Products that enhance performance, make the game more enjoyable and change the environment in which the game is played. Look for these symbols throughout the catalog and make our products part of your success.

CORRECT FIT

Age specific and gender specific product fit and construction for apparel, footwear and equipment

X-LITE

X-Lite fabrics are constructed with micro denier polyester yarns that give the product the light and super soft feel that players expect for peak performance.

DRI-X

Dri-X is a microfiber (polyester) base fabric that transfers sweat away from the body so that the moisture evaporates faster keeping the player comfortable in training and match conditions.

COOLMAX

COOLMAX fabrications allow sweat to evaporate quickly so the athlete is kept dry. The fibers resist fading, shrinking and wrinkling.

ERGONOM-X

Ergonom -X construction provides optimum comfort and ease of movement for the athlete.

WATERPROOF

Products are manufactured with coated fabrics and seam sealed to keep the athlete dry in extreme playing conditions.

WATERRESISTANT

Both knitted and woven base fabrications used to build apparel that keeps the player dry and comfortable in moderate conditions.

BODY MAPPING

Products engineered with fabrications and cut lines designed to work with the body in motion. Products both regulate temperature and move with the body.

KANGAROO V2

SLEEVE WITH ATTACHED ANKLE GUARD
9060

SRP \$22.00

Our unique Kangaroo sleeve generation II, combines built-in ankle shields with guard-securing sleeve all in one. Most players prefer the feel of a slim slip-in guard and sleeve, but this usually means giving up on ankle protection. Now you can have both safety and comfort.

FEATURES:

- Main body sleeve made from Polyester
- Lycra to help prevent leg cramping
- Padded EVA ankle shield protection with elastic foot strap
- Kangaroo front pouch to keep a barrier between leg and guard

COLORS:

BLACK/GREY

SIZES:

- S. M. L.
- S. Player Height of 4' - 4'7"
- M. Player Height of 4'8" - 5'3"
- L. Player Height of 5'4" and above

KANGAROO

GUARD SLEEVE
9036

SRP \$16.00

Designed to be used with any XARA slip-in guard. The Lycra sleeve has a front Kangaroo pouch for ease of use keeping the guard securely in place and prevent any irritation or rubbing. Can be used with any standard slip-in guard. For those occasions when a sleeve goes missing or simply to have a clean spare pair on hand.

SRP \$34.00

CORRECT FIT

ERGONOM-

Safety on the field is your responsibility! The bones in a child's foot are not fully developed until age 15. For that reason we have a "14 point rounded cleat configuration" on our children's shoes for foot stability and safety. Bladed-cleat shoes made popular by pro soccer players do not give adequate support to a child's foot.

FEATURES:

- Padded foot bed and heel cup for comfort
- Safety stud configuration
- Riveted sole for durability
- Ridged ball strike zones
- Low sheen for ball traction

SIZES:

- 9520: 8 through 13
- 9521: 1 through 6 including half sizes

COLORS:

BLACK/SILVER
NAVY/PINK/WHITE

SAFETYSERIES

SAFETY IS NUMBER 1

A fun, safe soccer season is a basic expectation of every family that commits their child to play soccer, and something all stakeholders should be committed to. The Safety Series products allow parents and organizations to honor that commitment and provide every child with safe, better fitting products

SAFETYSERIES

BALLS

Made to provide a softer touch when kicked

Made to provide a softer feel when kicked

Made to offer more forgiveness when the player is struck

Made to offer a more enjoyable playing experience

SAFETYSTUD CONFIGURATION

SHOES

Conical studs, not blade studs. Blade studs can cause injury.

More studs for healthy support of growing feet

Correct spacing of studs for even support

Visit xarasoccer.com to read more about protecting growing feet, our Safe Stud Configuration and the dangers of blade studs.

CORRECT FIT

GUARDS

Ankle area is properly protected

Correctly-sized ankle support means the shoe is correctly fitted

Correctly-sized ankle support means the face plate is correctly positioned

Face plate properly wraps and protects the leg
