELITE SHOOTER

The KINETIK 2 features a tighter face shape for improved ball control, an evolved scoop with Ground Control technology to enhance the angle of attack on GBs all while maintaining a lightweight feel. Control Core technology increases stiffness so the KINETIK 2.0 can continue to load up the stat sheet with high-velocity goals from the perimeter even better than its predecessor.

HAVOK 2 | FOR THE PLAYMAKING DEFENSEMEN

NEW

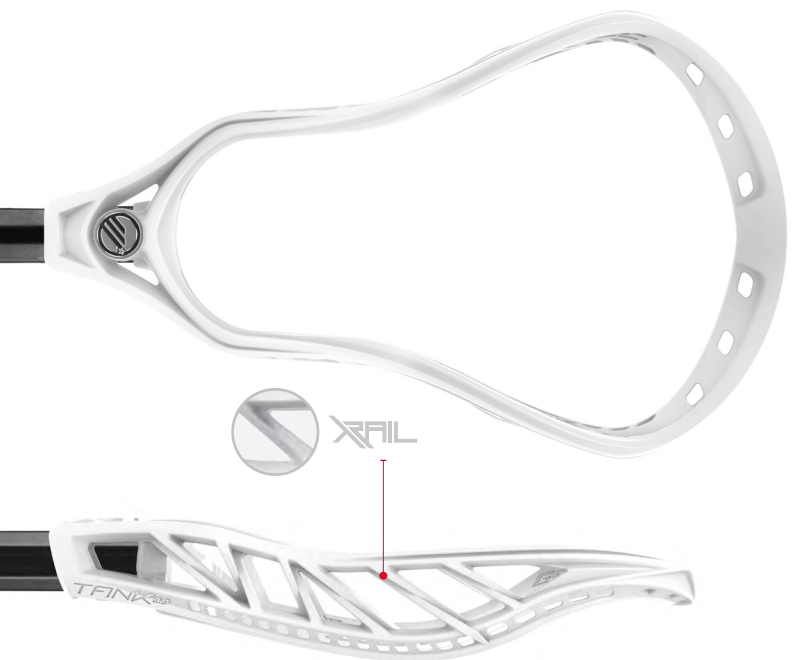

The HAVOK 2 is designed for the elite playmaking LSM or Defenseman. With a tighter face shape and a lightweight 4-strut design, the HAVOK 2 offers a best-in-class strength to weight ratio to deliver precise checks and an increase in caused turnovers. Now featuring a new strut orientation, the HAVOK 2 will ensure you dominate the GB battle.

TANK 2 | FOR THE ELITE CLOSE DEFENSEMEN

Our latest defensive head, the TANK 2.0, is the stiffest head we have ever made. Updated with our Ground Control scoop, defenseman will own the GB battle every time they go into a scrum. New with our X-Rail Technology, the TANK 2.0 has 6-struts to redefine the standards of stiffness in poke checks and slaps. Fundamentally sound defenseman will be making plays all over the defensive side of the ball.

- STRUNG WITH SEMI-HARD MESH FOR IDEAL HOLD

 LEVEL 2 BOTTOM RAIL
MID-LOW POCKET

CHARGER | COMPLETE

The Charger Complete is a high performing beginner stick that makes the game easy to learn. Updated with a new Semi-Soft mesh that's strung to give you increased feel and improve your accuracy.

- GENEROUS FACE SHAPE INCREASES THE CATCHING SURFACE
- NARROW THROAT INCREASES BALL CONTROL
- COMPLETE WITH A SPEED SHAPE 6000 SERIES ALLOY SHAFT

 LEVEL 3 BOTTOM RAIL
MID POCKET

TECH STORIES

EXTERNAL KARDIAC GUARD

Meets new NOCSAE performance Standard ND200 to help protect against commotio cordis, a potentially life threatening injury.

QUICKDRY

New moisture wicking liner that wicks moisture away from the skin, keeping you cool and dry.

AX SUEDE

Ax Suede fabric provides a durable soft and natural feel between the hand and shaft.

E-FORM

Provides best-in-class protection and is body heat activated to provide a custom contoured fit.

FLOWCOOL

FLOWCOOL venting on the back of the hand allows heat to disperse.

DURASTRETCH

Durastretch panels allow for uncompromised 3-way mobility, flex, and fit.

INHALER PALM

The Inhaler Mesh Palm allows for more airflow through the palm.

XRD TECHNOLOGY

Exclusive impact absorption technology that reacts based on the force of the hit - the harder the impact, the more it stiffens to absorb energy.

ANAFORM

Anaform molded foam technology provides a dialed in protection profile while maintaining flexibility and mobility in the pad.

SHARKGEL

Proprietary gel technology that turns hard as steel when impacted, remains flexible when it's not.

M5 EKG SHOULDER PAD

SIZES S M L

The M5 EKG Shoulder Pad provides high-level protection with Maverik's External Kardiatic Guard (EKG) and extra shoulder and arm protection.

- EXTERNAL KARDIATIC GUARD (EKG) MEETS NEW NOCSAE PERFORMANCE STANDARD ND200 TO HELP ADDRESS COMMOTIO CORDIS
- OUR TRADITIONAL FIT IS DESIGNED TO PROVIDE COMFORT AND MOBILITY
- THE ADJUSTABLE COMFORTFIT ARCH ALLOWS PLAYERS TO PERSONALIZE FIT, COVERAGE, AND DRAPE
- QUICKDRY – WICKS MOISTURE AWAY FROM THE SKIN, KEEPING YOU COOL AND DRY
- ANAFORM CHEST AND SPINE PLATES ARE DESIGNED TO MANAGE HIGH VELOCITY IMPACTS
- DURASTRETCH PANELS ACROSS THE TORSO ALLOW PADS TO MOVE WITH THE BODY

JOEY SANKEY

MX GLOVE

NEW

SIZES
S M L

The MX Glove is engineered utilizing the same principles of fit, feel and protection that have made Maverik gloves the preference of elite athletes. Now featuring a seamless construction for added protection. The MX will help new players reach their highest potential.

- BUILT WITH A TRADITIONAL PROFILE AND ADDITIONAL VOLUME IN THE FINGERS AND BACK OF HAND. NOT TOO TIGHT, AND NOT TOO LOOSE

- DUAL DENSITY FOAM MANAGES IMPACT IN KEY AREAS ACROSS THE THUMB AND BACK OF HAND

- SHARK GEL INSERTS ALONG THE THUMB FOR INCREASED IMPACT PROTECTION

- FLOWCOOL VENTING ON THE BACK OF HAND ALLOWS HEAT TO DISPERSE

- MAGNETIC CUFF ELIMINATES VELCRO SNAGS

- NASH PALMS WITH BREAKS IN THE THUMB TO IMPROVE DEXTERITY AND CONTROL

- ISOLATED WRIST CUFF FOR INCREASED PROTECTION

MX EKG GOALIE PAD

SIZES
XS S/M L/XL

The MX EKG Goalie Chest Pad allows for newcomers and intermediate players to join the game and play with confidence in the toughest position on the field. Now with our EKG protection, meeting the new NOCSAE Performance Standard ND200 to help address commotio cordis, you can hop in net ready to lead the defense.

- EXTERNAL KARDIAC GUARD (EKG) MEETS NEW NOCSAE PERFORMANCE STANDARD ND200 TO HELP ADDRESS COMMOTIO CORDIS

- ELASTIC STRAPS ENSURE A SECURE FIT WHILE THE ADJUSTABLE BACK STRAP ALLOWS FOR A PERSONALIZED FIT

- ANAFORM CHEST PLATES ARE DESIGNED TO MANAGE IMPACT FORCES WHILE MAXIMIZING FREEDOM OF MOVEMENT

CHARGER GLOVE

SIZES XS S M L

The Maverik Charger Glove is designed to give young players every advantage. Created from the same anatomical profile as the MAX line of gloves, is both protective and easy to use.

- UPGRADED FIT AND FLEXIBILITY KEEP THE FOCUS ON THE GAME, NOT THE EQUIPMENT
- DUAL DENSITY FOAM MANAGES BACK OF THE HAND IMPACT
- FULL NASH PALMS IMPROVE DEXTERITY AND CONTROL
- FLOWCOOL VENTING ON THE BACK OF HAND ALLOWS HEAT TO DISPERSE

XRS

WE WENT ALL IN SO YOU CAN GO ALL OUT.

PROTECTION

Three different liner technologies unite to optimally address variable force impacts. Each piece of the Tri-Liner system integrates perfectly with each other to create a 360° Fit for the ultimate protection-first package.

COMFORT

Best-In-Class XFlo ventilation ports offer 2X breathability. Balanced and aligned, the XRS is designed with the center of gravity directly at the crown of the head.

VISION

With our new VIXION system, we have increased peripheral vision by 20+% creating a maximum field of view so you can see it all. The Visionbar's PowerPress technology decreases wire diameter on the top bar to improve sight lines and increase face mask rigidity.

CUSTOMIZATION

With over 9.6 million different color combinations, you can find a truly unique look for you, and your entire crew.

A PROTECTION M

EAFx
A high performance impact foam that provides maximum protection to the crown of the head. Shell and liner unite with this precisely molded foam that maintains shape and comfort under impact.

GEN 5 EPP
Engineered to manage variable force impacts that are specific to the front of the helmet and facemask.

Seven tech+
Compresses on impact to laterally displace energy, and within seconds, it completely resets. Placed in key impact zones through the side and rear to manage repeated impacts.

XRS-SERIES JAW
Is a reinforced dual-material jawbone that provides improved stiffness.

SUPERMONO™ X SHELL
The one piece shell and visor design creates a rigid system to manage frontal impacts. Moving the center of gravity to the middle crown keeps helmet weight balanced and aligned.

VISIONBAR
PowerPress technology decreases wire diameter to improve sight lines and increases face mask rigidity. With improved vision, the ball is never out of sight.

ALL ABOUT COMFORT

360 FIT

Our all encompassing fit system that focuses on comfortably wrapping around your head rather than sitting on top.

XFLOW

Expanded ventilation ports provide increased breathability and allows more cool air to flow through the helmet, and for hot air to be expelled out the rear XFLOW exhaust system.

ALL NEW VISION

VIXION

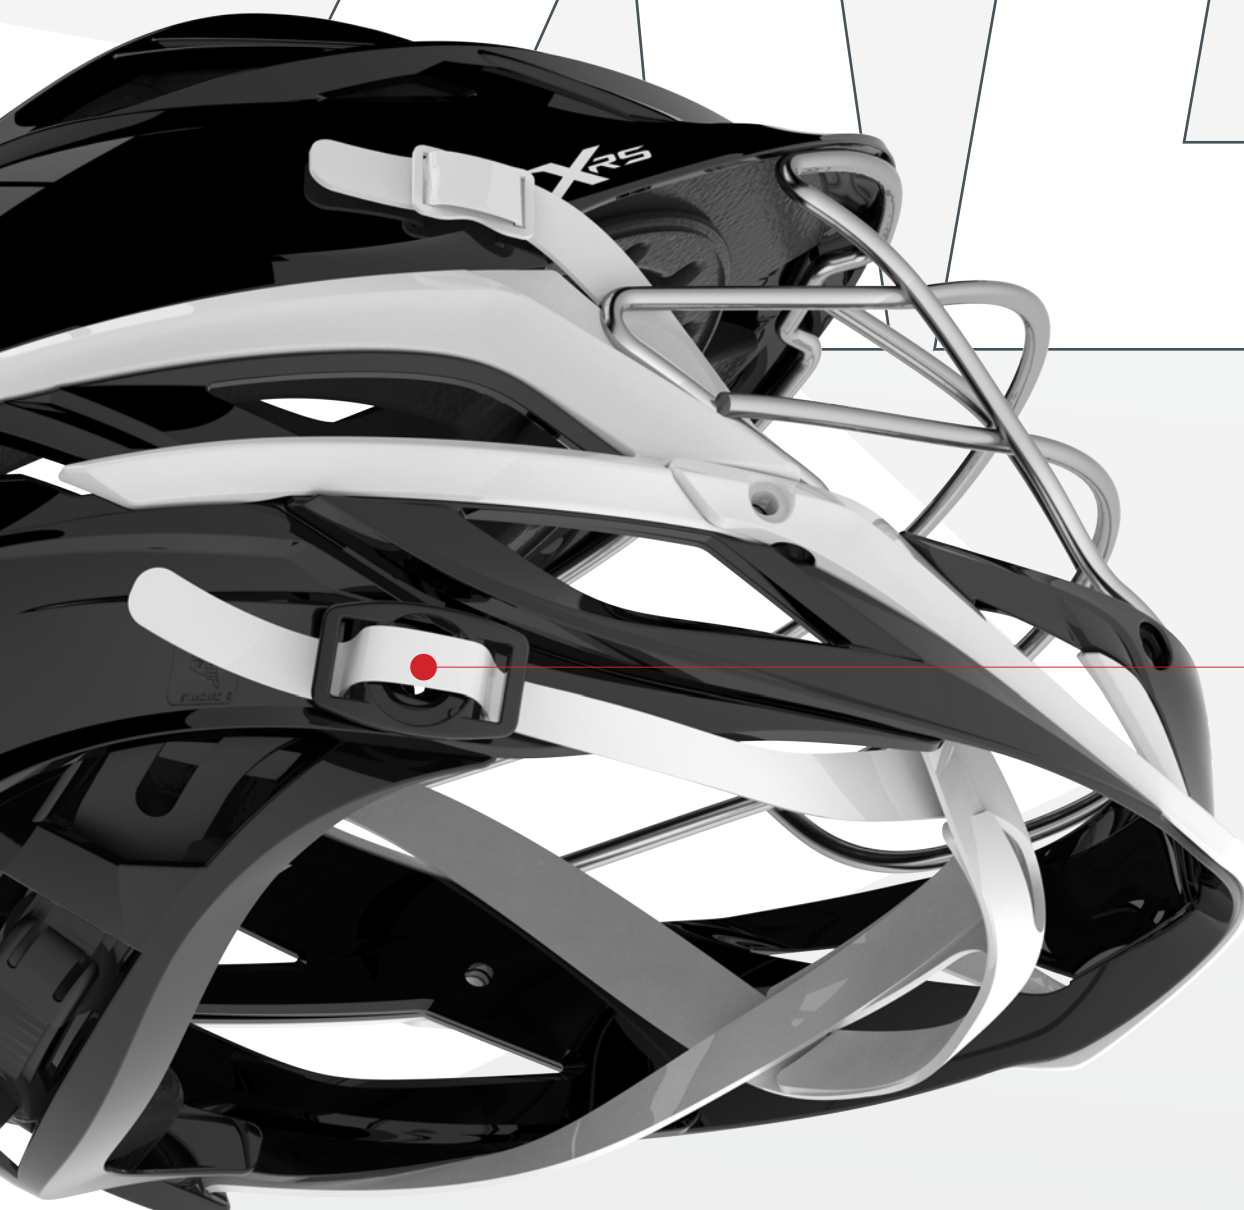

The XRS is equipped with the new VIXION system. We've increased peripheral vision on the sides of the mask so you see it all.

VISIONBAR

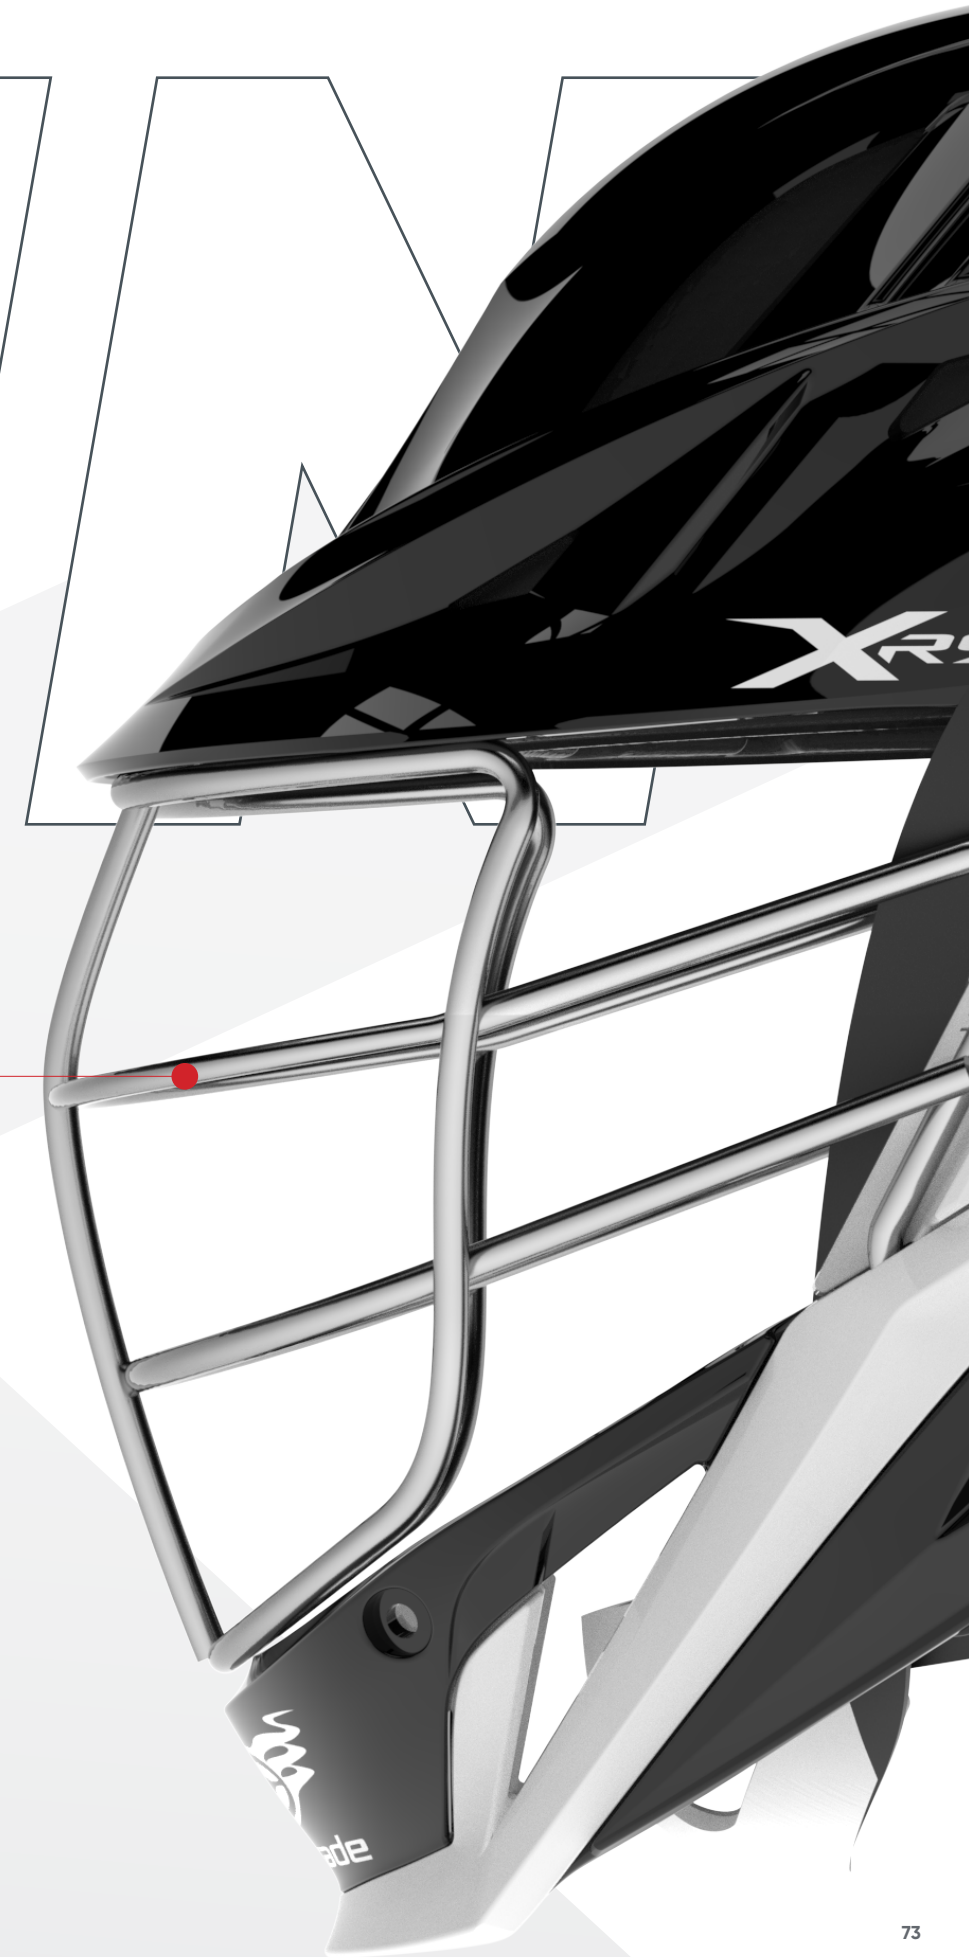

PowerPress technology decreases wire diameter to improve sight lines and increases face mask rigidity. With improved vision, the ball is never out of sight.

YOUTH

QUICKCLIP

High-strength magnets built into the new QUICKCLIP chinstrap system take the guess work out of ensuring your chinstrap is secured, so you can focus on the game ahead.

VISIONBAR

PowerPress technology decreases wire diameter to improve sight lines and increases face mask rigidity. With improved vision, the ball is never out of sight. Now shaped to fit youth players.

LX HEADGEAR

FIT SYSTEM

Interchangeable cheek pads and the rear adjustable strap provide a dialed-in, one-size-fit for different head shapes and sizes. Designed for play with either mid-high or low pony tails.

INTEGRATED GOGGLE

Increases face comfort and improves user experience with an easy ability to gear up compared to separate goggles and headgear.

FLEXIBLE SHELL

Tough on impact while maintaining the flexibility required by ASTM standards.

MEETS ASTM STANDARDS

- F3077-17
- F3137-15

- B | BLACK
- S | SCARLET
- C | CAROLINA
- W | WHITE

TECH FEATURES

AIR IT OUT

We know what it's like to be heating up on the field. We've built in large air vents to keep players breezy, dry and comfortable.

FLEXIBLE OUTER SHELL

The LX outer shell is tough on impact, but still soft and flexible to the touch to keep unprotected players safe.

DESIGNED FOR WOMEN

The LX was designed specifically for women's lacrosse and reduces forces associated with accidental ball-to-head and stick-to-head contact.

STEEL FACE MASK

The LX steel mask is designed with open sight lines and an ergonomic shape.

KEEP IT SIMPLE

Our integrated goggle system relieves the facial pressure experienced by a separate goggle. LX one-piece protection keeps gear simple.

XRD® TECHNOLOGY

XRD® Technology offers maximum comfort with the ability to dissipate forces experienced upon impact.

FIND YOUR FIT

We're all built a little differently. So we've designed the LX to adjust to varying head shapes and sizes with our rear adjustable strap.

And whether players are feeling a high braid or a low pony, the LX has dual hair slots for whatever they're rocking that day.

The LX also comes with three interchangeable cheek pad sets to help players find that perfect fit.
