GYMTURF® - Portable, Indoor Athletic Turf

GymTurf® is the **ONLY** Portable, Roll-out Turf Surface that protects athletes and is able to provide quality indoor practice for **ANY Sport, ANY Time, in ANY Weather**. Don't let the heat, cold, rain or snow disrupt your practice. GymTurf® can be used 365 days a year and an average 50' x 75' turf field sets up quickly.

FLEXI-CONNECT® - Built-In Turf Roll Connection System

BUILT-IN CONNECTION "NO SLIP-JUST GRIP"

ULTRA STRONG CONNECTION

GymTurf® includes Dollamur patented **FLEXI-Connect®** - Built-in, turf connection system. The strong hook and loop system keeps mats together preventing separation while teams practice.

- Eliminates unsafe gaps between rolls
- No additional hardware or tools required to install mats

GYMTURF® - Benefits

800-520-7647

FAST SETUP

Fast and easy to roll-out and roll-up with the Original Dollamur® **FLEXI-Roll®** design. An average 50' x 75' turf field can be installed quickly. Rolls store easily in an upright position.

MULTI-PURPOSE

GymTurf® is ideal for off-season, summer camps or days when the weather restricts your ability to conduct a full speed practice. Also provides an optional training space for Special Teams.

TRACTION & TRUE BOUNCE

No need for cleats, **GymTurf®** provides the traction athletes need to run drills and routes. "True Bounce" cushioning is superior to any other portable practice surface.

PLAYER PROTECTION

Specially designed **GymTurf®** is player friendly and does not cause turf burns like other products. **GymTurf®** meets or exceeds ASTM and International soccer standards for artificial turf.

VERSATILE FLEXI-ROLL® - Schools, Gyms and Multi-Use Facilities

GymTurf® allows any indoor space to become a productive indoor practice facility. Because it is portable, you can lay it over concrete, carpet, tile, arenas or hardwood floors quickly and protect the surface underneath. The flexible nature of this turf is an ideal option for multi-use facilities by offering a variety of sports through-out the year.

THE TECHNOLOGY - Durable and Protective

Dollamur Sport Surfaces is a leader in high-performance athletic surfaces for sports like Wrestling, Martial Arts, Cheerleading, Gymnastics and Fitness Gyms. Our closed-cell, cross-linked foam provides maximum shock absorption and will never harden allowing mats to maintain their performance through out their life. Our turf contains no crumb rubber products.

SPECIFICATIONS:

ROLL WIDTH:	5 feet
ROLL LENGTH:	Up to 50 feet
FOAM TYPE:	Polyethylene, closed-cell, cross-linked
FOAM THICKNESS:	High-density, 5/8"
AVERAGE PILE HEIGHT:	3/4"
PATENTED CONNECTION:	FLEXI-Connect® - Heavy duty, built-in hook & loop

NO CRUMB RUBBER!

The background of the advertisement is a photograph of a modern fitness facility. It features several black metal pull-up rigs with orange vertical supports and gymnastic rings. The floor is a mix of grey rubber matting and a large section of bright green artificial turf in the foreground. The walls are a vibrant orange, and there's a large window on the right side. In the upper left, a mural depicts a muscular figure with the text "KNOW YOUR LIMITATIONS, THEN DEFY THEM".
