PERSISTENCE & PERSEVERANCE...

Welcome to a new year! We have great expectations for 2021 and can't wait to partner with you in our endeavors. As we firmly close the door on 2020, we want to take a moment to share with you what the future holds for Cap America.

We are excited to continue to add new additions to our CA Premium Line. New colors, new fabrics, and new Flexfit® styling are proudly displayed within these pages. We have added a new camo pattern to our stock line as well: MultiCam®, a high tech camo that is both functional and stylish. We have once again expanded color options in many of our top performers. And we have an entire new category of products – face masks – to offer you.

What started as an effort to help our customers secure orders during the COVID-19 crisis has now become our new reality. We have always offered low minimums in our custom overseas programs, but now we have cemented into place our low MOQ of only 72 pieces for our 30 Day Door 2 Door program. This is our top selling custom cap program, now with even more fabric and decoration options available to you in just thirty days after sample approval. We have also lowered minimums in our 21 Day Vietnam Program, one of our quick-turn solutions for custom caps.

You might notice a few changes within our catalog this year, namely, our "USA Made" icon. We have made a tremendous effort to improve our corporate social responsibility. From increasing our product safety testing, to adding and revising labels on all of our products, we are doing everything we can to make sure you, our customers, are as informed about our products as ever. In an effort to be extremely transparent, we have added "of imported yarn" to our USA Made icon. No worries, though – we're still using the same soft, comfortable yarn that we have for years, and our knits are still designed and produced right here in Fredericktown, Missouri.

I'm extremely proud of the team here at Cap America; it is their persistence and perseverance in the face of tumultuous times that has allowed us to continue to offer the traditional services that our customers have grown accustomed to – free virtuals, free spec samples, low minimums, and quick turn-times. We are dedicated to helping you succeed and will do what it takes to make that happen. We are excited for the year ahead and appreciative of your continued support as we move in to 2021 together.

Mark Gammon
President & COO

All the best,

Mark D. Gammon

DEFINING HEADWEAR

Basic terminology used for our cap styles

PROFILE Refers to the crown height of the cap above the visor. There are generally 3 types of cap profiles:

- Low Profile
- Medium/Mid Profile
- High Profile

STRUCTURE A baseball cap can have buckram or stiff fabric behind the front two panels of the crown giving it structure & therefore it is called a **structured hat**. An **unstructured cap** has no additional support behind those front two panels. If you take a cap off your head & set it down on a flat surface, a structured hat will continue to look the same & generally keep its shape. An unstructured cap will collapse slightly without your head in the hat supporting it.

CLOSURE Adjustable baseball caps have closures on the back of the caps that allow you to adjust the size. Types of closures include:

- Adjustable plastic snap tab, sometimes referred to as a snap back
- Fabric strap with two piece hook & loop closure
- Stretchable hook & loop closure
- Fabric strap with antique brass sliding buckle

FLEXFIT® An icon in its own right, Flexfit the One & Only Original® cap has elevated the urban, lifestyle, & sports market with its revolutionary all-around stretch-fit technology & polished style. Available sizes are generally XS, S/M, and L/XL.

STRUCTURED

UNSTRUCTURED

SOFT STRUCTURED

PRODUCTION

Standard delivery for in stock orders with embroidery is 3 working days after sample approval. Rush orders are accepted only if the production schedule allows.

PRE-PRODUCTION PROOFS ON IN STOCK HEADWEAR

Applicable set up charges such as disc or screen charges will be invoiced when pre-production proof is approved. Proofs for orders will be virtual unless a shipping number is provided.

OVER-RUNS/UNDER-RUNS

Every effort is made to ship exact quantities; however, a 5% over or under variance will be considered complete & billable. A \$40.00(A) charge applies to orders requesting an exact quantity & purchase order must indicate as such.

FABRIC COLOR VARIATIONS

Due to color variations of dye lots, exact color matches of material are not guaranteed. In camouflage patterns, variations may occur in the placement of certain areas of the pattern due to random cutting. Certain distressed materials will have shading variations.

IMPRINT COLORS

Color matches are not guaranteed to be exact, whether PMS colors or color swatches. All materials print differently; therefore, there may be a variation of print colors on orders of different materials or colors. When decorating on camouflage, no guarantees can be made that the pattern will not interfere with decoration (i.e. a branch, leaf or bark may fall behind decoration). Cap America is not responsible for fabric bleeding which may occur when imprinting a light color on a dark fabric. It is not recommended to place a white imprint on a red or black cap because the imprint may have a pink or gray hue. Distressed materials in all colors have a tendency to bleed into light colored embroidery threads & prints.
