Aware™ offers instant access to product information via QR code

AWARE™

Aware™ delivers the world's first autonomous traceability system that proves sustainability from fiber to finished product.

Aware™ builds Digital Product Passports automatically as your product moves through the supply chain.

Secured Data Exchange.

Aware™ doesn't rely on assumption-based paperwork. Aware™ creates proof.

Each production batch tells its own story. Powered by blockchain with secured data it's provided directly by all makers.

How Aware™ Works

Aware™ has built a revolutionary traceability platform that begins right at the origin of your clothing's fiber. A unique tracer is embedded into the material, ensuring its authenticity. But it doesn't stop there.

All the information is stored securely on a public blockchain, making it tamper-proof. So, when you see the Aware™ Virtual ID, you can trust that it reflects the true journey of your product, from its source to your hands. No more greenwashing, just transparent, reliable data.

KANGA
COOLERS

DISRUPTING THE COOLER GAME!

WORLD'S FIRST ICELESS COOLER - KEEPS DRINKS COLD UP TO 7 HOURS WITHOUT THE ICE!

Born from a college entrepreneurship class project in 2017, Kanga Coolers set out to solve a simple problem: keeping drinks cold without the hassle of ice. That vision led to the creation of the Kase Mate, the world's first iceless cooler, which keeps a cold case chilled for up to 7 hours. Kanga has grown from a campus idea into a game-changing brand redefining convenience and cool.
