STYLE & COLOR GUIDE | USA 2023

THE SMART CHOICE

We're constantly improving our business, our products and our services.

We pride ourselves on providing well-made, durable tees that come in a huge range of colors and sizes. The Gildan® product line just got better, thanks to the addition of six new Gildan Softstyle® styles, one new Gildan Hammer® style and one new Heavy Blend™ blanket. We offer everything from 100% US cotton tees to 100% polyester and blends, from performance wear and fleeces to polos, and from relaxed fits to tailored fits.

We've structured our business to reliably manufacture consistent garments offering great value, so our vertical integration gives us a unique advantage in fulfilling our buyers' needs despite global disruptions in the supply chain. And we continue to be committed to ensuring that all our products are made with respect for the environment, circularity, people, communities and transparency.

Plus, we've improved our Product Locator App so you can scroll, scan and stay up to date with the latest styles and colors to give even better service to our customers.

So whatever your printing requirements are Gildan® is the smart choice.

GILDAN MADE WITH RESPECT™

LEARN HOW GILDAN
BRANDS MAKE
THEIR APPAREL WITH
RESPECT.

Gildan is made with respect for what matters most: the environment, people and circularity. Our unwavering commitment to strict, future-forward standards across our entire global operation enables us to Make Apparel Better® with respect to how we make it, who we make it with, and what we use to make it.

RESPECT FOR the environment

We believe our consideration for the planet as shown by our past and current ESG initiatives at Gildan set us apart from the rest. From reducing fossil fuel consumption and carbon emissions, to managing water consumption and cleaning wastewater so it's safe to return to nature after use, Gildan is continually increasing the energy efficiency of its apparel manufacturing.

RESPECT FOR circularity

We're committed to ensuring responsible consumption and production patterns. From recovering our waste directly within our supply chain, to using recycled polyester and high-quality, sustainably grown materials, Gildan is committed to significantly lowering our impact on the planet.

RESPECT FOR people

At Gildan, human rights, ethical labour and inclusivity are priorities. Whether it's through ensuring fair wages, empowering workers to develop skills and pursue education, offering a higher standard of living, giving access to free medical care to some of our manufacturing workers and maintaining safe and healthy work environments, we understand that treating people with respect and dignity is essential to our company's success.

RESPECT FOR communities

We believe it's vital to create and support positive community development in the countries we operate in. From providing youth education and strengthening social programs to offering employee programs to inspire and connect, Gildan is proud to continually grow and strengthen our supply chain ecosystems.

RESPECT FOR transparency

Honesty and ownership are two values at the core of Gildan's business model. The visibility we have over our manufacturing is rare in our industry. Not only can it inspire people to think differently about what they wear, but it can also contribute to the global conversation surrounding supply chain transparency.
