SD251 CORE DOUBLE COMPRESSION/ SLIDER SHORT W/ BIOFLEX CUP

MSRP: \$39.99

SIZES: S-2XL (MEN'S); S-XL (BOY'S)

Designed with double layer side panels for twice the protection. The vented cup pocket is strategically placed in a more natural position, providing a closer fit and wider range of motion. This vented, bio-shape cup is designed to shield areas where coverage is most crucial.

MD24 PDF-PG 18

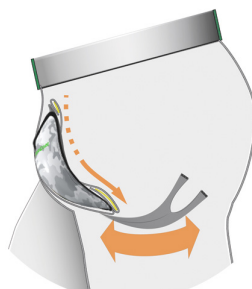

MD21300 / MD21320 DOUBLE COMPRESSION SHORT WITH CUP POCKET

MSRP: \$29.99 (ADULT); \$24.99 (YOUTH)

SIZES: S-XL (ADULT); S-L (YOUTH)

Protective double layer compression and muscle support keep you comfortable and confident when you slide into home. Super soft and flexible fabric keeps you cool and dry all day.

AIRCORE™ + ULTRA^{PRO}

ULTRA CUP RETENTION SYSTEM

Compression technology in our cup shorts adds another element of muscle-enhancing performance to your game.

An advanced system consisting of a close fitting ergonomic pocket & flexible four-way stretch Y internal strap attachment secures the lower two-thirds of the bio-shaped cup pocket in a more natural position, allowing the short to move independently from the cup for superior comfort.

Shorts are constructed of four-way stretch fabric that wicks moisture, plus chafe-free flatlock seams, a premium micro-knit waist and vented mesh cup pocket.

SD24 PDF-PG 16

SD30690 AIRCORE CUP (30% LIGHTER)

MSRP: \$22.99

SIZES: S-L

The AirCore™ Athletic Cup is combined of patented 3-layer fusion technology. The outer most layers consist of a compressed foam and fabric shell offering the highest level of comfort. The inner core is a composite co-polymer material for protection. 30% Lighter for Speed & Comfort!

SD24 PDF-PG 17

SD30630(A) / SD30650(Y) COMPRESSION SHORT WITH AIRCORE CUP

MSRP: \$49.99

SIZES: S-2XL (MEN'S); S-XL (BOY'S)

Perfect for any athlete seeking comfort and compression. The Ultra Cup Retention system secures the cup pocket in a more natural position so the cup stays in place. Includes the Shock Doctor AirCore Cup with patented 3-layer fusion technology and 30% lighter than the traditional molded cup.

SD24 PDF-PG 17

337 ULTRA PRO COMPRESSION SHORT WITH ULTRA CUP

MSRP: \$39.99

SIZES: S-2XL (Men's); S-XL (Boy's)

Ideal for elite athletes seeking the best combination of premium comfort and maximum protection. A secure fit and Ultra Cup Retention System offers maximum comfort, range of motion and keeps the cup in place during all athletic activities.

SD24 PDF-PG 16

306 ULTRA CARBON FLEX CUP

MSRP: \$14.99
SIZES: S-XL

Ideal for elite athletes, offers multi-layer protection designed to shield and transfer shock away from areas where protection is needed most. The flex curve design forms to the body to provide unrestricted range-of-motion and comfort.

SD24 PDF-PG 27

SD30370 HEX® COMPRESSION FIT IMPACT SHORT WITH ULTRA CARBON FLEX CUP

MSRP: \$69.99 (MEN'S), \$59.99 (BOY'S)
SIZES: S-2XL (MEN'S); S-XL (BOY'S)

Stay confident and be ready for impact, with five-pad McDavid HEX® protection at hips, thighs and tailbone, this short delivers exceptional protection that moves with you for ultimate confidence in motion. **Ultra Cup Retention System.**

SD24 PDF-PG 16

201 BIOFLEX CUP

MSRP: \$11.99

GRIP THE GREATNESS

GRIP SO STICKY

IT'S ALMOST ILLEGAL

Our grip is a trade secret that has often been imitated by competitors — yet they never come close to matching C-TACK's[®] stick, durability, and performance.

C-TACK[®] is a self-restoring grip material. Simply wipe down with a damp cloth when dirty, and the grip is as good as new.

Cold, rain, or shine, C-TACK[®] performs without compromise in all weather conditions.

All Cutters gloves with C-TACK[®] are machine washable. It's easy to keep them clean and maintain grip.

MEASURE TRUE

**WAIST**

Stand with stomach relaxed (c'mon, you're among friends here). Measure the minimum circumference (skinniest part) in the waist area. Tape should be parallel with the floor.

**THIGH**

Stand and measure the maximum circumference (meatiest part) of your upper leg near the crotch.

**CHEST**

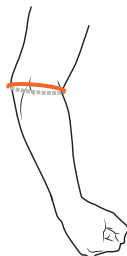

Stand and measure around the fullest part of your chest. Tape should be parallel with the floor. (No superhero chest puffing).

**KNEE**

Measure the knee to be protected (you likely figured that). Stand and bend your leg just less than 45 degrees, measure around the largest part of knee, directly over the patella (kneecap).

**KNEE**

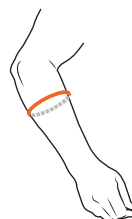

Stand and bend your leg just less than 45 degrees, measure knee circumference 2" (5cm) below the center of patella (kneecap).

**ELBOW**

Bend your elbow to approximately 45 degrees and measure directly over the joint. When ordering a pair, take measurements of both elbows and use the average of the results.

**WRIST**

Keeping wrist straight, measure directly over joint, including wrist bones.

**FOREARM**

With your arm slightly flexed, measure the fullest part of your forearm, typically midway between your wrist and elbow.

**BICEP**

With your arm slightly flexed (remember, "slightly"), measure the fullest part of upper arm/bicep. When ordering a pair, take measurements of both arms and use the average of the results.

**FOOT**

Measure circumference at center of arch directly over top of instep.

**CALF**

Stand and measure the calf in question (you knew this). Measure at the fullest part of the calf. When ordering a pair, take measurements of both calves and use the average of the results.

**ANKLE**

Stand and measure ankle circumference 1"/25cm above center of inner ankle bone tip (the knobby bits). If you measure while seated, flex your foot slightly back toward yourself as you measure.

**WHEN ORDERING**

Numerical suffix must be used with denoted size when ordering (i.e. XS-31)

INDEX

MEASURE TRUE

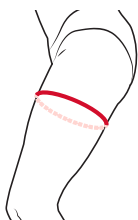

WAIST

Stand with stomach relaxed (c'mon, you're among friends here). Measure the minimum circumference (skinniest part) in the waist area. Tape should be parallel with the floor.

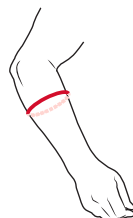

WRIST

Keeping wrist straight, measure directly over joint, including wrist bones.

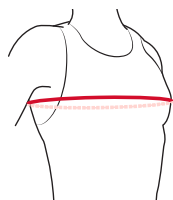

THIGH

Stand and measure the maximum circumference (meatiest part) of your upper leg near the crotch.

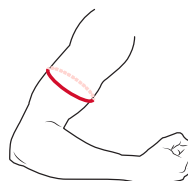

FOREARM

With your arm slightly flexed, measure the fullest part of your forearm, typically midway between your wrist and elbow.

CHEST

Stand and measure around the fullest part of your chest. Tape should be parallel with the floor. (No superhero chest puffing).

BICEP

With your arm slightly flexed (remember, "slightly"), measure the fullest part of upper arm/bicep. When ordering a pair, take measurements of both arms and use the average of the results.

KNEE

Measure the knee to be protected (you likely figured that). Stand and bend your leg just less than 45 degrees, measure around the largest part of knee, directly over the patella (kneecap).

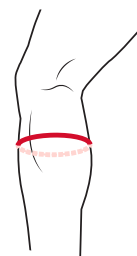

FOOT

Measure circumference at center of arch directly over top of instep.

KNEE

Stand and bend your leg just less than 45 degrees, measure knee circumference 2" (5cm) below the center or patella (kneecap).

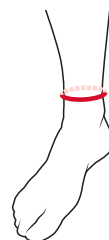

CALF

Stand and measure the calf in question (you knew this). Measure at the fullest part of the calf. When ordering a pair, take measurements of both calves and use the average of the results.

ELBOW

Bend your elbow to approximately 45 degrees and measure directly over the joint. When ordering a pair, take measurements of both elbows and use the average of the results.

ANKLE

Stand and measure ankle circumference 1"/25cm above center of inner ankle bone tip (the knobby bits). If you measure while seated, flex your foot slightly back toward yourself as you measure.

GRIP THE GREATNESS

GRIP SO STICKY IT'S ALMOST ILLEGAL

Our grip is a trade secret that has often been imitated by competitors — yet they never come close to matching C-TACK's stick, durability, and performance.

C-TACK® is a self-restoring grip material. Simply wipe down with a damp cloth when dirty, and the grip is as good as new.

Cold, rain, or shine, C-TACK® performs without compromise in all weather conditions.

All Cutters gloves with C-TACK® are machine washable. It's easy to keep them clean and maintain grip.
