CHAMPION MADE
PRACTICE WEAR
COLLECTION

1

CHOOSE YOUR TEAM LOOK IN YOUR TEAM COLORS

Bra Top I - C18ITL/TG

Sublimated Braid top applied at the collarbone and set-on around the bottom hem for customization. Back keyhole for ventilation and a feminine detail. Encased elastic at bottom hem for adjustable comfort and support.

Tank I - C180TL/TG

Overlapping sublimated braid straps for customization. Sublimated Braid Straps with binding for a clean finish. Higher neckline for coverage. Binding on armhole and neckline for durability.

Legging I - C182BL/BG

Mid-Rise. Sublimated braid down the side seam for customization. Wide, comfort waistband with thin elastic at waistband edge for extra support. Gusset to enable full range of motion. Flatlock seams to eliminate chaffing.

Select your color for the body of the garment.

2

COLOR

Champion Athleticwear makes every effort to color match across the entire line. However, it is not possible to guarantee perfect color match due to the number of fabrics, textures and dye lots in production.

HOW TO ORDER ULTRAFUSE SUBLIMATED STYLES

1. Choose your Sport & Style
2. Choose your Design Pattern & Colors
3. Choose your Decoration Placements and content. Including Font style and colors

Call 1.877.254.1847 to place your order.

Need a fully custom design? Give us a call and we'll establish your apparel requirements.

STOCK ART

We have thousands of templates available to customize and make unique to you. **NOTE:** Original Vector Art files (.ie or .eps) are required for production of team specific logos or mascots. If you cannot provide the original vector art, an additional fee of \$25 per hour will be charged to create that art.

CUSTOM ART

If you have a specific layout or design in mind, we can create that for you. Complex logos and artwork will incur an additional art charge of \$30. Original Vector Art files (.ie or .eps) are required for production. If you cannot provide the original vector art, additional charges will apply.

Our garments meet the NFHS Rules. However, all custom design choices are subject to customer approvals. Also, it is the customer's responsibility to ensure the design is legal for the league that it is intended for. Champion is not responsible for ensuring designs meet the league or school's specifications.

COLORS:

Scientifically, it is not possible to achieve a perfect color match from one dye lot to another. It is also not possible to achieve a perfect color match from one fabric type to another. Therefore, we will do our best to match the colors in your garments and decoration, but we cannot guarantee a perfect match.

PRODUCTION TIME

- Ships within 5-7 Weeks for Initial Order (from when art and credit have been approved)

* Art for approval will be sent to customer within 7 days after order is received by Champion.

Delays in approving may affect ship date.

** Note: Leadtimes may vary based on order volume, overall demand and capacity during peak periods.

RETURNS/SHORTAGES/CONCERNS:

Custom uniforms may not be returned under any circumstances if delivered properly. Claims for shortages or problems must be reported within 10 working days of merchandise receipt.

ORDER MODIFICATION OR CANCELLATIONS:

No changes can be made and orders cannot be cancelled once art and credit holds have been removed.

GUARANTEE:

The materials and workmanship of our garments are guaranteed when given fair treatment and used under normal conditions. Please refer to the Uniform Care Instructions for proper cleaning and storing of your custom uniforms. Champion will not be responsible for damage due to improper care and maintenance. Failure to follow our specified care instructions will void all guarantees.

To enhance the appearance and extend the life of your uniforms, we recommend that you follow these cleaning and storing procedures:

- Uniforms should always be laundered immediately after wearing. However, if this is not possible, rinse garments and hang individually on rust-proof hangers. (Moisture may cause color migration of acid dyes so we advise separating wet or damp uniforms.)
- Belts and any other contrasting color items should be washed separately from garment.
- It is always advisable to test wash a single uniform according to directions before washing an entire load.
- We recommend presoaking heavily soiled garments in cold water with a protein release agent. Follow the instructions recommended by the presoak manufacturer. Wash garments immediately following the presoak in normal wash cycle.
- Wash and rinse all garments in cold water with mild detergent. Remove promptly after wash cycle to avoid color migration.
- For optimum results, hang garments (especially those with spandex) to dry. If you cannot hang dry, machine dry on the lowest setting. Turn jerseys inside out before machine drying. Remove items from dryer immediately upon completion of cycle. (Excessive heat can cause fabric shrinkage, discoloration, and cracking and peeling of plastisol lettering inks.)
- Make sure uniforms are completely dry before storing. Store in a dry area to prevent mildew. Protect items from sunlight and fluorescent light to prevent yellowing.

DO NOT DRY CLEAN

DO NOT WASH IN HOT WATER

DO NOT USE CHLORINE BLEACH

DO NOT USE FABRIC SOFTENER

DO NOT WASH WHITES AND COLORS TOGETHER

DO NOT OVERLOAD THE WASHING MACHINE

DO NOT MACHINE DRY ON HIGH HEAT

DO NOT LEAVE WET OR DAMP GARMENTS IN YOUR TRAVEL BAG, IN A PILE WITH OTHER CLOTHING OR IN WASHING MACHINE

Color Matching: Scientifically it is not possible to achieve a perfect color match from dye lot to dye lot, therefore we cannot guarantee a perfect match from order to order or fabric to fabric.

DECORATION OPTIONS

Screen Print

Screen Print

The process of printing a design on a product by forcing ink through a mesh screen. Traditionally this type of decoration is used on Tees, Tanks, Hoodies, and Sweatshirts.

Heat Transfer

Heat Transfer

Transfer material that is cut out and applied to a product using a heat press. Heat Transfer is typically used for uniform names, numbers, and graphics. However; due to it's versatility, it can be used to decorate a wide range of products. Heat Transfer includes: Sport Grip, Fashion Film, Premium Glitter, Rhinestones, Neon Dots, and Premium Flex.

Embroidery

Embroidery

Decoration added to the garment through a needle and thread. Embroidery is usually used with left chest or full back decoration, and is a cost-effective way to customize a product.

Twill

Twill

Twill or applique is a process where letters, numbers, or logos are cut from material and then sewn onto a product. An adhesive backing tacks the material in place and the edges are sewn down with a zig-zag or satin stitch using a matching thread color.

UltraFuse
Sublimation

UltraFuse Sublimation

Dye sublimation is a two-step decoration process in which special ink is printed on transfer paper, and then is fed into a heat press along with the fabric where it permanently fuses the dye into the fibers of the fabric.
