

GUIDES

MEN'S INTENDED FIT GUIDE & SIZING CHARTS

LOOSE

More robust cut and fit for non-restrictive breathability

STANDARD

Designed to fit most body types without being too tight or too loose

FITTED

A slender, more fitted look that still allows for mobility without the added bulk

COMPRESSION

Extra tight fit that promotes blood flow and sustained performance

FIT TIPS

- If you're on the borderline between two sizes, order the larger size for a looser fit or the smaller size for a tighter fit.
- If your chest and waist measurements suggest two different sizes, order tops based on your chest measurement.
- If your hip and waist measurements suggest two different sizes, order bottoms based on your hip measurement.

*We highly recommend requesting samples so that sizing can be handled appropriately based on your garment selection.

DYED COLOR GUIDE

MATERIALS CARE GUIDE

CARE INSTRUCTIONS

PROLOOK recommends the following washing, drying, and storage procedures to prolong the appearance and extend the life of your PROLOOK products.

BASIC GUIDELINES

DO NOT DRY CLEAN
 WASH IN COLD WATER ONLY
 WASH WHITES AND COLORS SEPARATELY
 DO NOT USE CHLORINE BLEACH
 DO NOT USE FABRIC SOFTENER
 DO NOT LEAVE WET OR DAMP UNIFORMS IN A PILE
 DRY WITHOUT USING HEAT. FOR BEST RESULTS HANG DRY

UPON RECEIVING

When receiving your PROLOOK apparel you should pull each item out of the packaging and store by hanging. This is important to assure that there is no residual wetness from manufacturing and avoid molding. Tackle-twill numbering and lettering will soften after one good wash and completely soften after a couple. This process can be expedited by soaking for 30 minutes in cold water before the first wash.

PRESOAKING

It is suggested that heavily soiled garments are soaked in cold water with a protein release agent for a maximum of 45 minutes. Proceed to wash immediately after presoaking.

WASHING

1. To prevent staining, wash immediately after each wearing.
2. If washing cannot take place immediately after wearing, the items should be rinsed and hung on rust proof hangers.
3. Do not pile garments together for laundry or place them in a travel bag while they are wet or damp as color migration may occur.
4. Only wash with cold water.
5. Wash whites and colors separately.
6. Do not use chlorine bleach or fabric softener, only use a mild detergent (with a Ph under 10.0)
7. Minimize mechanical action of the washing machine by keeping the water level high

DRYING

Do not dry garments using any heat, for best results hang dry. If you must use a dryer, use an air dry or damp dry setting to prevent shrinking.

STORING

Apparel should be completely dry before storing. To prevent mildew and yellowing, apparel should be stored in a cool, dry area protected from sunlight and fluorescent light.

Violation of any of the above nullifies warranty
