PRICES SUBJECT TO CHANGE

Prices in the catalog are in place for pricing guidance but are subject to change at any time at the sole discretion of the seller.

PRODUCTS ARE TO BE USED FOR INTENDED PURPOSE ONLY

Customer shall use, and cause anyone under its control to use, all products supplied by Seller in accordance with any instructions and warnings provided with the products, and in compliance with all federal, state, and local laws, regulations, and rules, as well as all industry standards and accepted best practices. Failure to do so could result in injury or voided warranty.

INSPECT BEFORE USE

It is the responsibility of the customer to inspect and maintain their product before any use. Failure to do so could result in injury or voided warranty.

PRODUCT CHANGES

We reserve the right to make improvements or changes in the design or specifications to our products at any time without incurring any obligations to install them on units previously sold.

DISCONTINUED PRODUCTS

We reserve the right to discontinue the sale of any product at any time.

SECOND LEVEL SLED PACKAGES

The combination of the TEK, LEV, or MOD Sled with the Second Level Sled provides one tool for drills on both sides of the ball. This sled package is ideal for training core principles like leverage, sustained drives, and getting off blocks to reach the next level.

Offensive linemen learn to disengage and move down field, while defenders practice release moves, proper angles, and breaking through the final level of pass protection.

These features eliminate the need for coaches or players to hold dummies, reducing injury risk and allowing faster transitions for more reps in less time.

Scan to view video of the
Second Level Sled in action!

HIGHLIGHTS

- ✓ Use with our Shock or Surge Hands Pad
- ✓ Includes Pivoting Pad Adapter
- ✓ Coil over shock offers the resistance and returns to its original position after each rep.

TEK SLED

HIGHLIGHTS

- ✓ **Side-to-side movement**
simulates the realism of facing a live opponent.
- ✓ **Coil over shock** gives realistic resistance for both the initial impact and continued drive.
- ✓ **Drill Cartridge™** enables versatility across multiple drills.

FEATURES

EXCLUSIVE DRILL CARTRIDGE SYSTEM™

The quick-change cartridge enables endless drills, acting as multiple sleds in one. Configure it as a leverage, drive, or technique sled.

LINK SYSTEM

Vary drill routines by converting a 7-man sled into 5-man and 2-man configurations. Start with a smaller sled and add drill stations later. The low-profile link enables players to safely run various drills between the pads.

PAD HAND POCKETS

Promotes tight hands inside with a durable urethane foam core, reinforced nylon mesh, steel frame for stability, and tough vinyl cover with target areas.

TURNED-UP FLAT RUNNERS

Safe for grass and artificial turf.

RECOIL MECHANISM

Life-like feel provides softer initial movement with increased resistance as you progress into the pad. Hydraulic shock and spring dampens pad movement.

ACCESSORIES

COACHES PLATFORM

The optional Coach's Platform lets you observe each player's drive and technique during drills on the TEK Sled. It also adds weight to enhance players' leg drive.

#411309 58 lbs. **\$395**

OUTDOOR GROUND MOUNT

Practice offense and defense fundamentals. Rotates 90° for turf wear. Requires concrete base and includes a ground-sleeve cover for off-season storage.

#411418 175 lbs. **\$3085**

Patents #8535181, #8568255 and an additional patent pending

TEK SLED OUTRIGGERS

Easily convert any TEK unit into a 1-man sled with these optional outriggers.

#402729 110 lbs. **\$665**

SECOND LEVEL SLED ADD-ON

A NEW innovative product that you can add to any existing TEK Sled. The Second Level Sled™ is designed to represent a linebacker on the left or right side, replacing any player or coach holding a stand up or hand shield.

Great for use when working zone blocking schemes or double teams working up to the second level. From the defensive side, you can work off the edge with the second level acting as RB's trying to block or chip an edge rusher on his way to the QB. Replace your hoop drills with rapid fire drills with the Second Level Sled.

**SEE PAGE 15 FOR
PAD OPTIONS**

(Big Bruiser pad & A-Pad not compatible)

CONFIGURATIONS	LEFT SIDE	#411658	80 lbs.	\$1755
	RIGHT SIDE	#411659	80 lbs.	\$1755
	LEFT & RIGHT SET	#411664	160 lbs.	\$3335

LEV SLED

ARTIFICIAL TURF
APPROVED

HIGHLIGHTS

- ✓ **Train players** to reverse the opponent's momentum prior to rolling the hips and securing control with leverage.
- ✓ **From a proper football stance**, drive the pad five inches to release the LEV Head, then roll hips and lift to finish off the opponent.
- ✓ **Offense & defense.** Great sled for BOTH offensive and defensive drills.
- ✓ **Heavy weight sled** - eliminates the need to add additional weight.

FEATURES

QUALITY PADS

One-piece urethane foam core with nylon mesh reinforcement and a strong steel frame for stability. Durable 18-ounce vinyl cover with defined target areas..

NYLON LINERS

Extends the life of the sled.
Reduces metal-on-metal wear.

EXCLUSIVE LEV ACTION

Patented release mechanism develops proper drive technique, activating only after five inches of compression.

LINK SYSTEM

Vary drill routines by converting a 7-man sled into 5-man and 2-man configurations. Start with a smaller sled and add drill stations later. The low-profile link enables players to safely run various drills between the pads.

PIN ATTACHMENT

The pad is attached with a single pin, ensuring it won't rise or twist when hit. Easily swap pads for different drills.

LOCKING LEV HEAD

The LEV head assembly easily locks in the down position, allowing the sled to be converted for drive blocking drills.

ACCESSORIES

PIVOTING PAD ADAPTER

Trains blockers to maintain surface contact. Brings a new level of realism to drilling. Fits existing LEV and MOD Sleds.

#410379 11 lbs. **\$175**
SAVE on three or more \$171

LEV SLED WHEEL KIT

Easily roll your sled to different practice locations or for storage. Wheels are 8", foam-filled, and will never go flat.

#410641 170 lbs. **\$525 each**

STAINLESS STEEL SKINS

For added protection on synthetic turf field, add stainless steel skins to your existing Rogers LEV Sleds.

#410623 25 lbs. **\$415 ea.**

COACHES PLATFORM

The optional Coach's Platform lets you observe each player's drive and technique during drills on the LEV Sled. It also adds weight to enhance players' leg drive.

#411309 58 lbs. **\$395**

LEV SLED OUTRIGGERS

Easily convert any LEV Unit into a 1-man sled with these optional outriggers.

#402729 110 lbs. **\$665**

CONFIGURATIONS	1-MAN #411401 324 lbs. 4'w \$2175 or two annual payments of \$1088	2-MAN #411402 487 lbs. 5'w \$3395 or two annual payments of \$1698	3-MAN #411403 745 lbs. 9.5'w \$4755 or two annual payments of \$2378
	4-MAN #411404 1009 lbs. 14'w \$6195 or two annual payments of \$3098	5-MAN #411405 1276 lbs. 18.5'w \$7605 or two annual payments of \$3803	6-MAN #411406 1537 lbs. 23'w \$9025 or two annual payments of \$4513
	7-MAN #411407 1801 lbs. 27.5'w \$10,455 or two annual payments of \$5228	Add-On #410615 270 lbs. 7'w \$1835

	 MINI T-PAD  #410806 \$415			

OUTDOOR GROUND MOUNT

Rotates 90° for even turf wear. Requires concrete to secure the base. Includes a ground-sleeve cover for off-season storage.

#410295 175 lbs. **\$1455**

SECOND LEVEL SLED ADD-ON

An innovative new product you can add to any existing LEV Sled, the Second Level Sled™ is designed to simulate a linebacker on the left or right side, replacing the need for a player or coach holding a stand-up or hand shield.

It's ideal for zone blocking schemes or double teams progressing to the second level. From a defensive perspective, it allows you to work off the edge, simulating running backs blocking or chipping an edge rusher on the way to the quarterback.

Replace traditional hoop drills with rapid-fire training using the Second Level Sled™.

CONFIGURATIONS	LEFT SIDE #411662 103 lbs. \$1755
	RIGHT SIDE #411661 103 lbs. \$1755
	LEFT & RIGHT SET #411665 206 lbs. \$3335

MOD SLED

HIGHLIGHTS

- ✓ **For the offensive line**, the MOD Sled™ is ideal for drive and zone blocking.
- ✓ **On defense**, practice the correct stance and skills to physically play the blocker.
- ✓ **Run drills** to improve pass protection and combination blocks.
- ✓ **Run through** the sled for pass-rush and swim moves.

FEATURES

QUALITY PADS

One-piece urethane foam core with nylon mesh reinforcement and a strong steel frame for stability. Durable 18-ounce vinyl cover with defined target areas.

ENCASED ACTION WITH NYLON LINERS

Coil spring mechanism is fully encased in metal for safety. Nylon Liners reduce metal-on-metal wear, extending the life of the sled.

PIN ATTACHMENT

Pad is attached with a single pin. Pad will not rise or twist when hit. Easily change pads for different drills.

LINK SYSTEM

Vary drill routines by converting a 7-man sled into 5-man and 2-man configurations. Start with a smaller sled and add drill stations later. The low-profile link enables players to safely run various drills between the pads.

POWERLINE SLED

HIGHLIGHTS

- ✓ **The Rogers PowerLine™ Sled** rewards your players' effort and dedication with game-winning proficiency.
- ✓ **Adjustable design** — Vary the pad angle, pad height, and number of stations to run a variety of drills.
- ✓ **Promotes proper technique** — Encourages fit, extension, and finish while keeping players low.
- ✓ **Versatile training** — Use the sled to practice pass-rush and swim moves effectively.

FEATURES

PAD-HEIGHT ADJUSTMENT

Pad stays securely in place at two adjustable heights. A pin makes it easy to install, adjust, or remove the pad for storage.

BAKED-ON FINISH

Durable, baked-on powder-coated finish extends the life of your sled.

PAD-ANGLE ADJUSTMENT

Choose from three resting angles to suit your drills. Lower the angle for goal-line situations or raise it for larger players.

FLAT RUNNERS

Heavy-wall runners provide realistic resistance when the sled is driven. Flat runners are safe for use on artificial turf.

ENERGY ABSORBING SPRING

High-tech energy-absorbing material responds to individual effort. Springs are encased in metal for added safety.

LINK SYSTEM

Vary drill routines by converting a 7-man sled into 5-man and 2-man configurations. Start with a smaller sled and add drill stations later. The low-profile link enables players to safely run various drills between the pads.

ACCESSORIES

POWERLINE SLED OUTRIGGERS

DOUBLE ACTION PRO SLED

The ultimate tool to train explosive hip drive and full arm extension.

- ✓ An excellent training tool for teaching separation and release techniques from a blocker with resistance. Utilizing the unique double-action spring loaded arm allows players to reverse momentum prior to hitting on the rise.
- ✓ Excellent for separation and pass-blocking drills.
- ✓ Great for teaching 3-point layout explosion.
- ✓ Drill quick punch compression.
- ✓ Allows players to explode, press and knock out the opponent.
- ✓ Pads can be set and locked in different positions for a variety of drills.
- ✓ Pin arms down to use as a drive sled.
- ✓ Modular design allows you to vary station size and gives the ability to add units when needed.
- ✓ Optional weight horn for added resistance.
- ✓ All-purpose sled pad can be utilized as hand-held pad.

CONFIGURATIONS	1-MAN	#W701-1	218 lbs.	\$1895
	2-MAN	#W702-2	420 lbs.	\$2755
	3-MAN	#W703-3	625 lbs.	\$3975
	4-MAN	#W704-4	832 lbs.	\$5255
	5-MAN	#W705-5	1038 lbs.	\$6565
	6-MAN	#W706-6	1244 lbs.	\$7825
	7-MAN	#W707-7	1450 lbs.	\$8755

ACCESSORIES (Available For both Pro & Double Action Pro Sleds)

RESISTANCE BAND KIT

Resistance bands for Pro Sled or Double Action Pro Sled. Includes two 10-pound bands and sled hardware.

#W41 3 lbs. **\$95**

Replacement Band

(single 10-pound band)
#804748 1 lbs. **\$45**

SLED WHEEL KIT

Roll your sled to different practice locations or for storage. Wheels are foam-filled and will never go flat.

#410641 170 lbs. **\$525 each**

COACHES PLATFORM

Optional Coach's Platform allows you to watch the drive and technique of players. Also adds weight to increase players' leg drive.

#411309 58 lbs. **\$395**

BOLT-ON WEIGHT HORN

#423815 6 lbs. **\$55**

PRO SLED

The Pro Sled is the best tool to train hitting on the rise to take control of the line of scrimmage.

- ✓ Pro Arm adjustable mount system emphasizes hitting on the rise and driving up with full arm extension. The sled hinges upward as force is applied. If hit on the rise, the mount arm extends upward and simulates an opponent being forced upright and backwards as in a true blocking situation.
- ✓ Improves player explosiveness, hip roll and extension.
- ✓ Allows the player to explode, press and knock out the opponent.
- ✓ Pro Arm leaf-spring pad mounts simulate the lean of an opposing player.
- ✓ Adjustable pad height positions.
- ✓ Pin arms in the down position to create a drive sled.
- ✓ Modular design allows you to vary station size and gives the ability to add units when needed.
- ✓ Optional weight horn for added resistance.

CONFIGURATIONS	1-MAN	#W100	197 lbs.	\$1475

JENKINS' EAGLE SLED

- ✓ The Jenkins' Eagle Sled is excellent for teaching and practicing 1-gap and 2-gap techniques.
- ✓ Side 1 incorporates the patented Pro Arm adjustable mount system allowing players to explode, press and knock-out the opponent. Great for emphasizing hitting on the rise and driving up to improve player explosiveness, lift, roll hips and extension.
- ✓ Side 2 incorporates the Double-Action spring loaded arm to teach separation and release techniques from a blocker with resistance. Improve defensive hand techniques and speed.
- ✓ Pad height and angles can be adjusted and locked.
- ✓ Optional weight horn for added resistance.
- ✓ Powder-coated steel sled built to last.

TRENCH SLED

The NEW ROGERS Trench Sled builds on the legacy and vintage feel of the classic sleds originally developed in the 1940's and 50's but with significant upgrades to provide a competitive edge.

- ✓ Receive immediate feedback with the directional blocking capabilities of the Trench Sled.
- ✓ Utilize double team drills on the Trench Sled to understand your athlete's ability to work together as a team.
- ✓ The Trench Sled comes with our Curved Breakdown Pad with a soft foam core to allow for better striking and sled control during drills.
- ✓ The Trench Sled includes an upgraded shock to provide athletes with a more realistic feel during practice.
- ✓ Coach's Platform included to allow for coaches to have a better vantage point of the action and easier instruction during the drill.
- ✓ Optional weight horns available for added resistance.

#411674 520 lbs. **\$3695**

The Post Mount Trainer utilizes the same pad options as the Double Action Pro Sled. See our full list of pad options on page 21.

POST MOUNT TRAINER

- ✓ Practice basic offensive and defensive skills either indoors or outdoors with the post mount trainer.
- ✓ The Double-Action Post Mount Trainer is excellent for separation and pass-blocking drills. The pads can be driven upwards when hit or the pad can be locked into one of four height positions.
- ✓ The Pro Post Mount Trainer emphasizes hitting on the rise and driving up with full arm extension.
- ✓ Buy extra ground mounts to reduce wear.
- ✓ Train run through drills with no obstructions.

	DOUBLE ACTION #W710 280 lbs. \$1245	RESISTANCE BAND KIT #W41 \$95

TITAN PASS RUSH TRAINER

Drill players to read and react to the opponent. Train swatting, clubbing, or swiping away the extended arms of the blocker to mimic an offensive lineman's reactions when his arm is pushed down. Great for indoor and outdoor use.

- ✓ Trains players to read and react to the opponent.
- ✓ The trainer has two springs that let it turn just as an opponent would turn when the arm is pushed downward by a defensive lineman or linebacker rushing the quarterback.
- ✓ Available with portable tire mount or ground sleeve post-mount.
- ✓ Comes standard with Titan Pass Pad in your choice of colors.

Titan with Tire Mount

#410675 275 lbs. **\$2035**
or two annual payments of \$1018

Titan with Post and Ground Sleeve Mount

#410676 85 lbs. **\$1745**
or two annual payments of \$873

POWERBLAST

FEATURES

- ✓ Develop better skills by keeping the feet apart, head up, eyes open, and shoulders low.
- ✓ Running backs can work on pumping the legs, covering the ball, and making the second effort.
- ✓ Train receivers to catch the ball and turn up field strong to add yardage to every catch.

Now choose from your choice of our traditional PowerBlast arms or our pad option previously found on the Rogers Power Runner.

HANGING DUMMY ATTACHMENT

#410382 220 lbs. **\$1215**

OPEN FIELD TACKLE

Safely master the toughest tackle in football with the Open Field Tackle Machine. Enhance defense with realistic drills in minimal practice time.

- ✓ Practice proper speed and angles during run-pursuit drills to stop ball carriers on game day.
- ✓ Perfect form tackling, wrap-ups, and forearm shivers.
- ✓ Work on offensive skills like pass blocking, drive blocking, and leverage principles, as well as combination, cut, and stalk blocks.
- ✓ Adjust the overhead tube for “uphill” drives or level for repeated tackles.
- ✓ Durable design with galvanized steel tubing and smooth-rolling components.
- ✓ Choose a 50 lb or 80 lb hanging dummy, both with identical dimensions.

The slope of the overhead tube can be adjusted by raising or lowering the ends.

W/80# DUMMY			W/50# DUMMY

BIG BRUTUS

- ✓ Safely coach unlimited reps for offensive and defensive drills.
- ✓ Offensive players can practice lockout extension and punch technique, body positioning, and footwork during pass sets.
- ✓ Defensive linemen can refine wrong-shoulder techniques for taking on a pulling lineman defeating a trap, or spilling a kick-out block.
- ✓ Train two players simultaneously with the extended frame.
- ✓ Defensively, strike the dummy to maintain separation, locate the ball, and execute escape moves to get to the ball.

ACCESSORIES

RETRO FIT TROLLEY

Upgrade older Open Field Tackle Machines for smoother, game-speed dummy movement. Included with new models. 40 lbs.

PADS OPTIONS	50# HANGING DUMMY	80# HANGING DUMMY
	 #402268 \$605	 #410312 \$605

ISO SLED

The ISO Sled's pad is perpendicular to the ground because linebackers, defensive backs, and other defensive players have to defeat blocks at a different angle than down linemen. Now these players can develop proper shedding technique.

Linebackers and DB's can knock the pad back, throw the pad the opposite way from which the ball carrier commits, and finish the drill by accelerating to the ball.

- ✓ The ISO Sled features the LEV Sled head, including its coil spring. The hit, compression, and recoil action simulates the opponent.
- ✓ Push the spring in five inches or more and the player can lift the pad for leverage practice.
- ✓ Optional Pivoting Pad Adapter moves the pad left and right — training players to maintain contact and keep pressure on the opponent.

ZONE REACTOR

Teach quick footwork by players on both sides of the ball. You roll the pad along a five-foot track while players master reaction skills. Our exclusive vertical action from the LEV Sled head adds even more realism to your drills.

- ✓ Defenders develop quick hands, hard strike, and fast-moving feet.
- ✓ Develop proficient lateral movement to disrupt a play or make a tackle.
- ✓ Pad glides on eight heavy-duty rollers.
- ✓ Height adjusts without tools in a 15" range.
- ✓ Platform base included.

Zone Reactor

#410474 475 lbs. **\$2965**
or two annual payments of \$1483

Coach triggers each pad independently to train player to react to movement.

Patent #6599206

SHIVER SLED

Teach your defense to be the first with the hands inside, then to deliver the blow with shocking power using the heel of the hand.

- ✓ Shuffle down and repeat the punch for maximum repetitions.
- ✓ Drill a good solid punch technique on offense and especially when teaching slide protection.
- ✓ The pad height adjusts from 42" to 54" to best suit the average height of your players.
- ✓ Pad is 12" high by 10' long.

#410377 695 lbs. **\$4135**
or two annual payments of \$2068

POP-UP TACKLE SLED

Get more reps for each player in a shorter period of time when practicing tackling on the Rogers Pop-Up Tackle Sled. Practice engaging the sled at full speed, wrapping up, driving back, and tackling it to the ground.

- ✓ Once tackled to the ground, the sled rebounds to the hitting position, making it ready for the next player.
- ✓ Automotive-grade shock absorber within a coil spring retains the player's impact with the pad in a more realistic way than with a leaf spring.
- ✓ The sled's on-field weight is 240 lbs, so extra weights or sandbags are not needed.
- ✓ Includes your choice of Wrap-Up Pad or Cylinder Pad in your color choice.

#410289 240 lbs. **\$1915**
or two annual payments of \$958

ACCESSORIES

TACKLE SLED DRIVE BAR

Transform your Rogers Tackle Sled into a year-round training tool with the drive bar attachment. Place the bar in the pad receptacle to convert into a "push/pull" sled for off-season training.

VARSITY POP-UP TACKLE MAKER

Increase your tackling station's efficiency with the Pop-up Tackle Maker. It quickly returns to the upright position after each tackle, ready for the next player. You can add up to 100 pounds of resistance using the built-in weight horn. The frame features a durable baked-on powder-coated finish, and the pad is covered in tough 18-ounce vinyl. Choose your preferred color for the pad.

#410454 190 lbs. **\$1725**
or two annual payments of \$863

Patent #D466963

BENCH AND READ HANDLE

With the Bench and Read Handle on the Varsity Tackle Maker, you can use this tool to simulate grabbing and squeezing your opponent to maintain leverage, then push/pull, toss, or shed the blocker to make a play.

#411687 16 lbs. **\$135**

TRAP CHUTE

FEATURES

- ✓ Linemen practice staying low, pulling, trapping, and executing combination schemes in the Trap Chute.
- ✓ Free to move laterally but limited in height, the linemen learn to evade detection by defensive players.
- ✓ Run reps of short traps, long traps, kick-out blocks, counter schemes, picks, scoops, and double teams.
- ✓ Use the Trap Chute for standard chute drills and develop explosive take-offs and powerful offensive drives.

Run tight formations with the entire offensive line and the wide receivers. The top of the steel tubes force players low – no matter their directional move.

Rogers' Trap Chute adjusts to meet your training needs.

CONFIGURATIONS

16' Trap Chute or two annual payments of \$1258	#410714	500 lbs.	\$2515
24' Trap Chute or two annual payments of \$1613	#410715	650 lbs.	\$3225

ZONE CHUTE

FEATURES

- ✓ The Zone Chute is Rogers' largest - which means more athletes and more reps.
- ✓ Train all three phases of the game.
- ✓ Easily and quickly adjust the angle and height to better train your players.

The Zone Chute gives coaches the advantage of teaching players to stay lower longer. Its large size allows you to train more players in less time, and the unlimited angle adjustments give you the greatest flexibility for training.

Rogers' Zone Chute adjusts to meet your training needs.

#410488 740 lbs. **\$4615**
or two annual payments of \$2308

SKELLY ARMS

Dual raised front arms turn your pop-up into a defensive front allowing you to set-up pass skeleton drills. Teach the quarterback to find a passing lane. Attach a football (not included) with Velcro™ on the top for strip drills. Optional arms buckle easily and securely. Dummy not included.

#410647 3 lbs. **\$185**

RIP ARMS

Have players practice the rip or swim. Incorporate a ball in the drill and work on recovering a fumble or scoop and score. Attach a football (not included) with Velcro™. Arms buckle on easily and securely. 6"dia. x 20"long. Dummy not included.

#410413 3 lbs. **\$165**

QB ARMS

The raised arm simulates the QB in the pocket ready to throw a pass. Teach stripping the ball in the open field or from behind on a breakaway run. Simulate the ball carrier by attaching a football (not included) with Velcro™. Optional arms buckle on easily and securely. 6"dia. x 20"long. Dummy not included.

#410412 3 lbs. **\$165**

TITAN POP-UP

Utilize hip and torso aiming points to teach proper technique on this tall pop-up. Receivers practice release moves. Foam filled and does not hold water. No assembly required. One-year warranty. 72"h

#410341 150 lbs. **\$885**
SAVE on four or more \$841

BIG SAM POP-UP

The ultimate tool for improving blocking, tackling, and bringing down an opponent, the Big Sam Pop-Up is perfect for high reputation drills.

Free player and coaches from holding the bag upright. Can be used by every position for tackling or blocking. Will pop up from any angle. 72"h

#W378 150 lbs. **\$835**
SAVE on four or more \$793

SCOUT POP-UP

Coming to its "feet" after every hit, this rugged pop-up willingly stands as a proxy on the scout team. Frees players from holding or righting standard dummies. Foam filled and does not hold water. No assembly required. One-year warranty. 60"h

#410277 122 lbs. **\$735**
SAVE on four or more \$698

BIG MIKE POP-UP

This "pop up" is our mid-range pop up in height at 66" tall. It represents a silhouette of the body with permanent built in arm pit area for aiming points. 66"h

#411660 122 lbs. **\$915**
SAVE on four or more \$869

DUMMY CADDY

Transport your Titan and Scout from storage to the practice field easily. Large pneumatic wheels glide easily over grass and turf.

#410660 30 lbs. **\$175**

BIG BLOCK PRO

With an extra six inches in height, the Big Block Pro measures up for pro and college team practices. Molded foam core retains shape and lasts longer. 20"w x 58"h

#410089 25 lbs. **\$315**
SAVE on six or more \$299

BIG BLOCK

The original pro-look stand up designed by Football Hall of Fame's Joe Schmidt. Large upper blocking surface facilitates practicing zone schemes and lock-out and drive blocks. Use the cylindrical bottom to drill crab, cut and diagonal blocking. Molded foam core retains shape and lasts longer. 20"w x 52"h

#410088 22 lbs. **\$295**
SAVE on six or more \$280

Patent #3,680,861

BIG WILL

Known as the "Weakside LB," the Big Will is a free-standing, non-pop-up training tool that mirrors the look of the Titan pop-up, minus the weighted base. Ideal for skelly and defensive linebacker drills, it's quick and easy to move.

#411681 20 lbs. **\$465**
SAVE on four or more \$442

HALF ROUND

This popular, dual-purpose dummy has three double-stitched handles for blocking drills - and it lays flat for step-over drills. 14"w x 52"h, (7"radius.)

Half Round dummy doubles for step-over drills.

#410261 7 lbs. **\$185**
SAVE on six or more \$176

DELAWARE PRO

If you need to prepare for larger players, this 6' 80 lb Delaware Pro is just like larger players. You can practice all the blocking and tackling moves, dummy will stand by itself for drills. 72"h x 18"dia.

#410636 80 lbs. **\$515**
SAVE on four or more \$489

RUGGED SQUARE

Excellent for a variety of blocking and form-tackling drills or lay it on the ground as a step-over bag. Stack them up for practicing special teams. 14" square x 52"h

#410168 18 lbs. **\$265**
SAVE on six or more \$252

DELAWARE

Wing T and Veer team players deliver the hard charge of a down-blocking lineman or a power inside trap on the Delaware Dummy. With its heavy, weighted bottom, this dummy offers great protection and won't kick out. Ideal to fit on the shoulder and forearm to deliver the blocks designed for these offensive schemes. 51"h x 18" dia

#410451 50 lbs. **\$395**
SAVE on four or more \$375

HEAVY T

A must for teams using the Wing T. The Heavy T's additional weight is useful in crab, cross and trap blocking as well as for chute and board drills. Shaped to teach all modern styles of blocking. Molded foam core retains shape and lasts longer. 20"w x 52"h

#410262 45 lbs. **\$275**
SAVE on six or more \$261

THE BULK

The look of a player and the weight to back it up! Practice pass-set and drill jam and lock-out blocks. Build leg strength and drive technique. Run board drills and blocking progression. Teach combination, down, base, and load blocks. Good for double-team drills, too. 27"w x 60"h x 14"d

SAVE on four or more \$185

ELITE BODY HANDS SHIELD

This new design, features the "sternum roll" for practicing hand placement. Made for both offensive and defensive players, drill your lineman safely in practice keeping the hands inside the shoulders to avoid holding penalties. Three handle design used for all your zone blocking, chute and board drills.

#411502 6 lbs. **\$195**

MULTI GAP SHIELD

One of the most popular defensive sled pads is now a hand shield. This shield features three handles, a sternum roll for hand placement, and longer arms for aiming points for defenders to practice rip moves. Use with defensive backs as well when being stalked. Offensively has all the aiming points. Sternum acts as a breast plate of shoulder pad, and arm pits for thumbs up.

#411503 7 lbs. **\$205**

STUNT SHIELD

Drill the lock-out technique and drive block with your O-lineman. Practice rip moves, swim moves, bull rush, separation, and leverage, with the D-lineman and linebackers. Three handles; 32"w x 36"h x 4"d

#410122 5 lbs. **\$195**
SAVE on six or more \$185
SAVE on ten or more \$176

PACKER SHIELD

This is the first 3-dimensional hand shield on the market that features a secondary pad on top of protective pad simulating a shoulder pad breast plate just like a live player would have for aiming points for hand placement.

#410639 4 lbs. **\$245**
SAVE on four or more \$233

STRIKE SHIELD

With the emphasis on tight hands inside first, the Strike Shield has aiming points designed for offensive and defensive drills. Teach a hard punch to shock the linemen across from you and make a release move.

BICEP FLIPPERS

The ultimate in forearm and bicep protection. Two Velcro™ straps and a hand grip provide staying power during aggressive drills.

#410102 5 lbs. **\$155/pair**
SAVE on six or more \$147

AGILES

AGILE 1

Agile 1's slanted sides and urethane foam core safely builds confidence to play over traffic without looking at feet. Wide base eliminates repositioning after every drill.
8"h x 18"w x 50"l.

#410103 8 lbs. **\$175**
SAVE on six or more \$166

AGILE 2

Similar to the Agile 1 but with extra height to promote high-stepping agility. Recommended for pro and college teams. 12"h x 18"w x 50"l.

#410104 9 lbs. **\$205**
SAVE on six or more \$195

6" AGILE

Train powerful and quick feet for explosive footwork. The quicker your feet, the more power you will have on the field.
6"h x 14"w x 47"l.

#410725 9 lbs. **\$165**
SAVE on six or more \$157

4" AGILE **NEW**

Requested by quarterback coaches, this low-profile Agile is built to train quick footwork and pocket movement. It helps develop rhythm and balance while allowing the QB to step up, slide, hand off, or escape pressure with control.
4"h x 15"w x 50"l.

#411691 4 lbs. **\$155**
SAVE on six or more \$147

CUSTOM PRINTED AGILES

Improve the look of your practice with institutional logo Agiles from Rogers. Let our design team take your logo or team slogan and print it on one of our most popular practice products used daily by teams across America. Keep the message and team spirit alive while getting ready for the next game.

8 lbs. **Call for Pricing**

SHED BALL

Use the Rogers Athletic "Shed Ball" to practice defeating or countering cut blocks, a technique used by the offensive line to knock defenders down by targeting their legs. The knee-high ball simulates a moving object disrupting a defender's path to the ball carrier. Roll it at a defender's legs to replicate the cut block, prompting them to react in a bent-knee position. They should shoot their hands forward to stalemate the "Shed Ball," quickly kick their feet back to maintain balance, and continue to locate the ball carrier.

The Shed Ball measures 28" in diameter.

#411513 35 lbs. **\$645**

QUICK SNAP A

Allows the coach to focus on the line while simulating the snap, helping players get off the line with the ball's movement. The pole adjusts from 3 to 6 feet.

#410648 6 lbs. **\$115**

AGILITY CIRCLE B

Train all team members for quickness and teach the rushing defensive end to arch toward the quarterback with this 10' 6" diameter circle. Now features an improved design.

#410661 3 lb. **\$105**

AGILITY LADDER

Players improve speed and balance by keeping their feet close to the ground with this ladder. Stiff PVC rungs attached to webbing create 18 stepping areas. The 30' ladder can be unbuckled into two 15' sections for varied drills and lays flat indoors or outdoors. It folds compactly for storage and includes a nylon carry bag. 30'L x 20"W

#410464 8 lbs. **\$115**

RUNNING ROPES

Rogers has enhanced the basic tool to condition and train the hard-driving knee action needed for backs and ends. The webbing easily adjusts in height from 7" to 17". The safety frame features curved uprights at the corners, flat-channel steel end braces, and no cross braces in the running area. 44"w x 220"l. Can be shipped via UPS.

#410450 69 lbs. **\$555**

Additional Ropes

#400891 2 lbs. **\$205**

DISKS

Set of twelve non slip 9" dots for indoor and outdoor agility drills. Available as a package of 6 multi-color pairs, or all orange.

#410804 3 lbs. **\$55**

ORANGE DOTS

The Dots are great to set drop zones for Line Backers, for Receivers to mark routes.

12" DOTS

#410961 2 lbs. **\$10 ea.**

19" Dots

#410962 3 lbs. **\$40 ea.**

SCRIMMAGE VESTS

Get ready for your opponents at practice with these light weight, breathable Scrimmage Vests. Get the scout team up and running or use to identify offense from the defense. One size fits all with elastic straps to keep secure to the body. Works well with live contact practices.

#410990 **\$15 ea**

CONES

Bright, one-piece PVC cones mark set points and player positions. Fade and heat resistant. Choice of three sizes.

6" Cones #410667

Set of 10 5 lbs. **\$50**
Set of 20 10 lbs. **\$95**

12" Cones #410278

Set of 10 10 lbs. **\$70**
Set of 20 20 lbs. **\$133**

18" Cones #410279

Set of 10 30 lbs. **\$90**
Set of 20 60 lbs. **\$171**

SCRIMMAGE CAPS

Get your scout or special teams identified, or designate players you don't want engaged in live contact with these multi-colored caps. Easy on and off with lycra stretch material fitting over any helmet. Also great at protecting helmet finishes.

#410991 **\$9 ea**

EQUIPMENT BAGS

Carry practice gear to the field or for travel games. Keep all the right pads and uniform for a player together. Includes plastic sleeve to identify contents. Vinyl bag - 16"h x 16"l x 27"d. Mesh bag - 16"d x 36"l.

Vinyl Equipment Bag

COACH'S COMMAND TOWER

The 6.5' height of the Command Tower allows coaches to oversee the entire practice and the generous 4'x 8' platform provides sufficient room. Snap together design is easy to assemble without tools. Easily breaks down for compact storage. 12.5'w x 6.5'h.

#360168 486 lbs. **\$4065**
or two annual payments of \$2033

12" LANDING MAT

Facilitate numerous repetitions of punt and kick blocking, receiving drills, and running back drills. Covered with durable 18-ounce vinyl-coated nylon. (Not for high jump pit.)

6'w x 12'h x 10'l

#410196 145 lbs. **\$1025**

BASIC SCRIMMAGE LINE

One-sided guide for line-of-scrimmage spacing. Player space 30" and splits 30" (C-G), 30" (G-T) and 36" (T-E). Overall dimensions 10"w x 34' 6"l

#410174 18 lbs. **\$245**

O/D SCRIMMAGE LINE

Eliminates using live players as markers. Sleeves slide to simulate your opponent's front look. Two-sided visual reference - offense on one side, defense on the other. Blue and gold. Player space 30"; 6"w x 37'l.

#410343 22 lbs. **\$305**

SPACER CANS

Set up a front or formation using both width and depth without having to use players to simulate the look with Spacer Cans. Travel with cans to run through plays on the road. Cans include a handle on top & stack for storage. 30"h x 21"dia; black.

#410469 48 lbs. **\$110/each**

SAVE on four or more \$105

JUGS® FOOTBALL THROWING MACHINE

Transform good receivers into great ones with plenty of catching practice. The JUGS® Football Throwing Machine can deliver up to 600 passes or kicks per hour, helping players improve their catching skills without tiring out the quarterback. Receivers can run routes or move to specific spots for repeated reps, with adjustable velocity and direction. Used by all NFL teams and over 25% of high school programs, it runs on 120-volt electricity.

#410355 129 lbs. **\$3795**

JUGS® FIELD GENERAL FOOTBALL THROWING MACHINE

Lightweight and portable, the Field General weighs less than 95 lbs and includes transport wheels for easy movement on the practice field. It throws accurately up to 50 yards, hitting receivers in stride, and supports punt and punt return drills with a 5-second hang time.

#410635 98 lbs. **\$3295**

ROGERS THROWING MACHINE CART

Operate your throwing machine comfortably from the ground—no need to bend or stand on the cart. Diversify receiving drills by targeting different locations.

- ✓ Add a generator opposite the ball bin for use anywhere, regardless of power availability.
- ✓ Built in electrical cord storage.
- ✓ Pull the Rogers Cart to practice with a field vehicle.
- ✓ Navigate tight spaces with an additional hand grip.
- ✓ One ball storage bin included purchase.

#410550 182 lbs. **\$1265**

Additional Ball Bin

#405206 10 lbs. **\$115**

SNAP ATTACK

Run more drills with greater precision and speed. Train snap, pass, and kick with one machine. Two high-powered motors provide instant recovery, allowing rapid repetition and combination of drills. The universal cradle positions the ball for passing, punting, snapping, or kick-offs.

- ✓ No second cradle needed for kick-off.
- ✓ Passing stand allows throwing head to pivot instantly in any direction, accurately throwing passes, punts and kick-offs to any location on the field. Operators can lead receivers, spot punts or kick-offs precisely for both returns and coverage. Elevation changes are quick and easy. Machine can also be locked in for precise repetition.
- ✓ Durable wheels with minimal wear, no pressure changes needed.
- ✓ Easy transport: tilt, unsocket legs, and roll on two wheels.
- ✓ Fully assembled and ready to use.
- ✓ No waiting for wheels to regain speed.

#410703 118 lbs. **\$3995**

ATTACHMENT ADAPTOR FOR ROGERS THROWING MACHINE CART

#409039 **\$305**

AERIAL ATTACK

Introducing the Aerial Attack Football Machine, designed for football programs on a tight budget. This unit delivers right-footed deep spiral punts and end-over-end kickoffs for coverage and return practice. It also throws long and short passes for receiving and defensive drills. The machine pivots in any direction, allowing for precise throws to challenge defensive coverage.

Now, all programs can practice like the pros and maximize every practice.

#410923 150 lbs. **\$2995**

STADIUM PRO® UTILITY CART

Large foam-filled locking casters provide a stable base, while a raised platform lip prevents items from sliding off. Slotted areas allow for accessory brackets and restraining straps, offering an advantage over other cart designs. It can be hand-pulled or towed and folds easily for compact storage. The baked-on finish ensures long-lasting durability.

#360160 340 lbs. **\$1985**

Please note the Stadium Pro Utility Cart is designed to be used only on grass/turf and should not exceed speeds of more than 5 mph.

COMBO PASSING TRAINER

THREE NETS IN ONE! Use the drop-in net to sharpen fade routes. The Target Net adjusts in height for variable training, including high-release drills. The full floor accommodates balls, gear, and training needs. It features a hitch for towing and a handle for easy positioning. Connect multiple units with hitch balls, and enjoy foam-filled tires for "Never Flat" technology.

#410621 190 lbs. **\$2485**

PRO TRAINER

A lightweight and rugged cart for transporting water and hydration tools to athletes. The sturdy, wide-body, all-aluminum welded frame is built for heavy use. Designed to hold a large cooler. 27" W x 50" L x 25"H. 80 lbs.

#410925 **\$2175**

INLINE WATER FILTER

Use this filter for clean, safe, fresh water to properly hydrate athletes. Mount it on the wall or at the end of a hose. Filters up to 5,000 gallons.

#804352 38 lbs. **\$75**

LIL' SQUIRT

The easy-to-maneuver frame allows trainers to position water in multiple locations, saving valuable practice time. The 10-gallon tank features a large 8" cap for adding ice and easy cleanup.

#410951 48 lbs. **\$2115**

JV LEV SLED

Sixth through Ninth Grades

Teach the latest leverage blocking technique just like in the upper levels of football. The JV LEV Sled also gives you the ability to teach the traditional blocking methods with the no-tools lock-down pad mechanism.

The JV LEV Sled is scaled to players in sixth through ninth grades. Improve your players' skills with drills taking advantage of all the same features as our larger LEV Sled – the most widely used sled in football today. See pages 8-11 for more details. Patent 5,464,472

ROGERS knows STRENGTH

Gear up for the off-season with Rogers Athletic's revolutionary weight training equipment. Our heavy-duty Pendulum Racks and plate-loaded machines are built to train your entire body and get your team ready for next season. Designed for safety and proper technique, every piece of equipment is made to help you build serious strength.

GET STRONG!

Scan to view video of the NC State weight room.

Pendulum **PRO MACHINES**

Pendulum Pro machines give coaches complete control with advanced adjustability, range limiters, and XT options for the most demanding training environments.

SHOULDER INCLINE

- ✓ Independent moving arms facilitate working wide range of stabilization muscles.
- ✓ Allows athlete to control range of motion for varied stimulation.
- ✓ Allows athlete to adjust to his or her biomechanically correct position.

LAT PULL PRO **NEW**

- ✓ Three standard handles are provided, including: underhand grip, long and standard rotating handles.
- ✓ Enables a safe and comfortable routine, while minimizing movement.
- ✓ Interchangeable handles provide a variety of exercises in a single machine.

4-WAY NECK

- ✓ Training the neck from multiple positions is a very important component to any serious strength training program.
- ✓ The 4-Way Neck allows an athlete to train the neck in four distinct directions, while specifically training the supporting musculature of the head.

5-WAY NECK

- ✓ Set Extension Technology (S.E.T.) easily training intensity or for rehab.
- ✓ A 4-way neck machine combined with a seated shrug.

Patents #8038588
and #8529414

Shrug Exercise

POWER GRIP PRO

- ✓ Maximize hand or individual finger strength.
- ✓ Unique footpad designed to assist in negative only training.
- ✓ Max out up to 450 lbs of weight.

VERTICAL CHEST PRESS

- ✓ Set Extension Technology (S.E.T.) easily adjusts athletes' range of motion to extend training intensity or for rehab.
- ✓ Natural bench pressing motion with independent movement arms for balanced strength.

3-WAY ROW

- ✓ Created to stabilize spine while delivering direct stimulation to back and arms.
- ✓ Three unique hand positions allow a variety of training options.
- ✓ Set Extension Technology (S.E.T.) easily adjusts athletes' range of motion to extend training intensity or for rehab.

POWER SQUAT PRO

- ✓ Targets hips and glutes with its top load and quads with bottom load.
- ✓ Five position range limiter allows comfortable range of motion without over extension.
- ✓ Floating Yoke activates core stimulation.
- ✓ Create the strength curve of a free weight, barbell squat.
- ✓ Set Extension Technology (S.E.T.) easily adjusts athletes' range of motion to extend training intensity or for rehab.

Patents #6802800 and #D635208

POWER SQUAT PRO

POWER SQUAT PRO XT

POWER SQUAT PRO XT

The Power Squat XT features an additional loading point that dramatically intensifies the eccentric phase of the lift. Can accommodate over 1500 lbs. of plates. (Depending on plate thickness)

HIP PRESS

- ✓ Complete leg stimulation without spinal compression or stress on knees.
- ✓ Control range of movement both eccentrically and concentrically.
- ✓ Unique leg press created to target the powerful hips and glute muscles.
- ✓ Set Extension Technology (S.E.T.) easily adjusts athletes' range of motion to extend training intensity or for rehab.

HIP PRESS PRO XT **NEW**

Our XT version of the Hip Press features independent moving foot plates which let athletes train each leg independently or drive both together for balanced development.

Independent arms allow double or single-leg movement

GLUTE HAM

- ✓ The walk-through design allows athletes to enter or exit the machine from either side.
- ✓ The distance of the foot rollers can be adjusted by the athlete while in position.

SEATED SQUAT PRO

- ✓ Lockout handles provide safe starting.
- ✓ Built to fit 4'6" to over 7' athletes both comfortably and safely.
- ✓ Ability to split footpad for unilateral or one legged training with a quick and simple adjustment.
- ✓ Set Extension Technology (S.E.T.) easily adjusts athletes' range of motion to extend training intensity or for rehab.

LEG EXTENSION

- ✓ Using S.E.T., control the starting angle of the lower leg, reducing stress to the knee.
- ✓ Angle of seat and back support, engineered for comfort while maximizing activation of Rectus Femoris.
- ✓ Extra wide seat bottom for increased stability under max loads.
- ✓ Easily adjust back support for all sized athletes.

REVERSE GLUTE HAM

- ✓ Achieving exceptional results in athletics requires specific training for the glutes, hamstrings and hip regions of our musculature.
- ✓ Designed to allow easy access for all athletes.
- ✓ Enables the user to isolate the glutes, hamstrings, or train both simultaneously.
- ✓ Set Extension Technology (S.E.T.) easily adjusts athletes' range of motion to extend training intensity or for rehab.

PRONE LEG CURL

- ✓ Linear adjustments accommodate various sized athletes.
- ✓ Greatest leg curl on the market today.
- ✓ Set Extension Technology (S.E.T.) easily adjusts athletes' range of motion to extend training intensity or for rehab.

Pendulum **PERFORMANCE MACHINES**

Pendulum Performance machines deliver our proven biomechanics in a streamlined, easy-to-use design – perfect for gyms and fitness centers that want rugged quality without added complexity.

POWER SQUAT

The Performance Power Squat delivers the muscle stimulation of a free-weight squat while reducing risk and strain. It's ideal for users with biomechanical issues, injuries, or grip limitations. The patented floating yoke adapts to all body types, simplifying set up and ensuring correct positioning and balance for proper knee tracking and to minimize lower-back stress for a safer, more effective squat.

Colors: ○●

HIP PRESS

The Pendulum Hip Press minimizes spinal compression and knee stress while providing a safe, effective alternative to free-weight squats. Its engineered strength curve and custom seat design maximize hip and glute activation beyond a traditional leg press.

Colors: ○●

LAT PULL **NEW**

The NEW Performance Lat Pull is built to elevate your back training with upgraded features and a smarter design. An improved strength curve delivers ideal resistance through the full range of motion for maximum results. While the redesigned seat and thigh pad easily adjust for any user.

Colors: ○●

GLUTE HAM **NEW**

The Pendulum Performance Glute Ham features a step-through frame for easy access and a wide, stable base for athletes of all sizes. A smooth side pull pin adjusts depth, with options for roller or new molded half-moon pads, an optional knee pad, and standard band pegs for added resistance and variety.

Colors: ○●

CHEST PRESS

The Performance Chest Press maximizes pectoral engagement while reducing shoulder strain. Its unique strength curve maintains chest tension and positions the body for optimal pressing. Independent handles ensure balanced strength development and help correct weaknesses.

Colors: ○●

LEG EXTENSION **NEW**

The Performance Leg Extension was created with a smaller footprint in mind. We've also re-engineered the strength curve to achieve a near-zero feel at the top of the movement, which is ideal for reducing shearing forces to the knee and making this a great tool for quad activation as well as rehab.

Colors: ○●

3-WAY ROW

The Performance 3-way Row trains the upper back through the full range of motion with our optimized strength curve and three hand positions: neutral, underhand, and overhand.

Colors: ○●

SHOULDER PRESS

The Performance Shoulder Press enables natural, pain-free overhead pressing for users who might otherwise struggle. Its design lets the arms move up and slightly forward, maintaining natural motion and continuous tension on the target muscles.

Colors: ○●

PENDULUM RACKS

Every Pendulum Rack features the **LARGEST** column dimensions with 3"x 5"x 7-gauge tubing along with 2"x 4" cross braces that provide the ultimate in strength and durability. Each upright also features patented tapered cutouts to easily and firmly attach all of the Rogers Pendulum Rack accessories.

FEATURES

- ✓ Industry leading 3" x 5" x 7 gauge steel uprights
- ✓ 2" x 4" steel cross braces
- ✓ Auto-leveling base with anchor points
- ✓ Included full cage safety bars.
- ✓ Included weight storage horns
- ✓ Custom color & school branding options available

MEGA RACK PRO

154"l x 50"w x 102"h

MOBILE HALF RACK

The Mobile Half Rack offers the same benefits as our traditional rack systems, allowing athletes to train safely while easily adjusting their proximity to others.

Size Options

52"l x 50"w x 102"h

52"l x 50"w x 84"h

WALL MOUNTED FOLDING RACK

Save space with the Folding Rack, featuring 11-gauge, 3" x 5" steel uprights for strength and durability. It supports a variety of accessories and attachments, allowing for the same workouts as a traditional rack. After use, it folds to just 8" from the wall, and 24" when extended.

FOLD-TO-STORE (FTS) BENCH

The Folding Synchro Bench (FTS) quickly lifts into a stored position saving both time and precious floor space. Now you can perform ground based movements without having to remove the bench. Foot pedal release keeps bench safely locked until you are ready to use again.

The Pendulum FTS Bench is adjustable from flat to 80 degree incline. You never have to get off the bench to adjust thanks to industrial bearing rails.

UTILITY BENCH

DOCKING SYNCHRO BENCH

CUSTOM RACK BRANDING

Choose from laser cut branding plates or vinyl decals on stainless or painted plates. Brand options include elevated storage plates, behind upright plates, and options above both pull up bars and bridges. Custom branding locations are also available. Check with your sales rep for more info.

LOCK N' LOAD J-HOOKS A

Cycle tested to 40,000 loaded reps. Precision standoff to avoid bar contact with upright. One hand trigger release. High density molded urethane surface prevents knurling wear.

OLYMPIC LOCK N' LOAD J-HOOKS B

Features a deeper hook than our standard Lock-n-Load for better bar control when loading and unloading.

RACK BRIDGING

Choose from a full lineup of bridge bar options at either 82" or 95" lengths.

SUPER BRIDGES

Transform your strength space with the Pendulum Super Bridge — a truss-style structure that connects your racks and defines your facility's look. Built with the same overbuilt DNA as our racks, each bridge offers:

- ✓ Custom branding zone for your school name or logo
- ✓ Integrated monkey bars for pull-ups and bodyweight training
- ✓ Multiple lengths to fit any layout

The Super Bridge adds training versatility, visual identity, and a commanding presence to any high school, college, or pro facility.

Take your weight room to the next level with fully custom Super Bridge designs. We can integrate illuminated signage, rotating logo features above the truss, or even built-in flat-panel TVs for video and branding displays. Whether you want to showcase school spirit, highlight sponsors, or bring a modern tech edge to your facility, our team can engineer a Super Bridge that's uniquely yours.

PIT SHARK

PIT SHARK SQUATS, with the risk of spinal compression removed, is the foundation movement done on the PIT SHARK.

It's easy hook-up with the hip belt (included) and you instantly realize the freedom of movement possible. Isolate the lower body effectively when not distracted by a bar on your back - the safety is built in. The confidence that comes from the risk of spinal compression being removed, translates into far better technique.

Includes Squat Handles and hip Belt with SpeedHook.

CUSTOM BRANDING

Choose from laser cut branding plates or vinyl decals on stainless or painted plates. Check with your sales rep for more info.

PIT SHARK RACK ATTACHMENT

More than just a squat attachment, the Pit Shark Belt Squat allows you to complete a variety of exercises, including: squats, dips, chins, pulling movements, calf raises and more. Get proven results with a real squat movement while de-loading the spine.

POWERSTACK LAT-ROW/ POWERSTACK HI-LOW

Pendulum Power Stacks transform your Pendulum rack into a multi-station strength center. These space-saving tools feature compact commercial frames, premium steel plate stacks, and adjustable high/low pulleys with precision bearings. Installation options include wall mount, rack mount, or freestanding modular mounts.

HEAVY BAG ATTACHMENT

(mount only)

SPEED BAG ATTACHMENT

(Rack attachment + swivel mount only)

Our new Speed Bag and Heavy Bag mounts attach directly to the Pendulum Rack System. The Heavy Bag Attachment has a pivoting mount that positions the bag within a 180-degree arc.

ROTATIONAL CORE DEVELOPER

Perform a variety of rotational exercises to develop a strong core. Attaches easily to the posts at a height convenient for each athlete.

CHEST SUPPORTED ROW

A versatile rack attachment for rows, flies, and training with dumbbells, kettlebells, barbells, or sandbags. Adjusts to zero or thirty degrees, folds for storage, and locks securely. Standard black upholstery; custom colors available.

ROPE PULL

The adjustable Rope Pull Attachment boosts upper body strength and supports resistance training. It rotates 90 degrees for high, low, and lateral pulls and fits ropes up to 2" in diameter. Adjustable to suit all athletes.

CORE DEVELOPER HANDLES

Take your strength training to the next level with our rugged core developer handles. Designed for explosive movements and versatile training, these handles provide a secure grip for rows, presses, and rotational exercises. Built to withstand heavy use, they're perfect for athletes pushing limits in any weight room.

ROPEFLEX RX2100

Available as a rack face mount or flexible mount for any position on the Pendulum Rack.

ROPEFLEX RX505

Available as a rack face mount or flexible mount for any position on the Pendulum Rack.

MONO POST DIP BAR

Train shoulders, delts, and triceps on a station designed for all athletes. Its ergonomic, adjustable design ensures the perfect fit and comfort with rubber grips.

MONSTER INCLINE ARMS V2.0

Adjust the height of Rogers' Monster Arm attachments for various ground-based exercises. Each arm includes patented cutouts for added accessories.

BAND ATTACHMENT (PAIR)

A flexible band attachment that mounts anywhere on Pendulum Rack uprights. Sold in pairs.

ROCK CLIMBING ATTACHMENT

Mounts at any height on your Pendulum rack, featuring a finger board and interchangeable rock climber grips. Customize and rearrange for versatile grip and finger strength training.

SINGLE LEG SQUAT PAD (SINGLE)

The high-density foam roller pad supports the resting leg during single-leg squats. It's adjustable in height and can be mounted inside or outside the rack.

SAFETY STRAPS (PAIR) NEW

Pendulum Safety Straps deliver quiet, durable protection. They reduce bar wear, dampen noise, and install easily on any Pendulum full cage rack, providing reliable safety for squats, benches, pulls, and presses. Sold as a pair and built to last.

DUMBBELL RACKS

Pendulum 3-tier heavy-duty dumbbell racks come in 55" and 89" lengths with various shelf options for kettlebells, medicine balls, or a utility shelf.

FLOORING

Rogers Athletic is a supplier of Regupol flooring products. Flooring options available include tiles, rolled flooring & turf.

Eliminate trip hazards by utilizing logo branded inlay floor platforms. Further customize by selecting from a wide variety of floor color options.

KETTLE BELLS

A complete range of kettle bells are available from Rogers. We can match the weight and design that fits your training style best.

OLYMPICS BARS

Rogers offers a wide variety of weight bars from Olympic to power bars. We offer a wide range of bars for all of your different types of lifts. Specialty bars and fat grip bars also can be supplied by Rogers.

MEDICINE BALLS

Complete your training with our full lineup of medicine balls. Choose from a variety of styles, diameters, textures, and weight.

WEIGHT PLATES

Weight plates and bumper plates are available in many different styles from all the major manufacturers including Iron Grip, Intek, and Troy.

TREADMILLS & CARDIO

Complete your weight room and fitness facility with our offerings of cardio equipment including VersaClimbers, stationary bikes, treadmills, ellipticals and more.

DUMBBELLS

Rogers provides the right dumbbell for your facility and training needs. Choose from premium urethane, rubber encased, or basic steel in traditional hex style or oval plate.

OLYMPIC LIFT PLATFORM

Complete the look of your facility and protect your flooring with Rogers hardwood platforms, featuring engineered solid hardwood flooring framed by a full steel tube.

PLYO BOXES

Stackable soft Plyo Boxes come in five sizes: 3", 6", 12", 18", and 24". Each has a 30" x 35" landing surface with handles, reinforced stitching, and Velcro™ flaps for secure stacking. Designed for safe plyometric exercises, they feature non-skid surfaces on the top and bottom and side grommets for air release.

Available with custom school logos and colors. Call for details and pricing.

LEV SLED INDOOR MOUNT

The LEV Sled Indoor Mount bolts to the floor for off-season conditioning. Choose either the Surge or Shock Pad, both with "armpit" aiming points. It includes a special-edition LEV head with a hydraulic shock that resists the player's lift effort. Mounting hardware not included.

#410404 155 lbs. \$1385

INDOOR LEV STATION

Sharpen blocking techniques and build upper body strength with the LEV Sled. This special-edition sled fits in a 10'9" x 4' space and is perfect for year-round training. Push the pad back five inches to unlock the sled, then roll your hips and lift the pad. A hydraulic shock absorber provides resistance, requiring upper body strength to leverage the pad, which then returns at a controlled speed. Includes Surge or Shock Pad.

#410391 630 lbs. \$2695
or two annual payments of \$1348

JAM BAGS

Develop quick hands for the punch. Strengthen elbows for pass protection technique. Excellent upper-body workout while honing footwork and balance. Save on shipping – fill the bag with sand yourself.

SPEEDWORX WORK HORSE PULLING HARNESS

#410686 2 lbs. **\$115** V-line not included

ROGERS SPEED SLED

The best speed sled on the market. Ergonomic handle prevents wrist strain. Train speed and acceleration by pulling with optional harness. Increase resistance by adding weight plates to the built-in weight horn.

#410650 23 lbs. **\$255**
V-line included, harness not included

ROGERS DUAL SIDED SPEED SLED

Able to be pushed from both sides, to speed up drills.

#411576 32 lbs. **\$285**
V-line included, harness not included

WALL MOUNT DIP STATION

Attaches to any masonry wall or column. Strong, stable dip that saves space by folding away when not in use.

2" Grips

#410658 60 lbs. **\$465**

2.5" Grips

#410731 65 lbs. **\$465**

HEAVY CORE BAG

This bag will complement your strength training on and off the field. The multi-grip handle locations will allow you to do an unlimited series of exercises to develop explosive movements and build core strength. This bag can be used for single or team lifting drills. The molded core stabilizes the weight so you can do lifts and tosses without damaging your facility or the bag.

#410726 50 lbs. **\$475**
#410727 75 lbs. **\$535**

SLING SHOT BREAK AWAY

Develop strong explosive starts. The trail runner gives the lead runner resistance then rips the cord releasing the lead runner into a full explosive zip sprint.

#410698 1 lb. **\$75**

SLING SHOT 2 PERSON PROXIMITY TRAINER

Used mainly for short bursts and lateral quickness drills, the Sling Shot Proximity Trainer develops quickness, resistance, acceleration, agility, over speed, and range of motion. The 4' cord stretches out to 16'.

Pro	#410687	2 lbs.	\$95
Heavy	#410688	2 lbs.	\$85
Standard	#410689	2 lbs.	\$85

LINEMAN TRAINER

Train your players to keep a proper base by allowing them to feel the resistance.

Great for lateral walks, shuffles, slides and pass blocking drills. When

you step in a direction, the cord stretches forcing the trail foot to follow.

Pro	#410691	2 lbs.	\$85
Heavy	#410692	2 lbs.	\$75
Standard	#410693	2 lbs.	\$65

DRIVE SLED

The only drive sled that puts your hands in the correct inside position for training stamina, quickness and power. 66" long. V-line included, harness not included.

#410588 121 lbs. **\$905**

SAVE on five or more \$895

V-Line

#405423 **\$45** Patent #D606 6115

SLING SHOT 2 PERSON TRAINER

Great for training change of direction drills and to develop acceleration, agility, and range of motion. The lead player sprints stretching the Lightning Cord creating resistance. As the lead player gets ahead, the trail player goes to a full sprint. The stretched cord pulls the trail player faster than their normal run. Over-speed training increases stride length and rate of motion.

Pro	#410683	4 lbs.	\$145
Heavy	#410684	4 lbs.	\$135
Standard	#410685	4 lbs.	\$125

IMPACT ATHLETICTM

SHOW THE WORLD HOW YOU PROTECT YOUR ATHLETES!

Impact Athletic training tables and storage units are proudly sourced and manufactured in the USA using the highest-quality aluminum, composite, and upholstery components. Our durable aluminum bases provide a level of professionalism and longevity unmatched by traditional athletic training room products, which often rely on wood laminate. The combination of our superior build quality and ability to customize each piece makes Impact Athletic products the best in the market.
