UNIFORMS + EQUIPMENT

The past twelve months have been challenging for all of us both in life and in our businesses. At CHAMPRO, our team has worked hard to maintain a high level of service despite the unpredictable times we have been living through. We are proud that while most teams were on pause, we have been able to increase both our capacity and our capabilities. With the addition of caps, cap decoration and screen printing coupled with a significant increase in our JUICE capacity, CHAMPRO is now a true one stop shop for performance quality team equipment and uniforms.

During the past year we have strengthened our team, upgraded our technology and reinforced our commitment to provide the highest level of service in the team sports industry. Over the past 35 years our team has learned what it takes to help you, our customers, successfully build your teams. Our goal is to deliver what every business, team and athlete needs to succeed in today's competitive environment.

PERFORMANCE quality equipment and head-to-toe decorated uniforms.

VALUE in both our products and our services.

SPEED in producing custom-decorated uniforms and in shipping your orders.

RESPONSIVENESS in our customer service.

RELIABILITY in every aspect of how we serve you.

The CHAMPRO team is dedicated to your success and will continue striving to be your best partner in team sports.

Sincerely,

Wilson F. Hunt, C.E.O.

CONCEPT 3000 DISLODGING SAFETY BASE

REDUCES THE POTENTIAL FOR SLIDING INJURIES

Top pad is strong enough to support a player standing on the base, but flexes and dislodges from the smooth bottom plate as player slides in. Pad can be reset on the bottom plate when play is complete. This allows the player standing on the base to be supported by the rigid top pad, while the sliding player can smoothly slide over the plate after the pad dislodges.

KNOW YOUR **SOFTBALL.**

We manufacture a complete range of softballs to ensure that we have a ball that meets the durability and performance standards required by any league and any budget. Our high performance polyurethane cores are pressure molded to provide maximum durability and adhere to prescribed performance metrics of NFHS, ASA/USA, USSSA and Little League. Our leather and durahide covers offer the best, longest lasting grip in the field. Our fastpitch softballs feature our raised "High M" seam with the feel that players prefer.

CHAMPRO® softballs are coded on the center panel to instantly identify the construction of each ball.

The first letter is always "T" for Tournament, "G" for Game, or "R" for Recreation.

- T (Tournament) - Leather cover & polyurethane core, high performance
- G (Game) - Durahide cover & polyurethane core, all levels of play
- R (Recreation) - Durahide cover & practice core; not recommended for heavy hitting

The second and third letters are either "FP" to indicate fastpitch or "SP" to indicate slowpitch, which also will identify the seam construction.

- FP (Fastpitch) - Raised Seams
- SP (Slowpitch) - Flat Seams

The two digit number at the end of the name indicates the coefficient of restitution (COR) of the softball.

Note: USSSA specifications prohibit marking the COR and compression numbers on the ball.

- Up-charge of 25% per piece for orders of fewer than 6 pieces.
- No up-charge or minimums for fill-in orders with the same design and graphics. An up-charge of 25% if any changes are requested to the fill-in order.

CUSTOM JUICE SUBMISSION

- No art charge for template designs or numbers.
- Template designs within a sport are interchangeable, but template designs requested in another sport pattern will incur a set-up charge of \$50.
- Unique designs not based off a CHAMPRO template will incur a one-time \$50 set-up charge.
- All colors, decoration, locations and sizing must be specified.
- Any custom orders not submitted with specific direction may be subject to artwork fees.
- Artwork must be submitted in one of the acceptable artwork formats listed below.

ACCEPTABLE ARTWORK FORMATS

VECTOR ART

- We accept print-ready vector art files in the following formats: AI, EPS, or PDF. Vector art can be scaled to any size while maintaining quality. **Vector art is always preferred.** Please remove any overprints within your file; these will drop out when printed. If vector art cannot be supplied, files that require digitization will incur a graphic design service charge at the rate of \$50 per hour with a minimum charge of one hour.
- PDF files will be converted to AI; we are not liable for any errors during conversion.

RASTER ART

- Raster art, otherwise known as bitmap art, is composed of pixels grouped together to make one complete image. When scaled larger, the image will look pixelated. If you must submit a raster image, make sure the resolution is 200 DPI (dots per inch) or larger.

OUTLINED FONTS

- Outlined fonts are required for all artwork formats. Font selection can vary on different computers, which can cause a desired font to be replaced with a generic one. To preserve your fonts, always outline, embed, or convert them to shapes before submitting artwork. If a specific font is required, the name of the font and the font file (TTF or OTF) must be submitted.

EMBEDDED IMAGES

- Most programs allow the user to add an image to a file by linking or embedding. Embedded images are stored within the document itself, while linked files are not. Because of this, linked files can vanish when opened from a different computer. Please embed all images to avoid losing them when files are submitted. Any embedded images must be high resolution. If submitting a PSD file, all layers should be flattened.

UNACCEPTABLE FILE FORMATS

- Microsoft Office, InDesign, Quark, Corel Draw, Publisher, or low-resolution scanned images.

- **Any claims or shortages with your order must be reported within 10 working days of receipt of goods.**
- No cancellations or changes are accepted after the order is approved.
- Any cancellation after this time will be subject to 50% charge of the order total.

COLOR DISCLAIMER

- Scientifically it is not possible to achieve a perfect color match from one JUICE garment to another, or from JUICE garments to CHAMPRO stock garments. Therefore, we cannot guarantee a perfect match from order to order or from one fabric to another. If you have questions about our colors, please contact us for more information. Art submissions with specific Pantone Color call outs will automatically be converted to CMYK. If your job is color sensitive, please contact us for information on color matching services. RGB files will be converted to CMYK; some color shifting will most likely occur. Unless a sample is ordered, CHAMPRO is not responsible for unsatisfactory color results.

COLOR MATCHING

- We cannot color match gradients. We print digitally in CMYK and use PMS colors as a guide; therefore the colors are not exact. If you have a color sensitive project, we highly recommend that you order a sample. In the event that you do not, we will match as close as possible to the PMS colors provided, but are not responsible for the colors not printed to your liking.

CARE INSTRUCTIONS

- Do not dry clean.
- Do not wash in hot water; Do not use chlorine bleach; Do not wash whites and colors together; Do not dry on HIGH heat.
- Excessive heat may cause fabric shrinkage and color change. Do not put JUICE garments through a screen print dryer.
- CHAMPRO is not responsible to damage to apparel as a result of improper care.

ARTWORK DISCLAIMER

- CHAMPRO® wants to work with you to put your designs, artwork, and logos on the products you purchase from us. You will receive the Artwork only as it appears on goods purchased from CHAMPRO® and not in any electronic format. We will have the right to use the Artwork for any lawful purpose, including without limitation, for sales and advertising.
- You represent that you have all the appropriate rights to use Customer Designs which you provide to CHAMPRO®, and you agree to indemnify and hold harmless CHAMPRO® for all costs or damages arising from a claim of infringement against CHAMPRO® related to your Customer Design. CHAMPRO® may request you provide written proof of your rights to use any third party logo or trademark prior to CHAMPRO® using such logos or incorporating such logos into your Artwork. However, whether or not CHAMPRO® makes any such request does not affect your obligation to indemnify and hold harmless CHAMPRO® for all costs or damages arising from a claim of infringement against CHAMPRO® related to your Customer Design.

APPAREL SIZING GUIDE

IMPORTANT NOTE

The measurements listed in the below charts are body measurements (in inches), not garment measurements. If your body measurement is on the borderline between two sizes, order the smaller size for tighter fit or the larger size for looser fit.

How to Measure:

Bust/Chest:

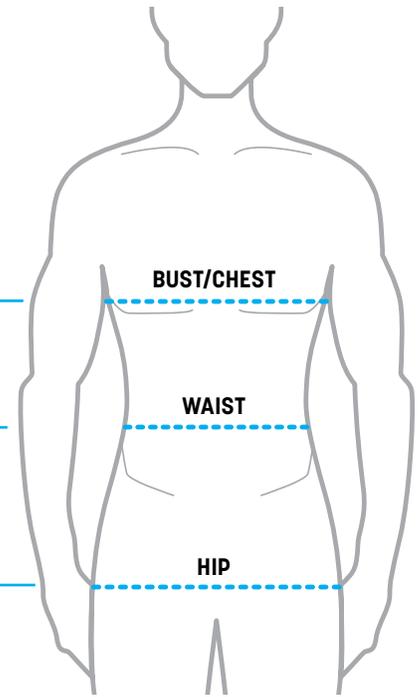

With arms relaxed at sides, measure around the body at the fullest part of the bust/chest, keeping the tape parallel to the floor.

Waist:

Measure around the body (not on top of clothing) at the natural waist level.

Hip:

With feet together, measure around the fullest part at hip level, keeping the tape parallel to the floor.
