LX STICK TECHNOLOGY

ALPHA LX PRO

DYNAMIC STRIKE

The new ALPHA LX line of sticks builds on 20 years of research and know-how to deliver DYNAMIC STRIKE. Allowing you to strike anywhere, anytime. Whether taking hard shots from the blue line or puck handling in tight situations the LX is primed and ready. The Sabre Taper II combines low kick with a stable powerful release, that is just as explosive for quick wristers as it is for hard slapshots.

SABRE TAPER II

SABRE TAPER II

Our exclusive taper design that combines low kick response with a stable powerful release. This easy to load design provides a quick release and more accurate shots.

FUELCORE ULTRA

MINIMUS CARBON UD RLC 188

FUELCORE ULTRA BLADE

A lightweight polymer blade core that enhances puck feel and makes shots pop. Composite layering around the core is redesigned to be stronger and tougher. FuelCore reduces breakdown of materials in the blade and increases the durability.

MINIMUS CARBON UD RLC 188

High Strength, lightweight flat weave carbon design. The material is more dynamic and elastic than anything we've ever made, providing excellent feel for all parts of the game.

ERGO SHAFT SHAPE

The ergonomic contour shaped shaft fits comfortably and securely in your hands enhancing touch and feel for better deking, dragging, and shooting.

APEX PERFORMANCE GRIP

APEX GRIP TEXTURE

Textured zone coupled with tacky soft grip finish locks easily in your hands for peak control and accuracy.

ALPHA LX PRO

SABRE TAPER II | Our exclusive taper design combines a specialized geometry with a low kick flex that is torsionally stable and provides a powerful and accurate release. The new laminate design reduces weight which allows it to recoil faster on shots.

R.L.C. 188 | Revolutionary Lightweight Construction 188 is our highest grade construction and uses the most advanced material selection and processing technologies to produce an extremely lightweight and durable stick. RLC188 combines the latest in modern carbon composites technology – using lower weight fibers and thermoplastic-toughened epoxy resin to provide optimal performance and balance.

MINIMUS CARBON UD | Alpha LX Pro shaft is lighter and tougher than ever. Using unidirectional carbon fiber creates the most efficient lightweight and durable hockey stick.

FUELCORE ULTRA | New redesigned blade. FuelCore Ultra features a tougher edge for extended durability and a more robust carbon rib design that resists fatigue and maintains a crisp, responsive feel. Now with our Minimus Carbon 25 weave around the core, the blade is lighter and tougher than ever. Texture on the blade increases grip on the puck.

ERGO SHAFT SHAPE | The ergonomic contour shaped shaft fits comfortably and securely in your hands, enhancing touch and feel for better deking, dragging, and shooting.

APEX GRIP TEXTURE | Textured zone coupled with tacky soft grip finish locks easily in your hands for peak control and accuracy.

SABRE TAPER II | Notre profil fuselé exclusif combine une géométrie spécialisée avec un point de flexion bas qui reste stable en torsion, permettant un relâchement à la fois puissant et précis. Le nouveau design de laminage réduit le poids tout en favorisant un recul plus rapide lors des lancers.

R.L.C. 188 | RLC188 est notre plus haut niveau de construction, qui utilise une sélection de matériaux les plus avancés et les meilleurs processus technologiques pour produire un bâton extrêmement léger et durable. RLC188 s'appuie sur les plus récentes technologies de matériaux composites, utilisant les fibres de carbone les plus légères et des résines époxy renforcées de thermoplastique pour atteindre les plus hauts niveaux de performance.

MINIMUS CARBON UD | Le bâton Alpha LX Pro est plus léger et plus robuste que jamais. L'utilisation de fibres de carbone disposées unidirectionnellement permet de créer le bâton le plus léger, le plus efficace et le plus durable qui soit.

FUELCORE ULTRA | Le cœur de la lame en polymère léger améliore le contrôle de la rondelle et déclenche des tirs explosifs. Le design des couches composites autour du cœur a été amélioré, pour plus de force et de robustesse. La technologie FuelCore réduit la dégradation des matériaux dans la lame et améliore la durabilité.

ERGO SHAFT SHAPE | Le profil angulé ergonomique offre une prise en main solide et confortable et les meilleures sensations pour les dribbles, les feintes et les lancers.

APEX GRIP TEXTURE | La surface texturée et le fini adhérant assurent une prise solide pour un contrôle optimal.

ALPHA LX 20

SABRE TAPER II | Our exclusive taper design is torsionally stronger, combining low kick response with a powerful and accurate release. This easy to load design provides a quick release and pinpoint control on shots.

R.L.C.155 | Revolutionary Lightweight Construction 155 is a premium-grade carbon construction that provides the ultimate in bending strength and impact resistance. A select blend of high elongation fibers and toughened resin chemistry that provides pro-level strength and performance.

MINIMUS CARBON UD | Alpha LX 20 shaft is lighter and tougher than ever. Using unidirectional carbon fiber creates the most efficient lightweight and durable hockey stick.

FUELCORE PRO | Our lightweight polymer blade core that enhances puck feel and makes shots pop. Now with Minimus Carbon 6 weave around the core is lightweight and strong. Texture on the blade increases the feel for the puck. FuelCore Pro reduces breakdown of materials in the blade and increases the durability and feel.

ERGO SHAFT SHAPE | The ergonomic contour shaped shaft fits comfortably and securely in your hands enhancing touch and feel for better deking, dragging, and shooting.

APEX GRIP | A tacky soft grip feel that locks your hands in place for peak hand control.

SABRE TAPER II | Notre profil fuselé exclusif demeure stable en torsion et combine une bonne réponse avec un point de flexion bas à un relâchement à la fois puissant et précis. Facile à charger, il offre un relâchement rapide et un contrôle parfait des lancers.

R.L.C. 155 | RLC155 est un procédé de construction de carbone de première qualité qui assure le plus haut niveau de force en flexion et de résistance aux impacts. Une sélection des meilleures fibres à longue expansion et un mélange de résines renforcées permettent d'assurer une solidité et une performance de niveau professionnel.

MINIMUS CARBON UD | Le bâton Alpha LX 20 est plus léger et plus robuste que jamais. L'utilisation de fibres de carbone disposées unidirectionnellement permet de créer le bâton le plus léger, le plus efficace et le plus durable qui soit.

FUELCORE PRO | Notre cœur de lame en polymère ultra-léger améliore le contrôle de la rondelle et fait claquer les lancers. Maintenant avec le carbone minimus 6 autour du cœur, notre lame est légère et robuste. La texture sur la lame améliore le contrôle de la rondelle. En réduisant la dégradation des matériaux de la lame, FuelCore Pro améliore la durabilité et les sensations.

ERGO SHAFT SHAPE | Le profil angulé permet une prise en main solide et confortable et offre les meilleures sensations pour les dribbles, les feintes et les lancers.

APEX GRIP | Le fini adhérant assurent une prise solide pour un contrôle optimal.

ALPHA LXT

SABRE TAPER II | Our exclusive taper design is torsionally stronger, combining low kick response with a powerful and accurate release. This easy to load design provides a quick release and pinpoint control on shots.

R.L.C. 133 | Revolutionary Lightweight Construction 133 is a high-grade carbon construction that features the latest lightweight fiber technology and epoxy resin formulation to provide the ultimate in strength and playability.

MINIMUS CARBON UD | Alpha LX 40 shaft is lighter and tougher than ever. Using unidirectional carbon fiber creates the most efficient lightweight and durable hockey stick.

FUELCORE | A lightweight polymer blade core that enhances puck feel and makes shots pop. Composite layering around the core is redesigned to be stronger and tougher. FuelCore reduces breakdown of materials in the blade and increases the durability.

ERGO SHAFT SHAPE | The ergonomic contour shaped shaft fits comfortably and securely in your hands enhancing touch and feel for better deking, dragging, and shooting.

SABRE TAPER II | Notre profil fuselé exclusif demeure stable en torsion, et combine une bonne réponse avec un point de flexion bas à un relâchement à la fois puissant et précis. Facile à charger, il offre un relâchement rapide et un contrôle parfait des lancers.

R.L.C. 133 | RLC133 est un procédé de construction de carbone optimisé pour l'équilibre et la durabilité. Les fibres de carbone de haute résistance permettent de produire une lame très solide et parfaitement équilibrée.

MINIMUS CARBON UD | Le bâton Alpha LXT 40 est plus léger et plus robuste que jamais. L'utilisation de fibres de carbone disposées unidirectionnellement permet de créer le bâton le plus léger, le plus efficace et le plus durable qui soit.

FUELCORE | Le cœur de la lame en polymère léger améliore le contrôle de la rondelle et déclenche des tirs explosifs. QRE STICK TECHNOLOGY

EDGE TAPER

EDGE TAPER

The angular edge taper drives flex energy through the hosel that magnifies power and quick release. Our unique geometry improves response and is more stable and plays stronger.

MINIMUS CARBON 1500D

MINIMUS CARBON 1500D

High Strength, lightweight unidirectional carbon design. The QRE 10 shaft is lighter and tougher than ever. The material is dynamic and elastic, providing excellent feel for all parts of the game.

SHADOW FEEL

SHADOW FEEL

Shadow Feel construction creates the most well-balanced stick ever built and enhances how the stick feels during play giving you more control and response.

FUELCORE+ BLADE

FUELCORE+

A lightweight polymer blade core that enhances puck feel and makes shots pop. Now with our 25K Enigma Carbon weave around the core redesigned to be even tougher. The texture on the blade increases the feel for the puck. FuelCore+ reduces breakdown of materials in the blade and increases the durability and feel.

SLIDE GRIP

SLIDE GRIP

Textured zones only where you need them to provide optimum grip and control. Removing the texture from areas you don't make it easy to slide your hands for poke checks, face offs, and puck battles.

COVERT QRE 10

EDGE TAPER | The angular edge taper drives flex energy through the hosel that magnifies power and quick release. Our unique geometry improves response, is more stable and plays stronger.

MINIMUS CARBON 15000 | High Strength, lightweight unidirectional carbon design. The QRE 10 shaft is lighter and tougher than ever. The material is dynamic and elastic, providing excellent feel for all parts of the game.

SHADOW FEEL | Shadow Feel construction creates the most well-balanced stick ever built and enhances how the stick feels during play giving you more control and response.

FUELCORE+ | A lightweight polymer blade core that enhances puck feel and makes shots pop. Now with our 25K Enigma Carbon weave around the core, it's redesigned to be even tougher. The texture on the blade increases the feel for the puck. FuelCore+ reduces breakdown of materials in the blade and increases the durability and feel.

SLIDE GRIP | Textured zones only where you need them to provide optimum grip and control. Removing the texture from areas you don't making it easy to slide your hands for poke checks, face offs, and puck battles.

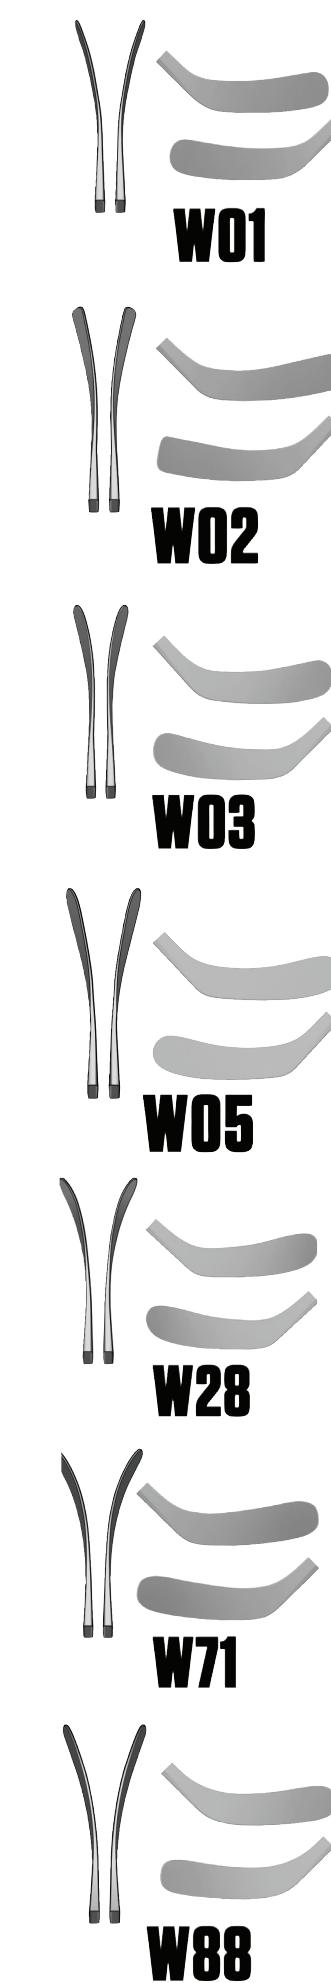

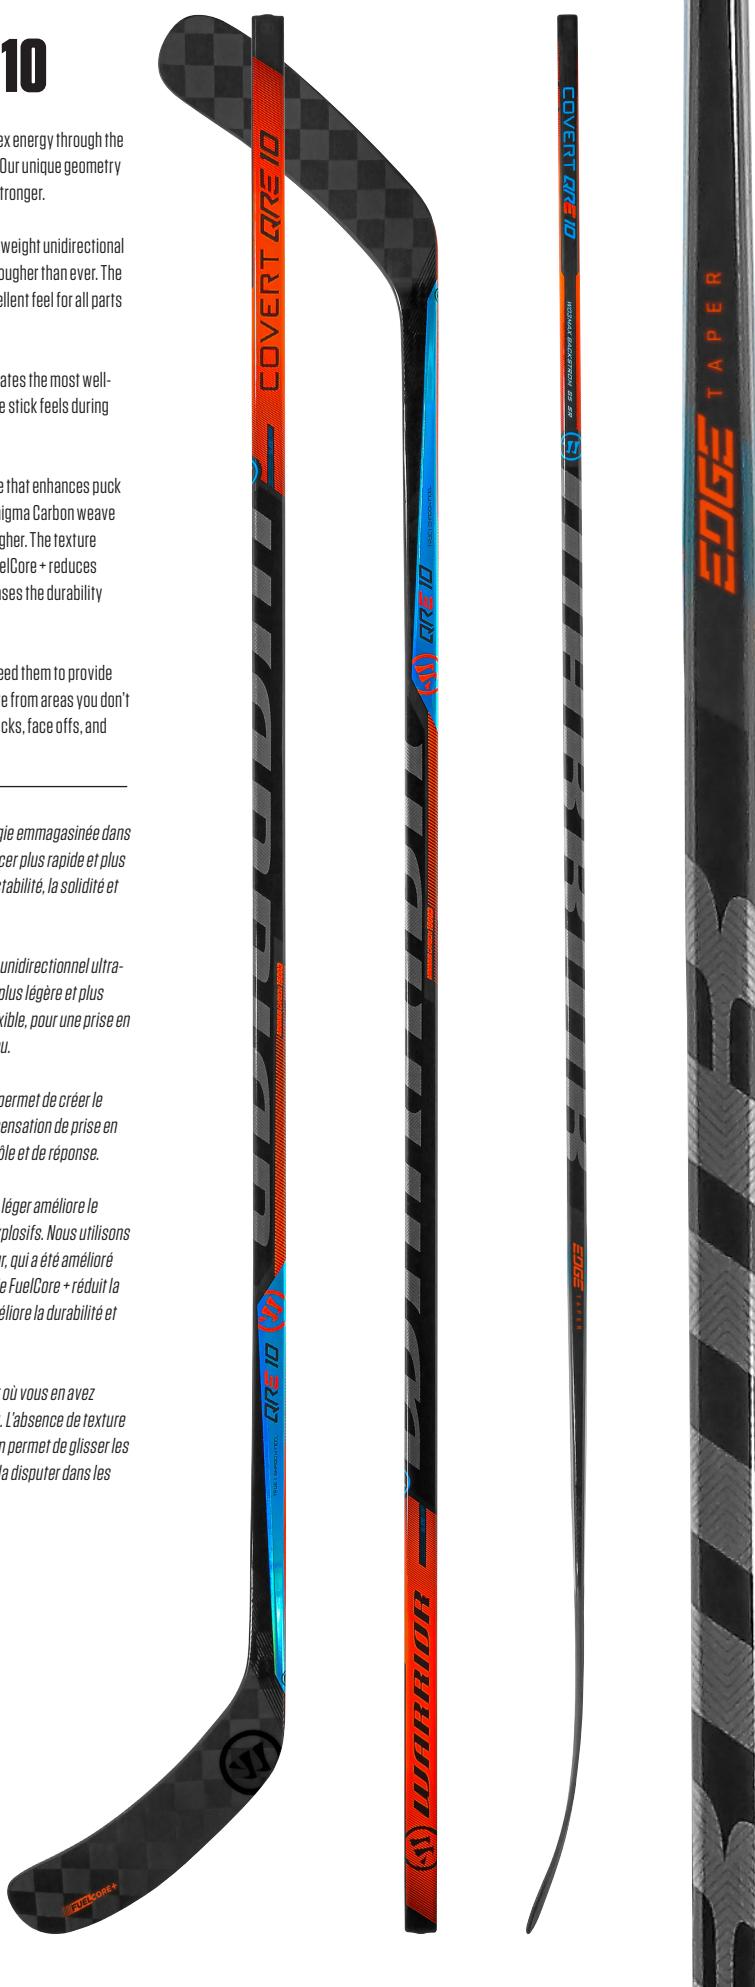

EDGE TAPER | Le profil angulé transfère l'énergie emmagasinée dans la flexion jusqu'au bout du manche pour un lancer plus rapide et plus puissant. Notre géométrie unique améliore la stabilité, la solidité et la réponse.

MINIMUS CARBON 15000 | Design de carbone unidirectionnel ultra-léger, à haute résistance. La tige du QRE 10 est plus légère et plus solide que jamais, faite de matériel léger et flexible, pour une prise en main imbattable dans toutes les facettes du jeu.

SHADOW FEEL | La construction Shadow Feel permet de créer le bâton le mieux balancé qui soit et améliore la sensation de prise en main durant le jeu, vous donnant plus de contrôle et de réponse.

FUELCORE+ | Le cœur de la lame en polymère léger améliore le contrôle de la rondelle et déclenche des tirs explosifs. Nous utilisons maintenant la fibre 25K Enigma autour du cœur, qui a été amélioré pour encore plus de robustesse. La technologie FuelCore+ réduit la dégradation des matériaux dans la lame et améliore la durabilité et la prise en main.

SLIDE GRIP | Des zones texturées uniquement où vous en avez besoin, pour une prise et un contrôle optimaux. L'absence de texture dans les surfaces où vous n'en avez pas besoin permet de glisser les mains rapidement pour harponner la rondelle, la disputer dans les coins et gagner les mises au jeu.

ALPHA LX 30 GLOVES

HYBRID TAPER FIT | Allows the glove to contour to the natural shape of your hand, maximizing mobility and improving protection.

BUTTERSOFT FEEL | Responsive Lycra gussets and our AXI-FLEX THUMB accompanied by the anatomical stretch backhand give the LX 30 gloves a snappy, game ready feel right off the shelf.

PRO CUFF | Extends your range of motion improving puck handling while still protecting your wrists from slashes.

PREMIUM PROTECTION | Best in class foam protection combined with hard plastic shield inserts absorb and protect against high impacts.

PROPALM | A simple mix of durability and feel that enhances control.

AJUSTEMENT HYBRID TAPER | Permet au gant d'épouser la forme naturelle de la main, maximisant la mobilité et améliorant la protection.

SENSATION DOUCE | Les entre-doigts en lycra souple, le pouce AxyFlex et le revers extensible anatomique procurent au gant LX 30 une sensation de familiarité. Ces gants sont prêts pour le jeu dès le premier essai.

POIGNET PRO | Augmente votre amplitude de mouvement et permet un meilleur contrôle de la rondelle, tout en protégeant vos poignets des coups de bâtons.

HAUTE PROTECTION | La mousse protectrice de haute qualité combinée à des inserts protecteurs en plastique robuste permet d'absorber les plus gros impacts.

PAUME PROPALM | La durabilité et les bonnes sensations sont au rendez-vous, pour encore plus de contrôle sur la rondelle.

COVERT QRE 30 GLOVES

COVERT TAPER FIT | The glove contours to the natural shape of your wrist and hand to maximize mobility and protection.

AXYFLEX THUMB | Mobility and dexterity through the hand and fingers is enhanced with the ANYflex Thumb and foam mesh gussets.

BUTTERSOFT FEEL | Responsive mesh gussets, AXYFLEX THUMB and our anatomical stretch backhand give Covert gloves a noticeable snappy, game ready feel right off the shelf.

EXO FOAM | Extremely lightweight blend of first class foam protection combined with shield inserts in key impact zones that absorb big impacts.

SMARTPALM | A simple mix of feel and durability that enhances control.

ALPHA ONE PRO HELMET

TRUE ONE PRO SHELL | A one piece high density plastic shell that provides a superior stiff, strong and lightweight barrier of advanced protection. The True One Pro shell has a distinct geometry designed to balance a slim look and provide good impact diffusion.

OMNISHOCK PROTECTION SYSTEM W/ IMPAX FOAM | A holistic approach to head protection. All shell and liner compositions are integrated by design in a low standoff sleek system. Focused impact zones on the frontal lobe, temples and occipital are reinforced with Impax absorb pods that diffuse energy. Impax pods absorbs both linear and twisting impacts. The True One Pro shell and EPP is the core of safety forming a lightweight barrier that provides protection against catastrophic injury. The Impax pods are designed for specific soft and medium hits.

ADAPT FIT 270 BY BOA | In a fast moving game like hockey helmet fit is paramount to maximize safety and comfort. The Adapt Fit 270 fit system is micro adjusted with a BOA dial pulling the liner to your head. The control and individual fit of the helmet will allow you to wear it safely and comfortably for extended periods.

FLOW COMFORT POLYGIENE LINER AND VENTING | Wearing a helmet should not be irritating. Our removable flow liner pads are treated by Polygiene. They absorb sweat, dry quickly to keep you cool and odor free. Airflow through the shell is optimized by design to keep you from overheating.

COLOR CUSTOMIZATION | In every box use the easy to apply side decals to customize your helmet with a splash of color.

WARRIOR CHALLENGE SHORT SLEEVE

Comfort fit meets strategic, breathable mesh panels in our Aeronamic Short Sleeve Top. Flat-lock seams engineered to help reduce chafing round out this performance layering piece. Plus NB Dry technology helps keep you cool and dry when the competition heats up.

- Material: 88% Polyester, 12% Spandex
- Fitted
- Flatlock seams
- Mesh back panel

Le maillot à manches courtes Aeronamic allie confort et performance, avec des panneaux en tissu ajouré respirant. Les coutures à plat sont conçues pour éviter l'irritation due au frottement. La technologie NB Dry aide à vous garder au frais dans le feu de l'action.

- Tissu: 88% Polyester, 12% Spandex
- Ajusté
- Coutures à plat
- Arrière en maille

R/V2 STICK TECHNOLOGY

A mid-ex goal stick that makes transferring ex energy through the stick easy for maximum shooting power and stability. This gives more power and control for hard tape-to-tape passes and long distance plays to clear the defensive zone.
