## Yamamoto Nano SCS Neoprene

The Yamamoto Nano SCS Neoprene™ gives you a coveted second-skin feel with ultimate flexibility, while the built-in Nano SCS coating provides an ultra-low drag coefficient.

## Quick release ankle cuffs

Quick Release Ankle Cuffs ensure an easy transition out of the wetsuit saving athletes valuable seconds.

## 360° Elevation panels

Advanced 360 Degree Panels elevate the swimmer and ensure optimal body positioning for maximum buoyancy and speed.

## Speed wrap paneling

Speed Wrap Paneling curves around the entire leg, chest, and core areas to give the feeling of a second-skin fit, maximizing body position and minimizing drag.

## Range of motion zones

Strategically placed free Range of Motion Zones eliminate constrictions, allowing the swimmer to achieve a long reach without straining the shoulders.

## Core stabilization

Muscle groups are specifically targeted for Core Stabilization and long term preservation of core strength, allowing swimmers to maintain better technique.

## Form-fitting wrist cuffs

Form-fitting Wrist Cuffs allow powerful strokes while preventing water from entering the suit.

## Antimicrobial lining

Antimicrobial Lining provides superior odor protection and long-lasting freshness.
