# CONCEPT 3000 DISLODGING SAFETY BASE REDUCES THE POTENTIAL FOR SLIDING INJURIES

Top pad is strong enough to support a player standing on the base, but flexes and dislodges from the smooth bottom plate as player slides in. This allows the player standing on the base to be supported by the rigid top pad, while the sliding player can smoothly slide over the plate after the pad dislodges.

# KNOW YOUR **SOFTBALL.**

We manufacture a complete range of softballs to ensure that we have a ball that meets the durability and performance standards required by any league and any budget. Our high performance polyurethane cores are pressure molded to provide maximum durability and adhere to prescribed performance metrics of ASA, USSSA and Little League. Our leather and durahide covers offer the best, longest lasting grip in the field. Our fastpitch softballs feature our raised "High M" seam with the feel that players prefer.

**CHAMPRO® softballs are coded on the center panel to instantly identify the construction of each ball.**

The first letter is always "T" for Tournament, "G" for Game, or "R" for Recreation.

T (Tournament) - Leather cover & polyurethane core, high performance

G (Game) - Durahide cover & polyurethane core, all levels of play

R (Recreation) - Durahide cover & practice core; not recommended for heavy hitting

The second and third letters are either "FP" to indicate fastpitch or "SP" to indicate slowpitch, which also will identify the seam construction.

FP (Fastpitch) - Raised Seams

SP (Slowpitch) - Flat Seams

The two digit number at the end of the name indicates the coefficient of restitution (COR) of the softball.

*Note: USSSA specifications prohibit marking the COR and compression numbers on the ball.*

- No up-charge or minimums for fill-in orders with the same design and graphics. An up-charge of 25% if any changes are requested to the fill-in order.

## ORDER SUBMISSION

- Fill-out the electronic order form or build your uniform online at [ub.champrosports.com](http://ub.champrosports.com) and e-mail it to [juice@champrosports.com](mailto:juice@champrosports.com).

## CUSTOM JUICE SUBMISSION

- No art charge for template designs or numbers.
- Template designs within a sport are interchangeable, but template designs requested in another sport pattern will incur a set-up charge of \$50.
- Unique designs not based off a CHAMPRO template will incur a one-time \$50 set-up charge.
- All colors, decoration, locations and sizing must be specified.
- Any custom orders not submitted with specific direction may be subject to artwork fees.
- Artwork must be submitted in one of the acceptable artwork formats listed below.

## ACCEPTABLE ARTWORK FORMATS

### VECTOR ART

- We accept print-ready vector art files in the following formats: AI, EPS, or PDF. Vector art can be scaled to any size while maintaining quality. **Vector art is always preferred.** Please remove any overprints within your file; these will drop out when printed. If vector art cannot be supplied, files that require digitization will incur a graphic design service charge at the rate of \$50 per hour with a minimum charge of one hour.
- PDF files will be converted to AI; we are not liable for any errors during conversion.

### RASTER ART

- Raster art, otherwise known as bitmap art, is composed of pixels grouped together to make one complete image. When scaled larger, the image will look pixelated. If you must submit a raster image, make sure the resolution is 200 DPI (dots per inch) or larger.

## OUTLINED FONTS

- Outlined fonts are required for all artwork formats. Font selection can vary on different computers, which can cause a desired font to be replaced with a generic one. To preserve your fonts, always outline, embed, or convert them to shapes before submitting artwork. If a specific font is required, the name of the font and the font file (TTF or OTF) must be submitted.

## EMBEDDED IMAGES

- Most programs allow the user to add an image to a file by linking or embedding. Embedded images are stored within the document itself, while linked files are not. Because of this, linked files can vanish when opened from a different computer. Please embed all images to avoid losing them when files are submitted. Any embedded images must be high resolution. If submitting a PSD file, all layers should be flattened.

## UNACCEPTABLE FILE FORMATS

- Microsoft Office, InDesign, Quark, Corel Draw, Publisher, or low-resolution scanned images.

## GRAPHIC DESIGN SERVICES & GENERAL DETAILS

- Our professional graphic design services for custom logos, artwork or logo digitization are charged at the rate of \$50 per hour, with a minimum of one hour. Please contact us for an estimate.**
- CHAMPRO reserves the right to adjust the size of decoration proportionally to garment size.
- CHAMPRO will not be responsible for errors resulting from copy that was received or approved incorrectly.
- Proofs provided electronically should not be used for final color output or image resolution.

## ROSTER & ARTWORK APPROVAL

- CHAMPRO will send an e-mail with order acknowledgement and proof of the order.
- Customer must review the order and proof for accuracy and approve for production.
- All information on the proof and roster will be considered correct after approval is received.
- CHAMPRO will acknowledge receipt of approval and confirm lead times.
- Production and lead time will not begin until a written artwork and roster approval is received by CHAMPRO.
- No changes to an order will be accepted after artwork and roster approval is received; any changes needed will have to be submitted as a new order.

## SHORTAGES/CLAIMS/CANCELLATION

- Any claims or shortages with your order must be reported within 10 working days of receipt of goods.**
- No cancellations or changes are accepted after the order is approved.
- Any cancellation after this time will be subject to 50% charge of the order total.

## COLOR DISCLAIMER

- Scientifically it is not possible to achieve a perfect color match from one JUICE garment to another, or from JUICE garments to CHAMPRO stock garments. Therefore, we cannot guarantee a perfect match from order to order or from one fabric to another. If you have questions about our colors, please contact us for more information. Art submissions with specific Pantone Color call outs will automatically be converted to CMYK. If your job is color sensitive, please contact us for information on color matching services. RGB files will be converted to CMYK; some color shifting will most likely occur. Unless a sample is ordered, CHAMPRO is not responsible for unsatisfactory color results.

## COLOR MATCHING

- We cannot color match gradients. We print digitally in CMYK and use PMS colors as a guide; therefore the colors are not exact. If you have a color sensitive project, we highly recommend that you order a sample.
