New DYNAPWR Drivers

DYNAPWR. Same Name. New Era. Wilson drivers have evolved. Each engineering advancement igniting the next catalyst for change. This season, the legendary dynasty of distance and power enters their most formidable era.

PKR-360

Our AI driven PKR-360 has an increased number of optimizable face and body locations unique to each driver design to create a larger sweet spot and drive higher ball speeds everywhere across the face.

OPEN HOSEL CONSTRUCTION

Removing inefficient material from the hosel infrastructure allows the face to flex more resulting in a larger sweet spot, higher ball speeds and more forgiveness.

POWERFUL SOUND

Precision rib placement throughout the body of the clubhead guarantees a powerful, appealing sound.

OPTIMIZED AERODYNAMIC SHAPING A faster, more streamlined raised skirt and curved crown is designed to reduce drag allowing the head to cut through the air and increase clubhead speed.

TOUR INSPIRED

A deeper, more compact 445cc head provides the ultimate control for the world's best players.

MAXIMUM WORKABILITY

Swappable front (6g) and back (12g) weights allow for customizable launch and spin with added forgiveness. Our 6-way adjustable hosel increases adjustability to optimize face angle and shot shaping ability.

New DYNAPWR LS Driver

The DYNAPWR LS Driver is engineered to eliminate the left side of the golf course. And its compact, tour inspired design delivers maximum clubhead speed, control and adjustability without sacrificing ball speed.

TOUR INSPIRED

With input from our tour staff, the 460cc head provides players forgiveness while still maintaining a compact look at address.

MAXIMUM WORKABILITY

Swappable front (3g) and back (9g) weights allow for customizable launch and spin with added forgiveness. Our 6-way adjustable hosel increases adjustability to optimize face angle and shot shaping ability.

New DYNAPWR Carbon Driver

The DYNAPWR Carbon Driver is engineered for golfers who want the perfect combination of workability and forgiveness.

MAX FORGIVENESS + DRAW-BIASED CONTROL

Our 6-way adjustable hosel increases adjustability to optimize face angle and shot shaping ability.

The flippable (19g) rear weight allows golfers the ability to fine-tune their left to right shot shaping to deliver straighter tee shots.

New DYNAPWR Max Driver

The DYNAPWR Max Driver, featuring an all-titanium design, offers a larger footprint to increase stability on all shots.

New DYNAPWR Fairway Woods

The new DYNAPWR Fairways are optimized with multiple sweet spots, thanks to AI driven PKR-360, and the strength and high ball speeds of forged custom 455 face material.

PKR-360

Our Al driven PKR-360 has an increased number of optimizable face and body locations unique to each fairway design to create a larger sweet spot and drive higher ball speeds everywhere across the face.

FORGED CONSTRUCTION

Custom 455 face material provides strength and high ball speeds while elevating the feel shot after shot.

MAXIMUM WORKABILITY

Front (30g) tungsten weight allows for lower launch and spin with added forgiveness. Our 6-way adjustable hosel increases adjustability to optimize face angle and shot shaping ability.

New DYNAPWR Carbon Fairway Wood

The new DYNAPWR Carbon Fairway Wood better suits players desiring a penetrating ball flight with lower spin.

OPEN HOSEL CONSTRUCTION

Removing inefficient material from the hosel infrastructure allows the face to flex, resulting in a larger sweet spot, higher ball speeds and more forgiveness.

FORGIVENESS & HIGH LAUNCH

MAX

A rear (12g) weight is utilized to promote high, towering ball flights for maximum carry distance.

The Max fairway is the optimal choice for players who seek stability and forgiveness.

PKR-360 Our AI driven PKR-360 has increased number of optimizable face and body locations to create multiple sweet spots and driver higher ball speeds everywhere across the face.

NEW FACE SHAPING

A compact head design paired with an extended low toe area results in a larger hitting surface and provides stability on toe shots, and the confidence to approach greens from a distance.

New DYNAPWR Hybrid

The DYNAPWR Hybrid delivers impressive ball speeds while maintaining the ultimate in stability and forgiveness.

FORGIVENESS + HIGH LAUNCH

A low CG placed evenly across the sole yields higher launch and more forgiveness.

New DYNAPWR Iron Family

DYNAPWR Irons are re-engineered from the inside out so every player can revel in the rush of a pure iron shot.

PKR-CUP

A new Cup Face design combined with our Al generated Variable Face Technology optimizes ball speed, distance and consistent launch windows.

VOC "VELOCITY OPTIMIZATION CHANNEL"

A channel located in the sole and behind the face allows the face to flex for maximum ball speeds.

LOW CENTER OF GRAVITY & HIGH MOI

Toe-biased weight distribution makes Dynapower Forged irons faster, more forgiving and higher launching.

Golf Balls

Golf Ball Family

Wilson's golf balls are designed to empower players of all levels to achieve remarkable results on the course. Our commitment to excellence is reflected in the advanced technology and quality materials embedded in each golf ball.

STAFF MODEL X

Four-piece urethane golf ball that features a firm compression core and delivers higher ball flight, steeper descent angles and a firmer feel.

STAFF MODEL

Four-piece urethane golf ball that that features a medium compression core and delivers a penetrating trajectory and a softer feel.

TRIAD

Soft three-piece urethane golf ball that offers performance benefits to help the aspiring golfer find more fairways, attack more pins and sink more putts.

DUO SOFT

Two-piece surlyn golf ball that delivers extreme distance, straight ball flight and an ultra soft feel.

3SIX2 SEAMLESS URETHANE COVER

Wilson

A thin urethane outer cover provides maximum spin for more stopping power on wedge shots, chips and pitches.

New DUO Soft Family

Introducing the World's Softest Golf Ball with high-visibility color covers.

HIGH-VISIBILITY COVER

Easily track golf shots in flight and locate it quickly in all types of ground cover.

Available in 5 colors, there is an option for everyone.

New

DUO Soft TRK360

The two color design within TRK360 makes for easy, precise, and fast alignment on the green.

TRK360

TRK360 unlocks precise aim toward the target, and doubles as a training aid while practicing putting; the perfect end of end roll indicates a well struck putt, whereas off-center putts wobble when tracking towards the hole.

New 50 Elite Golf Ball

Introducing the ball that created the low-compression distance category.

12-BALL PACK

Ultra Golf Ball

Introducing the original distance ball. With a hyper responsive core and a durable cover, the redesigned Ultra is all about the long.

15-BALL PACK

Tour Velocity Golf Ball

Tour Velocity golf balls feature a hard cover design to generate optimal trajectory and roll off the tee or grass.

15-BALL PACK

Chaos Golf Ball

Introducing the best recreational offering, designed for distance and durability.

24-BALL PACK

Range Balls

Wilson offers four different premium range balls to address different practice facility needs. Each range ball is designed with enhanced durability and long lasting ball stamps for premium presentation on any range style.

PREMIUM PRACTICE

Wilson Premium Practice balls elevate the practice facility experience. It is 20 compression points softer than Premium Range with exceptional wear and scuff resistance.

AVAILABLE IN WHITE

PREMIUM RANGE

Wilson's most popular range ball features bright colors and durable ball stamps designed to withstand wear longer than any other range ball on the market.

AVAILABLE IN WHITE & HIGH VIS YELLOW

LIMITED FLIGHT RANGE

Wilson Limited Flight range balls feature a unique aerodynamic pattern and proprietary construction with 10% shorter ball flight. Ideal for shorter depth range.

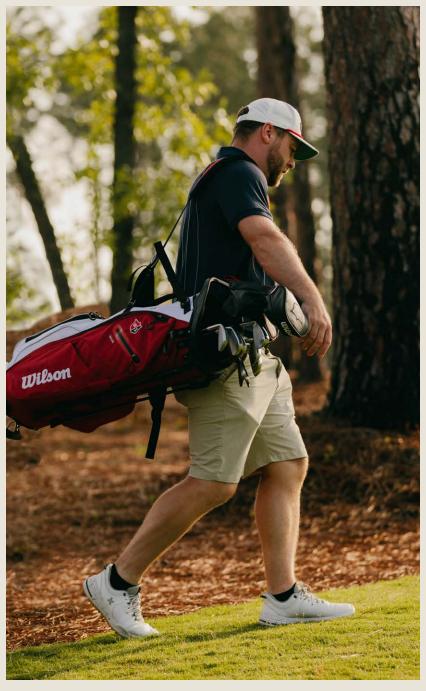

AVAILABLE IN WHITE & HIGH VIS YELLOW

FLOATER RANGE

Wilson Floater Range features low-density construction that allows the ball to float. Ideal for any lake or water driving range.

AVAILABLE IN WHITE

Golf Bags

Golf Bags
