Drop-In Midsole allows for a closer to the ground feel, which allows for more impact protection as well as more containment. Zonal containment through upper materials with a combination of Warp which provides breathability and lockdown where needed and a TPU mesh where durability is needed. TPU Plate in outsole which allows for more rigidity in midfoot for an elevated level of enhancement and stability. UA Tribase maximizes ground contact, promotes natural motion and provides flexibility to grip during lifts.

MEN'S

COMPRESSION

Ultra-tight, second skin fit that keeps you locked in & makes you feel like you can do anything.

FITTED

A slimmer, athletic cut that allows total mobility but eliminates the bulk of extra fabric.

REGULAR

Fuller cut for complete comfort, total range of motion & greater breathability.

HOW TO MEASURE

CHEST: Place the tape measure under your arms at the fullest part of your chest, wrap around your body until your fingers meet and mark the measurement

WAIST: Measure around your natural waistline - right above your hips. Be careful not to squeeze too tight to allow a little give.

HIPS: With your feet together, measure around the fullest part of your hips to ensure you'll have enough room to move comfortably.
