OUR CUSTOMER

TARGET MARKET

WE'RE FOR THE FOCUSED PERFORMER.

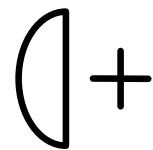

The Focused Performer isn't a demographic; it's a mindset. Our athletes are simply tougher than the rest, hardwired to fight and push themselves to their full potential. Behind every struggle they see victory. But to reach performance, they need focus. Under Armour eyewear is the only brand that gives athletes the clarity of vision they need to reach their peak potential.

TARGET AUDIENCE

16-20 YO VARSITY ATHLETES.

A Focused subset of the target market that we aim to inspire so that they love our brand and purchase our product. We focus on this consumer subset because they most embody what we stand for as a brand and, as a result, positively influence other consumers to love our brand.

UA TUNED™

UA Tuned™ performance lenses are scientifically engineered for ultimate visual precision by sport. Each UA Tuned™ lens filters in the light you need to create a sharper color separation, enhanced visual detail and heightened contrast within varied sport environments

100% PROTECTION: Against bright sunlight.

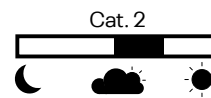

DEPTH PERCEPTION: Increase depth perception and deliver the brightest field of vision with maximum image definition.

SHARP VISION: The right compromise to see higher contrasts and vibrant colors.

BASEBALL ORANGE

Multilayer Orange Tuned

VLT: 23%

► The higher the VLT percentage, the lighter the lens tint.

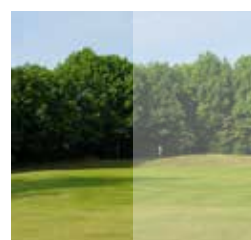

VLT %	Category	Lens Description	Best for:
80 - 100%	0	None or Very Light Tint	Lowest level of Sunlight Protection. For aesthetic, fashion, or comfort purposes.
43 - 80%	1	Light Tint	Limited Sunlight Protection
18 - 43%	2	Medium Tint	Good Sunlight Protection
8 - 18%	3	Dark Tint	For use in strong sunlight, including light which is reflected off water.
3 - 8%	4	Very Dark Tint	For the highest level of sunlight protection; Sea, Snow or Mountain. (not suitable for drivers and road users)

BASEBALL BLUE
Super Blue Tuned

ANSI Z87+ RATED
UNDER ARMOUR EYEWEAR MARKED WITH Z87+ GUARANTEES
HIGH-MASS AND HIGH-VELOCITY IMPACT PROTECTION

UA WATER AND SMEAR RESISTANT COATING

All Performance Sunglass lenses & Tuned™ lenses have Hydro Oleophobic coating applied to front & back of the lenses.

The Hydro Oleophobic coating repels water, dust, oil and dirt from the lenses and stay clean longer offering optimal visual results.

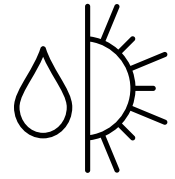

Z87+ ANSI RATED

UA Eyewear marked with Z87.1 guarantee high-mass and high-velocity impact protection under the impact safety requirements of ANSI/ISEA WZ87.1-2015.

Select Performance Styles and all Outdoor Styles are Z87.1 ANSI certified.

Meets OSHA requirements for all eye protection.

TECHNOLOGY

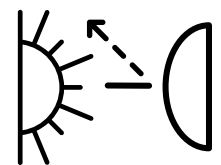

POLARIZED

Polarization decreases additional glare for clearer vision and reduced eye fatigue

POLARIZED LENSES: Contain a filter that polarizes light, blocks reflections, and prevents glare.

HIGH CONTRAST POLARIZED LENSES: Filters with a special dye inside the mixture which blocks the areas of overlap between the colors offering greater contrast between the colors and consequently higher definition of the image.

POLARIZED MIRROR LENSES: Combine Mirror and Polarized which blocks glare that ordinary lenses cannot, ensuring comfortable vision.

MIRROR

Multilayer mirrored Lenses combination of mirror coatings offering top quality, performance, durability & scratch resistance.

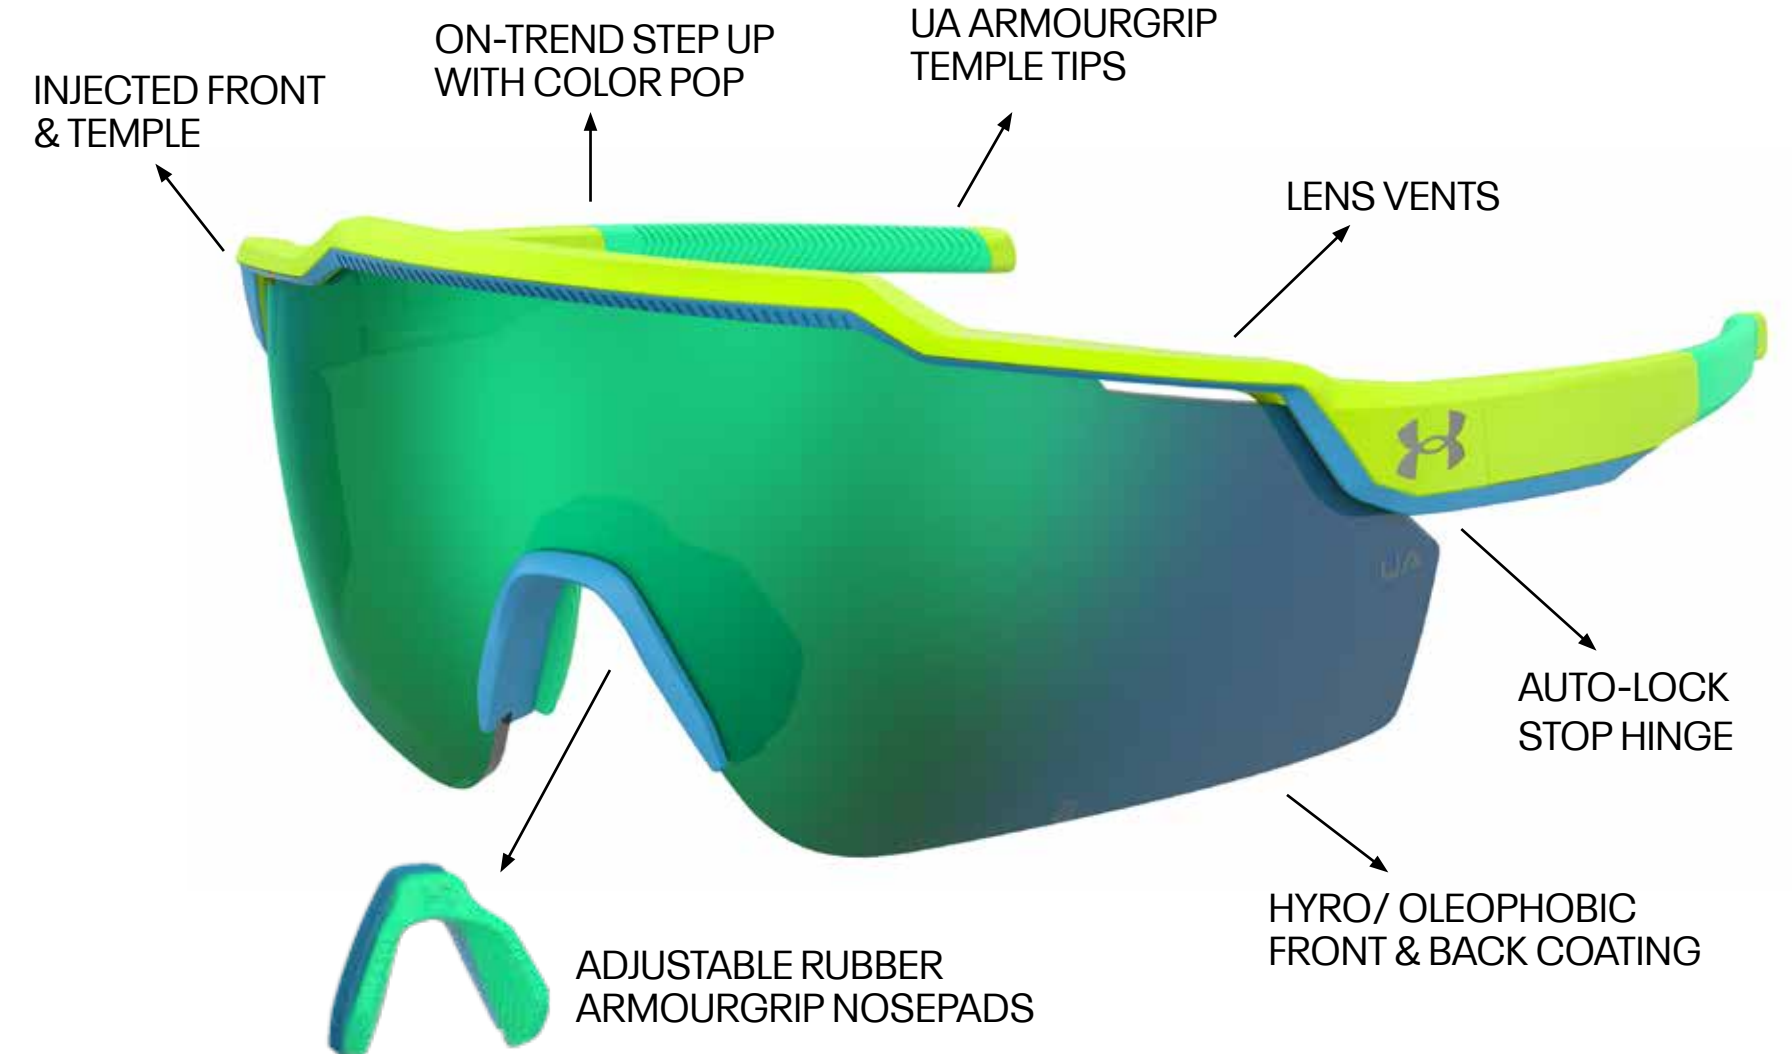

Specific colors, such as the Infrared Mirror additionally absorb harmful infrared waves offering further protection to the eye.
