

Thule is dedicated to creating products that help you transport and protect what you care about most.

Bring your life.

Thule's limited lifetime warranty ensures our Backpacks, Duffels and Packs will stay out of the landfill.

Why Choose Thule

When you are choosing a gift or prize you want to make sure it has value to the recipient. Thule's brand versatility and quality are unmatched in the bags category.

Whether it's exploring spectacular nature in the great outdoors, an active daily life in urban environments, or travelling the world with family and friends, Thule offers the ideal carrying solution.

Designed with a purpose

Every product within the Thule Group portfolio is designed with a purpose, leveraging our long heritage of Outdoor design experience, including backpacking and hiking bags. From smart organization features to elevated laptop compartments for device protection and premium materials, each detail has been considered to deliver high-quality, ergonomic products that are built to last.

As Urban as Outdoors

In today's hybrid work-life model, work & play often overlap, so you need a bag that looks appropriate and is functional in a breadth of social situations. A Thule backpack has versatility of function and is appropriate whether at a local rock crag, school sporting event, snowboarding, family trip to the zoo, or a board of directors meeting.

Focus on Sustainability

Consumer expectations have become much more demanding to meet in terms of corporate sustainability, transparency, respect for human rights, product quality and customer service.

Thule Group is a global leader in this area with ambitious objectives verified by the Science Based Targets initiative (SBTi) and independent third parties like bluesign and EcoVadis as we work tirelessly to design increasingly sustainable products with high quality and life span.

Why we love Thule

Thule Group aims to contribute to a more sustainable world by offering innovative, high-quality products that inspire people to live an active life, and which are manufactured responsibly with the least possible impact on the climate and environment.

3 Pillars to our Sustainability Initiative

As a more than 80-year old Swedish company, sustainability has always been an integral part of what we do. We want to be an active part of a sustainable and functioning society that ensures the earth can be enjoyed by future generations.

**Caring about
nature**

**Engaging with
the community**

**Caring about
people and society**

Caring about nature

Carbon footprint: We've set 2030 targets to reduce our greenhouse gas from all stages in our value chain.

- 100% renewable electricity and 46% reduction of GHG emissions at our own production facilities and offices
- 28% absolute reduction of GHG emissions related to our purchased goods

Water: Working to reduce the risk of water availability globally.

- 32% reduction of amount of water used relative to sales volume in the last 5 years
- 4% of all water used at Thule Group's plants was rainwater in 2021

Waste: We work to reduce waste in every phase of the product's life cycle, by thinking through how a product will be built, all the way through to the end for what can be recycled.

- 99.2% waste-recycling rate at Thule Group production plants in 2021

Material selection: Choosing suitable materials will lessen our impact. From reduced hazardous waste generation to cleaner air and water, selecting the right materials is essential.

Engaging with the community

Thule's Pathos Program is about sharing a strong emotional connection with people and helping them to achieve more in life. We can all contribute to make the world a better place.

We engage with and help build the communities around us so everyone can enjoy an active life. From our local communities to global efforts.

We proudly support, and partner with our global brand ambassadors in the Thule Crew, in their efforts, coaching, getting kids active and other community-based initiatives.

Caring about people and society

Diversity, equal opportunities and inclusion:

We're committed to offering equal opportunities and providing our diverse group of employees a safe and developing environment that represents the parts of the world where we operate and the diversity of the people who love our products.

Responsible sourcing

Our world-class manufacturing begins with respect for people and the environment. We work with suppliers who share our commitment in our Code of Conduct to making products responsibly and sustainably.

Following laws & regulations and paying taxes

We take it as a given that companies should follow the laws and regulations where they operate; and we adhere to a responsible tax strategy as a part of our Corporate Social Responsibility.
