HEADGEAR

Legendary wrestling coach Cliff Keen brought his wisdom to the table when he invented the wrestling ear guard in 1958. He understood the dedication, hard work and passion wrestlers bring every day. And today, that's exactly what we put into every headgear we create.

Manufacturing the best fitting, most reliable and proven wrestling headgear on the planet, we understand what makes wrestlers get up every morning and push themselves past their limits every day, in the relentless pursuit of success..
