We build our benches & bleachers to the highest standards. Listed below are some of the differences by others who may be listing their benches & bleachers as comparable to ours.

1. Frames - Ours are 100% aluminum angle. Be careful of those quoting "galvanized, steel angle iron" as equal.
2. Seat Planks - Ours are 100% anodized aluminum with a minimum wall thickness of .078 in. A thinner walled unit does not have the strength or support.
3. End Caps - Ours are constructed of fiber reinforced polypropylene. No sharp edges to snag clothing or skin.

4. Indoor Use - Our Tip N' Roll units come with rubber leg protectors so they can be used indoors or out. Be careful of those units using steel vs aluminum. In a "tip-over" fashion, steel could damage your gym floor or cause personal injuries.

Don't be fooled by a low price. Our manufacturing team has been in this business for 30 years. If you see bids or quotes that "seem too good to be true" - they are. Respectable manufacturers purchase aluminum at the same prices. Anyone offering to deliver product at 30% less is not matching specs.

**POWERDRIVE - BEAST**

- The PowerDrive is the first training tool that incorporates rolling resistance.
  - Improves speed coming "out of the blocks" because it requires and strengthens a low center of gravity.
  - Strengthen each muscle in the kinetic chain between feet and hands. The PowerDrive ties together all those squats and bench press reps strengthening weak links.
  - Matches the exact conditions encountered at the point of contact. The hips must work down and stay down. The hands must work upwards, punch and replace with each step.
  - Round sand ballast tank, foam wrapping with 40 oz. vinyl cover
  - Can hold up to 350-400lb of sand: SAND NOT INCLUDED
  - 49"H x 49"L x 50"W in size

## FUN FOR ALL AGES AND SKILL LEVELS

**FUNNETS™** are made of a unique blend of materials designed specifically for outdoor use. Our heavy body construction is UV treated and is unbreakable. We know you have seen the imitation PVC plastic goals which are made of tubing designed for plumbing applications. These imitation goals have a very low impact resistance which can cause the piping to break and expose sharp edges.

Our **5 Year Unlimited Warranty** is the best in the industry.

**DON'T BE FOOLED BY CHEAP IMITATIONS!**

### SPORTSTUFF® ROD

Our engineers searched for the perfect blend of flex/strength ratio. The result was the Sportstuff® rod. A safe, unbreakable rod with UV stabilizers, that lasts a lifetime!

**FUNNETS® FITTINGS**  
The Funnet® fitting is molded out of ABS plastic with UV stabilizer for long life and strength. The fittings are longer for a more secure fit. Each fitting has set screws which allow the fitting to be tightened securely to the rod.

EASY TO CARRY AND TRANSPORT
