

The cover features a composite image of four male athletes. Two are in the foreground, wearing red and blue singlets and headgear, in a wrestling stance. Two others are in the background, shown in profile. The background has red and blue vertical stripes. A white shield-shaped logo with the word 'MATMAN' is centered over the athletes.

SUBLIMATION

All of our custom apparel items are canvases for you to create your masterpiece, or your teams gear. Either way, we are here to help bring your design come to life.

Our company is located in Lakewood, Washington. Washington's finest is at your service, creating top of the line graphics and top of the line quality. As things do, sometimes they go awry, being located in the continental U.S. we are fast and easy to resolve any issue that may arise, Monday through Friday, 9 hours a day.

We use top-notch quality sublimation fabrics and inks. The fabric is the preference of elite competitors. Our ink is water-based formulated with disperse dyes which are fixed onto our sublimation fabric via sublimation process. The ink is dispersed by turning it into a gas under 400 Degrees of heat. Leaving no dyes to run or vinyl transfers/screen printing to crack.

Our custom sublimation fabric has moisture wicking technology to keep you dry as you compete.

Proudly made in Lakewood, WA by a production staff with over 50 years of experience perfecting the craft of apparel manufacturing.

HEAT TRANSFERS

Give us your vector or raster design and we will turn it into a heat transferable piece of art.

We take our customizable stock item and adhere a vinyl transfer or two with a heat press. Art is sized to match the size of your item, modified for the transfer and then ordered.

These are sourced locally, 2 hours south of our manufacturing facility.
