ALL-STAR®

2021 **All-STAR SPORTS** PRODUCT COLLECTION

MFRA

Core to the All-Star culture, MFRA shines through our employees, our products, our processes, and pumps through the veins of baseball catchers around the world. Open Instagram - search #MFRA and marvel at catchers, world wide, grinding it out doing work. ***What is it?*** It's a simple mindset that everything can be improved. MFRA is hustle, grit, and the ability to persevere. It's about having a direction and making a commitment. No bad questions. Find better methods. Work as a TEAM. Roll up your sleeves. Keep in motion. Get in those reps. Block every ball. Stick those pitches. It's not just a motto, it's a call to action. Get stronger.

Move Forward. Rise Above.

MIXLAB | GET WILD

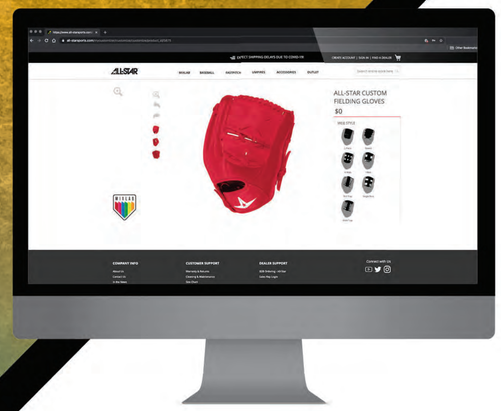

Hey, we get it – we offer a TON of colorways, but they aren't good enough for you...

YOU need something that reflects your team, your personality, your flare. We're here for you, enter the MIXLAB – this is your chance to get wild. We've got the tools to make sure you won't look like anyone else on the field. Black everything out, even the embroidery… or throw on that electric green binding, or make those U-Bars pop with an icy white. Playing for a cause? Add pink accents for cancer awareness. Just get to it and make the sickest set of equipment your mind can think up.

RISING ABOVE, SINCE 1960.

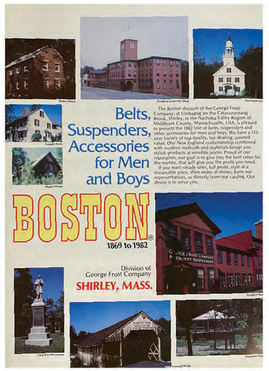

Our test lab is the crucible from which greatness is forged. Always tinkering. We test, break, refine, define, and improve. Forget the box, we think outside the warehouse. In the 1990's we pioneered the first hockey style catchers helmet. All-Star reshaped the face of the game and redefined safety standards. Those who first laughed now follow our lead.

In 2011 we listened and Ice Your Head was born. What do you like? More importantly, what don't you like? Poke, prod, ponder. Empiricism is king, and simulations are doomed to succeed. First certified baseball chest protector in the game. Energy management and the laws of physics. Myth busting. We spent over a year building a robust test system (hardware and software) and verifying it with NOCSAE's. In the process we have sold our software and hardware design to other labs. Imitation is the sincerest form of flattery. Planned precision and happy accidents. Never settle. Constantly question.

MOVE FORWARD RISE ABOVE | 60 YEARS

FROM SUPPORT TO SAFTEY, FOR OVER 60 YEARS.

1950 ▷ ▷ ▷

Men's Athletic Supporters and other Elastic Supports are added to the product line.

1960 ▷ ▷ ▷

The All-Star division is formed as a new branch and is created to sell sporting goods items such as supporters, knee pads, elbow pads and uniform belts.

1965 ▷ ▷ ▷

The All-Star division continues to evolve and expands to manufacturing football pads, football girdles, baseball chest protectors, leg guards and face masks.

THE SCIENCE BEHIND THE GAME.

When you step to the plate or crouch down to catch a 90mph heater, do you think about your equipment that's protecting you in case something goes wrong? No? Good… we don't want you to. You focus on the game and let us focus on all of the design and testing that goes into making the best protective gear in the game. Fortunately, at All-Star we have our own top notch testing facility that makes it that much easier for us to do so.

From the early concept stages where we are testing every material we can get our hands on to quality control testing of production batches, we perform all of this work right in our headquarters in our very own lab. Frankly, as engineers and sports enthusiasts, we love this stuff.

Our lab has all of the same equipment used in the certified testing facilities: An air cannon capable of shooting baseballs or softballs up to 115mph, a drop rig to simulate blunt impacts with a bat or from a fall, and even freezers and ovens to simulate extreme conditions (We've got you covered from Arizona to Alaska). More importantly, we have a staff with over 60 years experience building and testing protective gear.

If there's a way to break something, they've found it and know how to keep it from happening! On top of this, we're always experimenting with better and more realistic testing as evidenced by our computer controlled bat swinger so we can constantly learn more about backswing scenarios and how to better protect catchers and umpires.

At All-Star, we are constantly finding ways to Move Forward Rise Above and our test facility helps us to do that while keeping you focused on being the best in the game.

WHAT IS COMMOTIO CORDIS?

Commotio Cordis is an episode of ventricular fibrillation (VF) induced by a sudden blunt trauma to the chest. A direct blow to the chest from a baseball, hockey puck, or a collision with another player or a stationary object typically causes this condition. For VF to occur, the blow must happen at a precise millisecond of the heart's electrical cycle. This phenomenon has been observed in humans and is well documented in laboratory animals.

When the blow to the chest occurs at this precise moment in the heart's cycle, the heart will "fibrillate." The blow usually causes no identifiable structural injury to the ribs, sternum, or the heart itself. After the impact, the athlete will typically stumble forward for a few seconds, which is followed by unconsciousness, no breathing, and no pulse.

Who is at risk of Commotio Cordis?

The data on recorded events for Commotio Cordis shows that adolescent males are at the highest risk. In the national registry for Commotio Cordis, the mean age for those suffering from this phenomenon is 15 years. Additionally, the data show that baseball has the highest number of recorded cases of Commotio Cordis for organized sports (although there are also events in lacrosse, hockey, football, and other sports). But why? It is believed that males are at a higher risk than females due to the composition of the chest wall during the early teen years and, coincidentally, the speed typically seen for a baseball during game play in the early teen years corresponds to the amount of force needed to cause an event. Medical researchers have concluded that a baseball (or lacrosse ball) traveling at approximately 40 miles per hour generates an amount of force on impact with the chest that is most likely to cause Commotio Cordis. This alignment of factors helps to explain why baseball sees such a large number of cases. It is important to It is important to note that while baseball players are at risk the documented events show that very few catchers have suffered from Commotio Cordis. Pitchers, batters, fielders, and base runners have all experienced documented cases of Commotio Cordis from batted or thrown balls.

Can Commotio Cordis be treated?

At one point in time, survival rates from commotio cordis were extremely low due to lack of awareness about the condition and poor availability of AED's (Automated External Defibrillator). With better education from organizations such as the Louis J. Acompora Foundation and better availability of AED's, survival rates have increased significantly. When commotio cordis is suspected after an impact to the chest, it is critical that emergency medical personnel are contacted immediately and the nearest AED is located. For every minute that deployment of an AED is delayed, survival rates decrease by 10%.

What does it mean for a chest protector to be "Certified"?

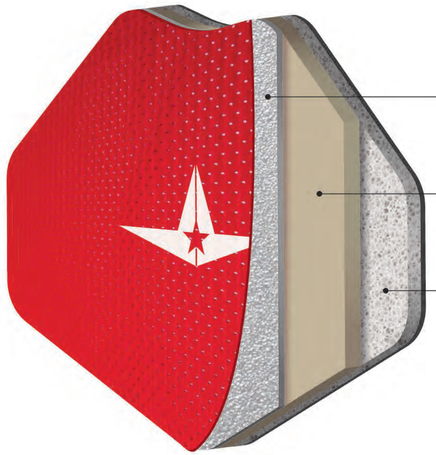

The National Operating Committee on Standards for Athletic Equipment (NOCSAE) first created a test standard for determining whether a chest protector would be effective at reducing the risk of commotio cordis in 2017 based on available medical research. In order to be certified to the NOCSAE standard, a piece of equipment must be independently tested at a certified lab to this standard, and then the Safety Equipment Institute (SEI) certifies that not only the equipment has passed testing, but that the manufacturer has a management and quality system in place to ensure repeatable compliance to the standard over the course of manufacturing. All-Star was the first manufacturer to have chest protectors certified by SEI to the NOCSAE standard and continues to be an industry leader in availability of a full range of sizes and colors of these products. While NOCSAE has created this test for the effectiveness of chest protectors in reducing the risk of commotio cordis that is being broadly applied to catcher's chest protectors, this standard can also be applied to protectors for all players and All-Star was the first company to have a fielder's protector certified to the NOCSAE standard.

Is my child required to wear a certified chest protector?

At this time, the only known requirement for use of certified chest protectors is in US high school play for schools governed by the National Federation of High Schools (NFHS). If your school plays under NFHS rules, any baseball player who catches will be required to wear a chest protector certified to the NOCSAE standard effective January 1, 2020. Additionally, the National Collegiate Athletic Association (NCAA) has announced that all baseball catchers in all divisions (I, II, and III) will have to wear a chest protector certified to the NOCSAE standard effective January 1, 2021.

Beyond those listed above, there are no other known leagues that have plans in place to require certified chest protectors. We continue to monitor other leagues for announcements and will include them here when they occur.

CERTIFIED PROTECTION

FLAT FRONT

Outer cushion is designed flat to deaden the ball, dramatically decreasing deflection, and guaranteeing certainty in your performance.

CERTIFIED PROTECTION

Certified by SEI to meet NOCSAE Standards, All-Star® CC chest protectors have our top secret inner-shield developed to keep you playing safe. *(U.S. Patent Nos. D868,383 & D868,384)*

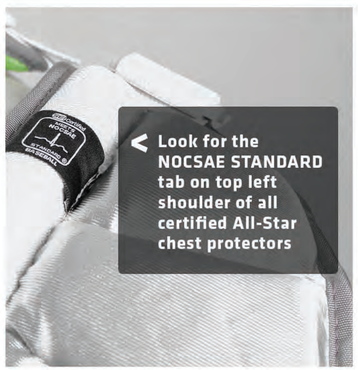

PEAK COMFORT

The shape and size of our advanced protection plate means you still have a full range of motion when throwing and catching - nothing in your way, time to rise above!

Every baseball chest protector in our 2021 line equipped with full CC protection and is SEI certified to meet the NOCSAE standard.

ALL-STAR®

Tools of ignorance they say. Not on our watch. We have the most skilled minds in the industry making sure you have the most intelligent gear in the game. Precision is our passion and pros choose All-Star® not out of ignorance, but experience. When you experience the precision of the legendary CM3000 in your hand, our patented LINQ™ system on your knee, or the care-free fit of our DeltaFlex™ Harness you experience what the pros wear.

We know when you're behind the plate grinding away at the game, the game grinds away at you. Catching ain't easy - thumb jams, foul ball mask impacts, wrist and forearm blocks, back swings, home plate collisions… you name it, this position hurts. Oh and the squatting… so much squatting. And yet with all these distractions you get out there, you champion the field, and lead the team. Since 1960 we've been grinding away too, pioneering the protective equipment, from T-Ball to Pro-Ball, that keep you in the game.

We might not be the first brand you try, but as your skills move forward and your backstop journey rises above, All-Star is here to make sure you're protected in intelligence. Choose your tools."

Product Meets NOCSAE Catcher's Helmet Standard

MVP4000

The MVP4000 has all the same features as the MVP2500, but uses a polycarbonate shell and additional vinyl nitrile padding in critical areas to absorb bigger impacts. We test the MVP4000 up to and beyond 100mph for maximum safety and this mask is chosen by more professional catchers than any other hockey-style helmet.

Constructed with our I-BAR VISION™ steel cage, extremely durable polycarbonate shell, breathable 3D mesh padding liner, a backplate designed to keep the snaps on, and an extra band of shock absorbing vinyl nitrile in the forehead.

Product Meets NOCSAE Catcher's Helmet Standard

MVP2500

Designed for the serious high school player up through the pros, the MVP2500 features a fast-drying, removable, and washable liner, an I-BAR VISION steel cage, a high impact resistance ABS plastic shell, and a backplate with strap retention bridges to keep them secure. All MVP helmets are designed for maximum safety and tested well beyond the required standards.

FM4000MAG

STYLE NO.	PAD STYLE	COLOR
FM4000MAG	LUC	BK, NA, RO, SC, DG, GPH, M.BK, M.BK/GPH

Constructed of injection molded magnesium, the FM4000MAG is the next evolution in catcher's masks. Magnesium is the perfect material for a mask with low density for extremely light weight (16.8 oz), high vibration damping properties, and very high durability and safety. The bars are a bit fatter than our other masks, but have the same flattened profile and openings for outstanding visibility.

LUC PADDING

BK NA RO SC MBK

FM4000 HOLLOW STEEL

STYLE NO.	PAD STYLE	COLOR
FM4000	LUC	BK, NA, RO, SC, M.BK

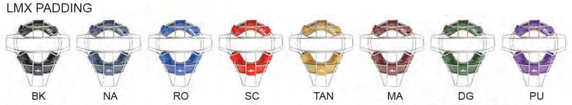

The FM4000's design is inspired by the MVP2500 & MVP4000 cages, which are known for offering great vision and deflective properties. The curved forehead bar allows more padding to come into contact with the catcher's skull cap... making the mask more stable on a catcher's head, helping absorb more impact. Built with a lightweight hollow steel, this mask weighs in at just 17 ounces.

TITANIUM (TI): All-Star's titanium cages are extremely lightweight and durable, forged from a unique titanium alloy blend, proven to be much stronger than pure titanium.

ADULT SYSTEM7 AXIS™
CHEST PROTECTOR

U.S. Patent Nos. D868,383 & D868,384

STYLE NO.	SIZE	AGE
CPCC40PRO	16.5"	ADULT

The SYSTEM7 AXIS™ CC chest protector combines all the great features as the CP40PRO, but is equipped with the construction needed to pass the NOCSAE chest protector standard. And you'll still love the wedged abs for blocking, internal and moldable PE protective plates for protection and fit, and the same outer profile. This chest protector will feel just like the classic with a few major improvements.

- Diamond Vents line the back for even more weight reduction and breathability
- Stainless steel matte black hardware
- Thinner and more form fitting DeltaFlex harness
- Improved break points which present a flatter surface for blocking, improving control

LINQ™ HINGE SYSTEM

ADULT SYSTEM7 AXIS™
LEG GUARDS WITH LINQ™

ADULT SYSTEM SEVEN™ CHEST PROTECTOR

STYLE NO.	AGE	COLOR
CPCC1618S7X	16.5 INCHES	BK, NA, RO, SC, MA, DG, PU, SV

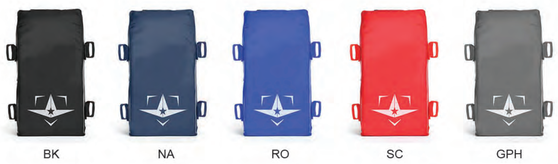

The S7™chest protector is the only protector that has wedge shaped abs, which help knock a ball straight down when blocking. Designed to be light and thin, this chest protector has the absolute best fit and breathability compared to other chest protectors on the market. Players say it feels just like wearing a T-Shirt! Internal moldable PE protective plates are inserted into the throat, collarbone, and sternum to keep those sensitive areas well protected. The longer you wear it, the more it will conform to a player's body. DeltaFlex™ Harness allows for maximum adjustability and comfort, fitting a wide range of body types. WEIGHT: 22.4 oz

CLASSIC PRO™ LEG GUARDS

STYLE NO.	SIZE		COLOR
LG30WPRO	16.5 INCHES	MOST REQUESTED SIZE	BK, NA, RO, SC, MA, DG, PU, SV
LG30SPRO	15.5 INCHES		BK, NA, RO, SC, MA, DG, PU, SV

Super lightweight, breathable, and durable, these leg guards are designed to fit great, take abuse, and be super comfortable. Large perforated padding and vented shins help the player's legs breathe. The DeltaFlex™ harness pre-crosses the straps to keep the back of knee free and prevent leg guards from shifting. Adjustable D3O® knee pad and ergonomic shin pads help keep knees healthy and eliminate bruising. The full wrap around shins and triple knee design cover all the gaps preventing any foul tips or spikes from making direct contact.

Simply put, these are the best leg guards ever developed. Inspired from motocross leg guards, the LINQ™ pivoting hinge allows a catcher to strap these on and completely forget about them while blocking, throwing, and running.

- LINQ™ hinge system for the best mobility
- Single top strap remains behind thigh without dropping behind back of the knee.
- Reinforced front double knee protector straps for added durability for indoor workouts
- Wider and smoother knee for better pivoting and sliding
- Repositionable center knee pad with D3O® padding.
- Diamond Vents line the back for even more weight reduction and breathability
- Stainless steel matte black hardware

CERTIFIED YOUTH CHEST GUARD

STYLE NO.	SIZES
PCC2	ONE SIZE FITS MOST

As the first manufacturer in the baseball industry to have catcher's chest protectors certified to the NOCSAE standard for protection against commotio cordis, we understand the importance of this protection and also know that all players on the field are at risk. Pitchers, batters, baserunners, and fielders can all be struck with batted or thrown balls and be at risk for this rare, but serious condition. The All-Star Fielder's Chest Protector is certified by SEI to meet the NOCSAE standard and will offer protection to all players.

Youth, one size fits most. Shoulder straps are adjustable with long hook and loop tabs and chest strap has strap length and attachment adjustments to fit a wide range of sizes. Low profile design easily fits under uniform and soft, comfortable backing can be worn directly against the chest.

FASTPITCH

From day one, we centered women in this design process, from behind the scenes to between the lines. We began by asking women what they want: if you could design your ideal kit, what would it look and feel like? With each iteration, the feedback from these women was invaluable and we're beyond excited to debut the finished product.

The design of the leg guards is inspired by a revolutionary piece of technology that we introduced in our men's line: the LINQ™Hinge System. Using the Hinge as our focal point, we built a leg guard with protective pieces fit for a woman's leg, including straps that were comfortable and shortened. Ingenuity led us to stitch the middle two straps together to create a cross that rests on her upper calf and prevents bunching behind the knee.

We set out to design a chest protector that would stay in place regardless of her movements. We knew the solution lay in creating a unique shape that conforms to the curves of a woman's body. We tweaked breakpoints, harness design, and overall shape until we landed on a winning combination. From the first time she slips it over her head to the final out of the game, these features allow the chest protector to move with her seamlessly and provide protection from shoulder to hip.

Rounding out this elite women's kit is our popular MVP Series hockey style helmet, which has set the standard for comfort, durability, and protection for many years.

We obsessed over details. Each decision was intentional. And it has all led to this: a catcher's gear line designed for women who demand every advantage out on the field. All-Star is proud to introduce AFx!

AFx by ALL-STAR

The X-Factor is here. AFx by All-Star is a game changer. Protective and comfortable yet fitted and streamlined, it is all about maximizing performance with All-Star's new elite line designed for women. This new line packs a powerful punch of upgrades and new features. Seen in a women's line for the first time, the AFx Leg Guards incorporate All-Star's patented LINQ™ technology. The unique shape of the AFx Chest Protector delivers a tailored experience for a female catcher because it was designed exclusively for her. Rounding out this trio of protective equipment is All-Star's popular MVP Series helmet. Every detail is thoughtful, every feature is intentional, and this AFx line is the perfect match for elite fastpitch catchers who demand every advantage.

Tired of re-adjusting and tightening leg guards mid-inning? Seen in a woman's line for the first time, the AFx leg guards incorporate All-Star's patented LINQ™Hinge System.

Additional features include:

- The LINQ™pivoting hinge maximizes mobility and prevents the need to adjust after any squat, block and throw
- Leg guard straps are stitched to cross and rest on a player's upper calf to prevent bunching behind the knee
- Thick neoprene top strap provides comfort and aids in keeping the leg guard in place

AF-Elite®

AF-ELITE FASTPITCH SERIES // CATCHER

STYLE NO.	HAND	SIZE	COLOR
CMW3001-B	RHT/LHT	33.5"	BLACK / WHITE
CMW3001	RHT/LHT	33.5"	SADDLE / CREAM

This AF-Elite Fastpitch Series catcher's mitt is designed for advanced fastpitch catchers playing at an elite travel ball through college level. Its unique single hinge design allows the mitt to close naturally while maintaining a wide heel. For the player, the single hinge design increases the structure around the thumb, thus potentially minimizing impact on the thumb. Constructed with Japanese-tanned steer hide, this mitt will be stiff out of the box, but once broken in, it will maintain its shape and last for many seasons to come.

AF FASTPITCH SERIES // CATCHER

STYLE NO.	HAND	SIZE	COLOR
CMW1011	RHT/LHT	31.5"	SADDLE / CREAM

This AF Fastpitch Series catcher's mitt is designed for beginner fastpitch catchers playing at a recreational level. This mitt is 31.5 inches, which makes it perfect for a young catcher who is just starting out. Constructed with a combination of cowhide and pigskin, this mitt is very soft out of the box allowing for a fast break-in time. The closed back and Velcro strap gives players plenty of flexibility in creating a custom and secure fit.

AF FASTPITCH SERIES // CATCHER

STYLE NO.	HAND	SIZE	COLOR
CMW2511	RHT/LHT	33.5"	SADDLE / CREAM

This AF Fastpitch Series catcher's mitt is designed for intermediate fastpitch catchers playing at a competitive level. Constructed with full-grain cowhide, this mitt is relatively soft out of the box allowing for a fast break-in time. The closed back and Velcro strap gives players plenty of flexibility in creating a custom and secure fit.

AF FASTPITCH SERIES // FOCUS FRAMER

STYLE NO.	HAND	SIZE	COLOR
CMW150TM	RHT/LHT	29.5"	BLACK / SILVER

In modifying the pattern of the baseball version to accommodate a softball, this new Fastpitch Focus Framer is now truly sport-specific. With an undersized pocket, the Fastpitch Focus Framer is intended to increase concentration during a variety of catcher-specific drills. This training mitt is a must-have for coaches and catchers who are focused on refining their craft.

AF-Elite

Designed for the competitive fastpitch player, AF-Elite Fastpitch Series fielding gloves bring a premium-level of materials, patterns, and feel to all positions.

Additional features include:

- Constructed with full-grain steer hide for maximum durability and performance
- Innovative 3 FING3R™ design combines finger stalls of index and pinky fingers, providing more control of the pocket area
- An open-back with pull strings allows for precise adjustability and a truly custom fit

#MFRA

Pro-Elite® CM3000

If it ain't broke, don't fix it. That's what we hear from the pros. The exceptional leather and proven pattern make our Pro-Elite® mitts the choice of serious catchers. Our players remain loyal to our mitts because they choose the tools of excellence.

Our tan leather is more supple than our black leather. It forms a great pocket and has a loud pop that pitchers love. The black leather on the back provides stability throughout the season.

Our solid black mitts have increased in popularity recently. The professional #focusteam members tell us that pitchers are throwing harder each year.

There's been a big shift from our 33.5" mitt to our 34" size. Again, we hear from our #focusteam that pitchers are not only throwing harder and faster but they have more movement. The small increase in size provides a little margin for error and perhaps some peace of mind.

PRO-ELITE® // BLACK & TAN

STYLE NO.	SIZE	COLOR
CM3000BT	35"	BLACK & TAN, PRO-ELITE™
CM3000SBT	33.5"	BLACK & TAN, PRO-ELITE™ / THIS IS THE MOST POPULAR SIZE
CM3000XSBT	32"	BLACK & TAN, PRO-ELITE™

Exclusive Japanese tanned steer hide allows for fast break in and extended life. Only the finest materials and hand craftsmanship are used to make these exceptional mitts. The soft tan leather pocket allows for great feel and gives the ball that extra POP which pitchers love to hear. The black leather backing is stiffer, and gives the mitt the right amount of support and increases its life.

PRO-ELITE® // SOLID BLACK

STYLE NO.	SIZE	COLOR
CM3000BK	35"	SOLID BLACK, PRO-ELITE™
CM3000SBK	33.5"	SOLID BLACK, PRO-ELITE™ / THIS IS THE MOST POPULAR SIZE

These solid black mitts are perfect for a player looking for a stiffer glove. Compared to the original black & tan CM3000 series, this glove features the stiffer black leather on both the inside and outside of the glove.

PRO-ELITE® // SOLID BLACK

STYLE NO.	SIZE	COLOR
CM3000MBK	34"	SOLID BLACK, PRO-ELITE™ / **AS USED BY MARTIN MALDONADO**

In 2011 Martin Maldonado started his professional career using the CM3000XSBK, our 32" mitt. No room for error with this small and precise mitt. Soon, Maldonado switched to our most popular 33.5" size. He and several other All-Star Focus Team players asked for little more room to receive the ball with confidence because Pitchers are throwing faster and with more movement. In the 2017 season Maldonado used a custom 34" mitt and won the Rawlings Gold Glove Award®. That year Maldonado sharpied 100% on the back of his web. It was his reminder to give 100% of the pitches his 100% attention and focus.

PRO-ELITE® TRAVEL BALL // BLACK & TAN

STYLE NO.	SIZE	COLOR
CM3000BTJR	31.5"	BLACK & TAN, PRO-ELITE™ JR.

With youth baseball becoming increasingly more skilled and competitive the need for properly sized, high-quality equipment has grown. As a result, the game's best catcher's mitt offering, All-Star's CM3000, is adding a true junior size. This 31.5" Pro-Elite™ model combines all the benefits of the larger sizes in a more appropriate fit for hard core youth players. Exclusive Japanese tanned steer hide delivers a fast, custom break-in with professional level durability, all wrapped up in the iconic black & tan colorway

PRO ELITE® FIELDING GLOVES

A natural addition to baseball's most preferred line of catcher's mitts, Pro-Elite® fielding gloves provide premium level materials, patterns, and feel for all positions. Exclusive Japanese tanned steer hide delivers a fast, custom break-in with professional level durability and performance. The world-class, Pittard's leather palm lining delivers a buttery soft feel making the glove feel like a natural extension of the hand.

CM1200BT-FR	RIGHT	ADULT	31.5 INCHES

The PRO-COMP™ mitts offer many features found in our elite level gloves. Select premium tanned cowhide leather and US grade rawhide lacing make this a mitt loaded with value for the price. Special contrasting index finger padding and our popular black and tan color combination add style. Pro formed pocket, profiled toe and Flex Action crease make this a top value mitt.

ADULT COMP™ MITTS

STYLE NO.	GLOVE HAND	AGE
CM3031	RHT /LHT	33.5 INCHES

For the beginner or recreational player, adult sized mitt offers many features found in our elite level gloves. Pre softened leather on the inside of the mitt allows for instant break-in and the black leather backing provides more support to the mitt. Pro formed pocket, profiled toe, and Flex Action crease make this a fantastic mitt.

YOUTH COMP™ MITTS

STYLE NO.	GLOVE HAND	AGE
CM1011	RHT /LHT	31.5 INCHES

The CM1011 is designed as an entry level catcher's mitt but mimics the look of our high end youth and adult mitts. It features our classic black and tan leather look and uses a proven stitching pattern. Mitt includes Velcro closure, Flex Action crease, and profiled toe. 31.5 inch pattern only.

YG-2 YG-1

PRO LACE ON WRIST GUARD

STYLE NO.	GLOVE HAND
YG-1	LARGE / 4.5 INCHES
YG-2	SMALL / 3.5 INCHES

Ideal for catchers or position players seeking extra wrist protection. This wrist guard laces directly into a glove with either the mitt's original lace or with the extra lace included. Once securely attached to the glove, the wrist guard uses a velcro strap to secure to a player's wrist.

TRAINING GLOVES / MITTS

THE ANVIL FIELDING GLOVE

STYLE NO.	HAND	SIZE
FG3500ITM	RHT	11.5"

The All-Star Anvil fielding glove is a multi-purpose trainer that uses added weight to improve fielding mechanics. The glove uses a standard 11.5" infield pattern but features an additional 1 lb. of weight.

THE ANVIL CATCHING MITT

STYLE NO.	HAND	SIZE
CM3500TM	RHT	33.5"

The All-Star Anvil Catcher's Mitt is a multi-purpose trainer that uses added weight to improve receiving and transfer skills. Starting with the game's most popular 33.5" pattern, over 2 lbs. of weight is evenly added to the thumb and pinky pads. This version of "weight training" helps strengthen those, hard-to-get-to small muscles that help with receiving pitches quietly and speeding up transfer times.

THE FOCUS FRAMER

STYLE NO.	HAND	SIZE
CM150TM	RHT	29 INCHES

The Focus Framer is all about velocity. This mitt works similar skill sets as The Pocket, but is intended for faster ball speeds. It's undersized build combined with the faster velocity require some sharp focus.

THE POCKET

STYLE NO.	HAND	SIZE
CM100TM	RHT	27 INCHES

A favorite of many coaches and athletes, this tiny 27 inch mitt offers very little other than a pocket and a guaranteed way to increase your catching skills. Great for developing fast hands, catching in the correct location, blocking, and improving ball transfer speeds.

THE DONUT

STYLE NO.	HAND	SIZE
CM1000TM	RHT	33.5 INCH

The absolute best mitt for working on quick transfer speeds. This vintage style catching mitt modernized with the All-Star® black/tan leather is a tool recommended by catchers, coaches, and teams for developing the fastest transfer speeds. When received into the pocket correctly, high speed balls can be caught when transfered to throwing hand. Perfect for working on general receiving skills too. Balls which hit the pocket drop straight to the floor while balls missed rebound away.

THE EQUALIZER

STYLE NO.	HAND	SIZE
CM3000TM	RHT	35 INCH

A full 35 inch professional grade mitt without a web! This training mitt is designed to force catchers to catch in the pocket and not the web. Unlike the other training gloves, this mitt can be used to catch live bull pens.

THE PICK

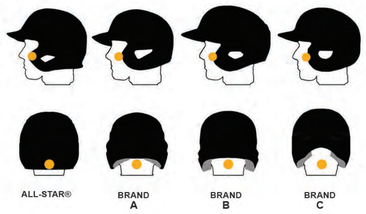

STYLE NO.	HAND	SIZE
FG100TM	RHT	9.5 INCHES
FG100TM-FR	LHT	9.5 INCHES

Modeled after the CM100TM, the FG100TM fielder's training glove is an undersized 9.5 inch glove designed to help develop fast hands and improve coordination for fielders. Mitt was designed and developed after feedback received from catchers that their fielding teammates were stealing their CM100TMs!

COMPLETE COVERAGE

On all System Seven™ batting helmets, the shell drops lower in the back for protection and for a more secure fit. The BH3500, BH3000, & BH3010 helmets feel extremely stable when running, especially when using a faceguard.

Orange dots signify ball impacts. All-Star® System Seven™ batting helmets provide the most coverage compared to today's popular batting helmets.

BH3500

Being a sized helmet, the System Seven™ BH3500 is great for players looking for a personalized fit. These batting helmets are recommended for intermediate travel teams through college level play.

Dual density foam liner and durable fabric wrapped ears prolong the life of the helmet. Liner is treated with the AEGIS Microbe Shield™.

BH3000 / BH3010

Designed for protection, strength, and comfort, the System Seven™ adult BH3000 and youth BH3010 one size fits all batting helmets are recommended for youth through college level play. This is the best fitting helmet on the market. The high impact resistant ABS shell is designed for maximum coverage in critical areas (the back of the neck and the cheek area). The interior, whether in the one-size (BH3010 youth and BH3000 adult) or sized (BH3500 adult) models, uses Ultracool lined foams to stay cool and dry even on the hottest days. Large vents around the helmet also help you stay cool and are strategically placed for maximum shell strength.

All System Seven helmets come with hardware for facemasks and chin straps pre-attached for convenience, and are available in a large number of gloss or matte colors to cover every team.

FM4000MAG-UMP-AD	SILVER	DEERSKIN
FM4000MAG-MBK-UMP-AD	MATTE BLACK	DEERSKIN

Constructed of injection molded magnesium, the FM4000MAG is the next evolution in umpire masks. Magnesium is the perfect material for an extremely light weight mask (16.8 oz), high vibration damping properties, and very high durability and safety. The bars are a bit more bladed than our I-Bar Vision™ steel masks for outstanding strength and visibility. Over 16% of professional umpires choose All-Star magnesium.

UMPIRE SKULL CAP

STYLE NO.	COLOR	SIZE	HAT SIZE	CIRCUMFRERENCE
SC900UMP	SAND MATTE BLACK	SML	6 3/4 - 7	21 1/8 - 21 7/8
SC900UMP	SAND MATTE BLACK	MED	7 – 7 1/8	21 7/8 - 22 1/4
SC900UMP	SAND MATTE BLACK	LGE	7 1/4 - 7 3/8	22 5/8 - 23
SC900UMP	SAND MATTE BLACK	XLG	7 1/2 – 7 5/8	23 1/2 - 23 7/8

Emphasis on launch angle and winding up for home runs mean one thing… more collisions with bats. The Cobalt™ Skuly is the first hard shell skull cap designed for umpires. The visor is shortened just like a plate cap to avoid interference with the mask. Tough and durable polycarbonate shell coated in a textured Sand Matte finish to grip harness. Augmented padding in key zones along sides, rear, and top. Removable padding system is machine washable and utilizes 3D sandwich mesh fabric for breathability and moisture wicking.

TRADITIONAL HALLOW STEEL SYSTEM SEVEN™

STYLE NO.	COLOR	PAD STYLE
FM4000-UMP	BK, MBK	LUC

Cage designed for great vision and deflective properties. The curved forehead bar allows more padding to rest on the head which makes the mask more stable and helps absorb more impact. Built with a lightweight hollow steel, this mask weighs in at just 17 ounces.

TRADITIONAL TITANIUM

STYLE NO.	COLOR	PAD STYLE
FM25TI:UMP	BK	LUC OR LMX

Forged with a super strong titanium alloy, the FM25TI cage is lightweight and durable. Weighing in at just 19oz, All-Star's TI cage is also proven to be more durable than pure Titanium.

TRADITIONAL LUC

STYLE NO.	COLOR	PAD STYLE
FM25UMP:LUC	BK	LUC, Moisture wicking

Lightweight hollow steel cage with LUC (moisturewicking) padding. This classic hollow steel cage is timeless and has a proven track record for its durablility and protection. The FM25LUC weighs in at 20 oz.

TRADITIONAL LMX

STYLE NO.	COLOR	PAD STYLE
FM25UMP:LMX	BK	LMX, Leather Interior

STYLE NO.	COLOR	CAGE MATERIAL
MVP4000	BK	SOLID STEEL

The System Seven™ MVP4000 Series is suggested for anyone who experiences ball speeds around 100MPH. Used and recommended by more professional athletes than any other brand. The MVP4000 features an extremely durable polycarbonate shell, breathable 3D mesh padding liner, a backplate designed to keep the snaps on, and an extra band of shock absorbing vinyl nitrile in the forehead.

- SIZE: Adult - Fits head sizes 7 - 7 1/2
- WEIGHT: 41.9 oz
- CLEANING: Machine wash liner. Cold water / mild detergent / air dry
- Steel Cage / Polycarbonate Shell / Vinyl Nitrile Padding For Big Impacts
- Snaps on the backplate designed to stay attached

SYSTEM SEVEN™ HELMETS

SEI CERTIFIED / MEETS NOCSAE STANDARD

STYLE NO.	COLOR	COLORS
MVP2500	BK	SOLID MOLDED WITH STEEL CAGE
MVP2500-M	BK	MATTE PAINTED WITH STEEL CAGE

The helmet features an I-BAR VISION™ steel cage, a high impact resistant ABS plastic shell with increased forehead thickness, a backplate designed to keep the snaps on, and a breathable 3D mesh padding liner. The bars on the cage around the eye openings are flatter for increased range of view and to make the bars stronger. Instead of using a round steel wire, the I-BAR VISION™ cages utilize a flat bar which is comparable to an I-Beam used in building construction.

- SIZE: Adult - Fits head sizes 7 - 7 1/2
- WEIGHT: 45.2 oz
- CLEANING: Machine wash liner. Cold water / mild detergent / air dry
- I-BAR VISION™ Steel Cage / ABS Plastic Shell
- Snaps on the backplate designed to stay attached

New!

HARD SHELL UMPIRE CHEST PROTECTOR

STYLE NO.	SIZE	COLOR
CPU5000	12.5" - without extension	M.BK ONLY

Cobalt™ low profile, contoured hard shell Umpire Chest Protector. 3.7mm thick HDPE pre-curved armor plates with hinges conform to many body shapes. Removable extension adds another 3.5" of seamless protection for taller Officials. Pre-curved shoulders allow CPU to hang on and not slip down the body and provide superior collarbone protection. All armor plates have memory – bend them to form a custom shape. Shoulders guards can move outward by 1/2 inches for larger Officials. Removable shoulder gap cap for an even lower profile fit. Patented central cooling channel with removable and washable chest pads (or swap in a second dry set for long tournament series). The original DeltaFlex™ harness with hook ups located in front for easier on/off. Weight = 2.7 lbs and 3.3 lbs with extension.

PRO UMPIRE LEG GUARDS

STYLE NO.	SIZE	COLOR
LGU5000	15", 17", 19"	BK ONLY

Cobalt™ lightweight, low profile Umpire Leg Guards. Sleek and smooth plastic shells do not snag pants. Minimalist design without sacrificing protection. Cantilever system offers more protection with less bulk. Perforated backing foam provides ventilation throughout. Plastic shells have memory – flex outward for broader fit or curl inward for a tight wrap around feel. Weight per pair = 2 lbs (15") // 2.3 lbs (17") // 2.5 lbs (19").

New!

INTERNAL SHELL UMPIRE CHEST PROTECTOR

STYLE NO.	SIZE	COLOR
CPU26	13"	M.BK ONLY

This is not a soft shell chest protector. Hardened HDPE plates are concealed under fabric for clean low profile look. Form fitting design wraps wide range of body shapes. Moldable plates in collarbone for protection and custom fit. The original DeltaFlex ™ harness. Matte black fabric. Weight = 1.6 lbs.

CATALYST CRYOHELMET™

A 2019 study by New Zealand researchers demonstrated that use of the Cryohelmet after sustaining a concussion reduced an athlete's number and severity of symptoms.

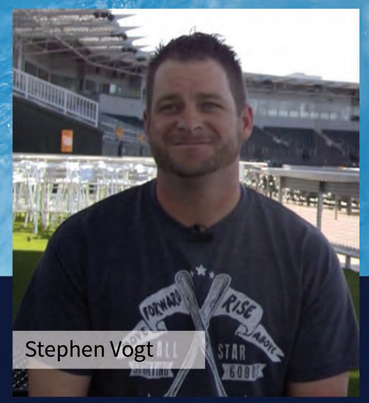

Alex Avila

"Days when I take a foul ball to the mask, I put the Cryohelmet on. And over the past couple of years having used it regularly, it has worked really well. I feel calm when I put it on and a lot of times when I'm done wearing it, there's a bit of clarity. It's a little hard to explain… it's actually almost like you have to try it in order to be able to get out of it what it's going to give you."

Curt Casili

"I definitely noticed a difference and felt better after using the Cryohelmet as opposed to not using the Cryohelmet. I've had concussions where I used the Cryohelmet and where I did not use the Cryohelmet, and it's definitely something I will use in the future if it happens again."

Stephen Vogt

"As someone who takes repeated shots to the head in my profession, I can tell you I noticed a huge difference from using the Cryohelmet. For youth coaches or team moms - have a Cryohelmet readily available. If a player takes a hit to the head, just throw it on them right after the game. It's not going to hurt."

CATALYST™ CRYOHELMET™ 2.0

STYLE NO.	SIZE	HAT SIZE	HEAD CIRCUMFERENCE
CRYO2-XS	PEDIATRIC		Under 21"
CRYO2-Y	ADULT SM (youth)	6 8/8 & 7	Under 21" - 22 1/4"
CRYO2-REG	REGULAR	7 - 7 1/2	22 1/4" - 23 1/4"
CRYO2-XLG	X LARGE	7 1/2 - 7 1/8	23 3/4" -24"

The Cryohelmet is an innovative and convenient tool for applying long-lasting cooling to your head and neck for management of concussion symptoms, migraine relief, and heat management. Freeze in any standard freezer and transport in the included insulated carry bag for use anywhere it's needed. Users overwhelmingly report relief from their migraine or concussion symptoms after 20-30 minutes of use. Studies also show that cooling the head and neck during competitions in hot weather can actually boost performance. Stays cold for over 1 hour in use.

Includes adjustable neoprene hood with pony tail channel, cold packs in modular replaceable sleeves, insulated bag, large cold pack for travel, manual, and retail box. All fabric parts are fully washable. Internationally Patented Design.

Insulated sleeve included

CATALYST™ CRYOSCARF™

STYLE NO.	COLOR	NECK SIZE
CRYO-SCARF	BLACK, SILVER	16.5" & ABOVE
CYRO-SCARF-Y	BLACK ONLY	16" & BELOW

Cool off between innings, during half times, or after workouts to boost performance, endurance, and recovery. Cold packs are reusable, last for hours, and do not leave wet residue. Cryoscarf draws heat out and away resulting in deeper cooling than surface cooling/sensation from evaporation technologies.

Includes neoprene wrap, cold packs, & insulated sleeve

CRYOHELMET™ REPLACEMENT PACKS

STYLE NO.	SIZE	DESCRIPTION
CRYO2-1x11	1 x 11"	For use in youth, regular, and XL sizes
CRYO2-1x10	1 x 10"	For use in XL only
CRYO2-1x7	1 x 7"	For use in youth and regular sizes
CRYO2-1x3	1 x 3"	For use in youth, regular, and XL sizes

INSULATED TRANSPORT BAGS

STYLE NO.	DESCRIPTION
CRYO2-BAG	Insulated CryoHelmet Bag
CRYO1-BAG2	Insulated Carrying Sleeve for CryoScarf™ Or Replacement Sleeves

Keeps CryoHelmet™ and CryoScarf™ frozen for hours on the sideline for immediate use after practices and games.

CRYO HANGING COOLER

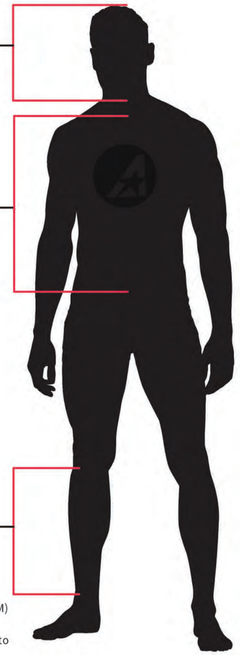

STYLE NO.	COLOR
CRYO-FENCEBAG	SILVER

Portable zipper top, long lasting cooler with built in hook for quick storage on chainlink during game day.

SIZE & FITINFORMATION

MVP HELMET + TRADITIONAL MASK SIZING

For the most accurate sizing, it is recommended to use the players hat size, found by measuring the circumference of the players head, and then using the chart to the right to figure out the recommend model / size.

CHEST PROTECTOR SIZING + FITTING

All-Star® chest protectors are measured from the top of the sternum to the players navel.

Depending on the model, All-Star® chest protectors are available in 9" (M+W) - 13" (W) - 13.5" (M) 14.5" (M+W) - 15.5" (M) and 16.5" (M) lengths. If the player measures in between chest protector lengths it is recommended to select the longer length.

The chest protector should fit high, with the throat guard over the base of the neck.

Because the DeltaFlex™ harness is adjustable in 4 different locations you can dial in a perfect fit.

LEG GUARD SIZING + FITTING

Best done while seated, measure from center of the players knee cap to the top of the players cleats.

Depending on the model, All-Star® leg guards are available in 10.5" (M+W) - 11.5" (W) - 13" (player series) - 13" (W) - 13.5" (M) 14.5" (M+W) - 15.5" (M) - 16.5" (M) and 17.5" (M) lengths. If the player measures in between leg guard sizes it is recommended to select the longer length.

Remember, for the best fit, please adjust both sides of the DeltaFelx™ harness on our Pro Series and System Seven™ leg guards. DeltaFlex™ harness should cradle the back of the calf muscle, lining up centered down the back of the calf.
