FIELDPRO™ MULTI-SPORT NET SYSTEM

Ball stop net system for lacrosse, field hockey, and other field sports. Ensure the safety of athletes, coaches, and spectators. Easy-to-use pulley system raises/lowers net!

See (pages 174-176) for details.

"Body fit" rope to adjust net slack/tension

Robust and long lasting in either white or black

SEAMLESS ONE-PIECE LACROSSE NET

NCAA
COMPLIANT

NFHS
COMPLIANT

The NETX1™ lacrosse net is the most robust and long-lasting net money can buy. Its one-piece design eliminates the most common points of failure on traditional lacrosse nets: the diagonal seams, while providing a modern aesthetic that truly sets it apart.

The UV/weather stabilized "double-needle" nylon twine has a true 7mm thickness (measured across the depth and width of the twine) with a minimum breaking strength of 770 lbs. The combination of high strength twine and lack of diagonal seams means it will outlast every other net on the market.

The included "body fit" rope adjusts the net on the goal to maintain an appropriate amount of slack so balls remain inside the goal without bouncing back out.

- Weather-stabilized 7mm x 1½" sq. knotless nylon with breaking strength of 770 lbs.
- One-piece design eliminates diagonal seams (the most common point of failure)
- Lacing cord included
- 1 Year Limited Warranty

BUY A BETTER CAGE!

(1)

(2)

(3)

(4)

Jaypro's swivel wheel allows for a more precise cage placement!

- (1) The addition of handle wheels controls the cage height over uneven surfaces, which allows for additional leverage to lift and raise the cage. Reduces cage drag and divots while in motion.
 - (2) Includes joint reinforcing clamps for added rigidity
 - (3) Through-bolts and locking nut connections only, no allen screws here!
 - (4) 18"W x 9"D swivel tires can be adjusted to two different heights which allow movement in multiple directions for easy installation and removal on the playing field
- Fully welded design and pre-assembled side frames make the cage strong and rigid for a long life span
 - Net attaches directly to the frame and has reinforced seams and an integrated baffle

BOMBER ALL-STAR

Heavy-duty portable batting cage with swivel side wheels and handles allows for easy transportation or movement on and off the field.

- 2" heavy-wall aluminum tube design
- #42 weather-treated nylon net with rear net baffle
- Thud pad, 18 oz. vinyl skirt, oversized swivel tires with handles, and black ricochet padding on frame w/ dual observation platforms
- Open Inside Dimensions - 12'H x 18'W x 22'D
- Folded Outside Dimensions - 6'H x 20'W x 15'D
- Thud Pad - 4'H x 6'W x 4"D
- 7 Year Limited Warranty

BASEBALL/SOFTBALL TENSIONED BACKSTOP NET SYSTEMS

Safety tensioned backstop netting designed to not only stop the ball, but minimize net deflection. Two basic systems are available.

Tensioned Pole to Pole Backstop Net System

BTPNS Engineered structural poles support tensioned netting with fewer poles.

Tensioned Cable Backstop Net System

BPCNS Pull-back cables attached to building structure or offset pull-back poles, for a cleaner look with reduced obstructions.

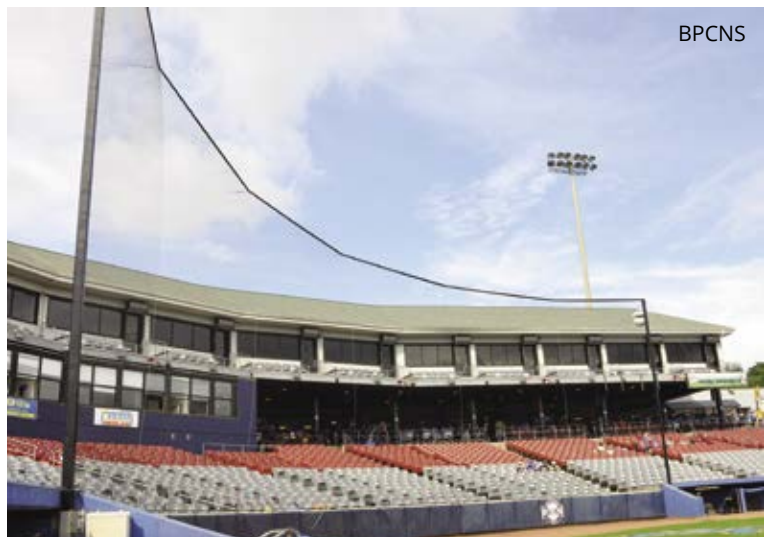

Features:

- Length, height, and configuration as required
- Engineered structural poles with heights up to 40 ft.
- In-ground and surface mount pole installations available
- Systems can be free-standing or incorporated into backstop knee-wall
- Netting Options:
 - #36 knotted nylon, 1¾" black sq. mesh netting
 - 1½" black knotted Dyneema (UHMWPE) sq. mesh netting, for unsurpassed strength and visibility
- Poles are powder coated black over zinc rich primer
- All hardware is galvanized
- 3 Year Limited Warranty

Call 800-243-0533 for more information and design assistance. Call for freight quote.

ULTIMATE ADJUSTABLE GOOSENECK

A complete adjustable gooseneck system with the benefits of a Hoop Rejuvenator™ Kit.

- 4½" OD heavy-walled galvanized steel post
- H-frame style with 48" extension for "play safe" area
- Acrylic, rectangular steel and aluminum fan backboard options
- Breakaway goal (UBG-500F), and Hoop Rejuvenator™ Kit included
- 3 Year Limited Warranty: System

72" x 42" Acrylic Board	UAG-AC	\$2,654 EA
54" x 36" Aluminum Fan Board	UAG-FA	\$2,300 EA
72" x 42" Steel Board	UAG-RC	\$2,654 EA

Shown with optional post padding (PPP-500HP)

HOOP REJUVENATOR™

HOOP REJUVENATOR™ KIT

Hoop Rejuvenator™ allows for easy upgrading of existing systems without the added cost of excavating and replacing them.

- Plumbs backboards on leaning goosenecks
- Allows for goal height adjustment after court resurfacing (up to 6" for H-frames and 5" for direct mount units)
- Designed to fit standard mount plates and gooseneck systems 4½" OD and up
- Acrylic, rectangular steel, and aluminum fan backboard options
- H-frame kit and direct mount kit models
- Breakaway goal (UBG-500F), stainless steel hardware, and zinc galvanizing spray to cover rust spots included
- 3 Year Limited Warranty: System

3½" OD goosenecks only use aluminum fan backboard (HRKIT-FA).

H-Frame Design:

The H-Frame design is to be used on systems where gooseneck mounts near the center of the backboard, not at the rim, but above it.

Direct Mount Design:

The Direct Mount design is to be used on systems where both backboard and rim are mounted directly to gooseneck.

	Item #	Backboard	Price

GYM DIVIDER CURTAINS

Jaypro Sports offers a variety of functional and attractive divider curtains that help divide any sports facility or institutional space. From power-controlled to manual curtains, we custom design divider curtains for any facility size requirements. Also available in solid vinyl or vinyl coated mesh with several color options.

FOLD UP CURTAIN FC-680

The most versatile and robust curtain in the industry. This curtain uses hoist cables which are weaved through grommets and are attached to the bottom batten. Hoist cables simply roll on the driveline, causing the curtain to fold neatly towards the ceiling in an accordion style fashion.

- Most durable, longest lasting curtain in the industry
- Easiest retractable curtain to install
- Compact fold to maximize clear height

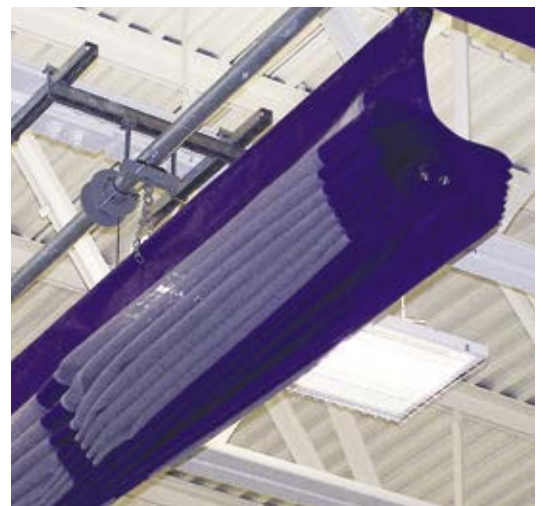

Call for freight quote.

Electric Curtain Winch CW-1800

See (page129) for details

Visit JAYPRO.COM for product specifications

SLOPE FOLD CURTAIN SC-685

Engineered to fit against the roof frame and conform to virtually any slope while providing maximum clearance for all sporting activities. This curtain can conform to virtually any roof to maximize clearance for all sporting events. Check out the new Field House Slope Fold Curtain (*page 148, SC-685XL*). *Call for freight quote.*

Lowered Position

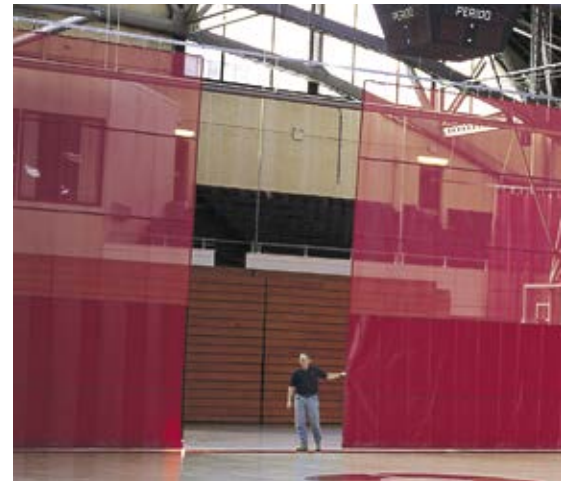

Raised Position

WALK DRAW CURTAIN

WC-660 & WC-660BP

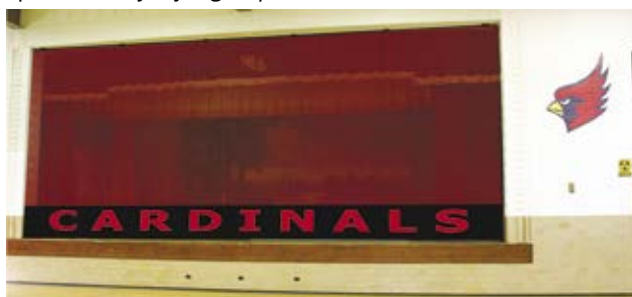

Designed for manual operation, this curtain is moved by pulling it along a ceiling suspended track to store along a perimeter wall. *Call for freight quote.*

**TOP ROLL CURTAIN TC-701**

Uses no hoist cables or straps to raise and lower the curtain and stores tighter than many other curtain designs for additional clearance with low ceilings. When operated, the entire fabric rolls onto the drive pipe. *Call for freight quote.*

**MINI TOP ROLL CURTAIN TC-710**

Compact curtain system designed to store tight to the ceiling structure by means of an internal tubular motor. Ideal for cafeterias, meeting rooms, stages, or other small spaces. *Call for freight quote.*

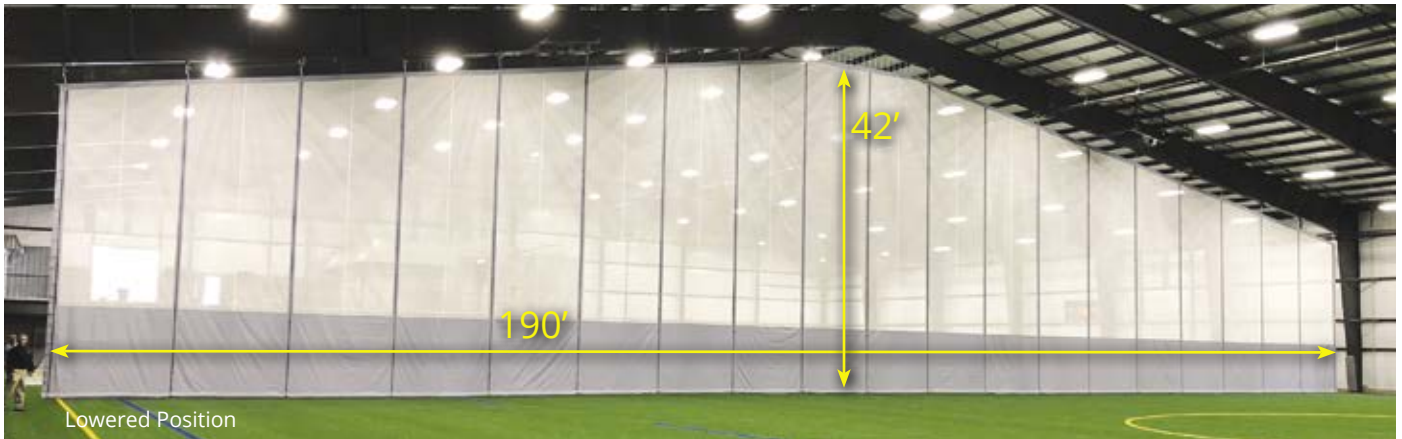

**ROLL UP CURTAIN RC-690**

Raised and lowered by heavy-duty hoist belts and stores in a 2' storage space close to the building structure. When operated, hoist belts roll the fabric onto the bottom batten. *Call for freight quote.*

FIELD HOUSE SLOPE FOLD CURTAIN SC-685XL

Engineered to fit against the roof frame and conform to virtually any slope while providing maximum clearance for all sporting activities. This mega curtain utilizes dual synchronized winches with a low voltage controller. This curtain can conform to virtually any roof to maximize clearance for all sporting events. Pictured below, this SC-685XL curtain measures 190' long and 42' high at the peak and raises to the ceiling in 75 seconds. *Call for freight quote.*

PERIMETER FOLD UP CURTAIN FC-680P

Jaypro Perimeter Curtains are ideal for completely following the inside or outside perimeter of running tracks within multi-use facilities and field houses. These curtains are designed to separate the running track from interior basketball or volleyball courts, thereby maximizing facility use and flexibility. Adjoining curtains are overlapped and offset to allow for easy egress. *Call for freight quote.*

MOTORIZED NETTING

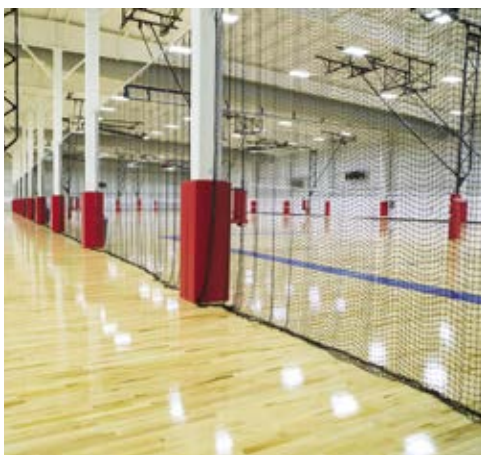

Safety netting systems are designed to protect spectators or create safe passageways outside the field of play. A complete surround netting system can be used to seal off a court or field for ball containment. Netting can enclose the perimeter of a facility as well as create a ceiling. Netting systems can be motorized or stationary. Contact Jaypro's estimating department to help design a solution for your netting needs. *Call for freight quote.*

Visit [JAYPRO.COM](https://www.jaypro.com) for product specifications

PROTECTIVE STATIONARY NETTING

Jaypro makes nets to separate outdoor athletic fields in large complexes and to divide indoor athletic facilities. We also provide complete perimeter and ceiling netting protection for your athletic facility. Our netting is found on tennis courts, basketball courts, soccer fields, and golf courses. Everything we make is customized to your needs as no two facilities are alike. Call or e-mail us to discuss your project. *Call for freight quote.*

MASTER EQUIPMENT CONTROLLER 2 (MEC2)

Similar to your touchscreen smartphone, this slick wall-mounted touchscreen is one of the best upgrades for any facility. The MEC2 features intuitive menus to allow anyone to easily program at any point in time, without switches or removal of the screen. Simply put, the MEC2 is the leading economical equipment control system in the industry!

- Low voltage 7" capacitive touchscreen
- Individual or grouped simultaneous operation
- Easily expandable with low cost expansion relay boards
- Protected with multiple tiered access logins
- Simple retrofit from existing methods of operation
- Direct replacement for MEC-99 control system
- Refer to the MEC2 spec sheet for additional information

MEC2

[CALL FOR PRICING](#)

EASY TOUCH EQUIPMENT CONTROLLER (ETEC)

With all the same benefits as the MEC2, the ETEC features additional unparalleled benefits, making this system the ultimate gymnasium equipment controller in the industry. The ETEC allows you to simultaneously raise your divider curtains and side court backstops, while lowering your main court backstops. The ETEC is truly a must-have control system for large facilities with quick turn-around time.

- Low voltage 10.4" high resolution LCD touchscreen
- Simultaneous up and down operation
- On-the-fly quick selection programming
- Customized facility layouts with intuitive graphical interface
- Instantly saves user programs with the press of a button
- Refer to the ETEC spec sheet for additional information

Surround your field with **FIELDPRO™** netting for a safer design and professional look!

Customize your Field and Facility with Barrier net options with several poles and nets to choose from.

- Straight or offset poles with aluminum or powder coat finish.
- 1¾", 3½" or 4" square mesh net
- Easy to use hoist system for quick install/removal of net
- Ground sleeves for system removal

Work with our Engineers to make your netting options work for you.

BARRIER NET SYSTEMS

We can customize any field layout per your request!

10' Straight Pole with multi-sport net is ideal for use as a Lacrosse and Field Hockey backstop net. The net is clipped at the top and bottom of each pole.

15', 20', 25', 30', and 40' Straight Pole comes with a hoist system allowing quick and easy lowering/removal of the net after the game, season, or before a big storm. Reinstalling the net is a snap - all from ground level with no need for a ladder.

20' Offset Pole provides 3' of offset which is ideal for use around the perimeter of soccer and baseball/softball fields. It's also an added measure of safety from ricocheting balls.

Features:

- Pulley system to raise/lower net (excludes 10' poles)
- (4) net options to choose from
- Ground sleeves facilitate installation and allow for system removal as needed
- Covers for ground sleeves are sold separately
- 3 Year Limited Warranty: System

Call for freight quote and pricing.

Visit [JAYPRO.COM](https://www.jaypro.com) for product specifications and

TERMS & CONDITIONS

Contact your Local Jaypro Sports Representative or Jaypro Sports for detailed information on Terms & Conditions

Returns: Jaypro Sports will accept the authorized return of all standard products for any reason within 30 days of the ship date. SPECIAL ORDER/ CUSTOM COLOR ITEMS ARE NOT RETURNABLE. Customers must obtain a return authorization number from Jaypro Sports after supplying the invoice number, item number, and reason for return. Customer is responsible for a 25% restocking fee and return freight charges.

Freight Damages & Discrepancies: Damages or shortages must be reported within 7 days of the delivery date. It is the responsibility of the customer to sign the delivery receipt as damaged or short. If Jaypro Sports is notified within this time frame, we will replace as needed and file the claim with the carrier.

Payment Terms: We accept checks, American Express, Discover, MasterCard, and Visa. Approved accounts are required to submit a purchase order and will be billed Net 30 from the invoice date. All past due accounts are subject to a 1.5% per month (18% per year) interest charge and collection costs. Any approved account choosing to pay by credit card after the invoice date may be subject to a 3% credit card processing fee.

Warranties: Limited Warranty: Jaypro warrants most of our products against defects in workmanship and material for three years from the date of shipment, unless otherwise noted in the catalog.

We reserve the right to correct typographical errors. Visit www.Jaypro.com for a full list of Terms & Conditions.
