Interior pocket to holds laptop or tablet

Removable interior divider keeps bag contents organized

RACKETS

INNOVATIONS

3D BENDING

A revolutionary frame technology which utilizes proprietary carbon mapping to allow a racket to bend with maximum flexibility and stability regardless of swing style, giving players the ability to swing confidently and freely with superior ball pocketing and ultimate control.

BRAID 45

This update to the classic Pro Staff Graphite and Kevlar braid arranges the braid fibers at 45 degree angles, allowing the braid to “breathe” more upon impact. The result is an enhanced pocketing feel combined with incredible stability.

An evolution of Clash’s 3D Bending Technology, FeelFlex features proprietary carbon mapping strategically placed at specific points throughout the hoop of the racket to provide additional stability and flexibility, leading to a more connected-to-the-ball feel while better complementing the modern, vertical swing path.

POWERPROFILE™

Encompasses three geometrical enhancements designed to boost stability and generate easy power off the strings.

Blends the volume of the current PWS over a larger area to open up the string bed, delivering more power while maintaining stability.

Cavity on the inside of the frame extends the cross strings for more power and responsiveness off the string bed.

Inverted rib in the throat area increases torsional stability for easier power and reduced frame twisting.

Developed for aggressive swings, this premium modulus carbon graphite provides increased frame stiffness for explosive power.

SPIN EFFECT®

Patented Spin Effect Technology is the first racket system that actually increases ball RPM without players changing their swing. The net seems lower and the court feels longer on all your shots.

Braided Graphite Basalt is an elastic and reactive material combination that improves the flex of a racket. This evolution of Wilson’s BLX® technology increases the ball’s contact with the strings to provide enhanced feel and greater control.

TRIAD®

Three-piece Racket system where hoop and handle are separated with Iso-Zorb, providing the ultimate in comfort and soft feel.

HAMMER

Weight is removed from the handle and maintained in the frame for a more powerful, lightweight racket with a larger sweet spot.

PARALLEL DRILLING

Provides a consistent, more forgiving string bed response while dramatically increasing the sweet spot.

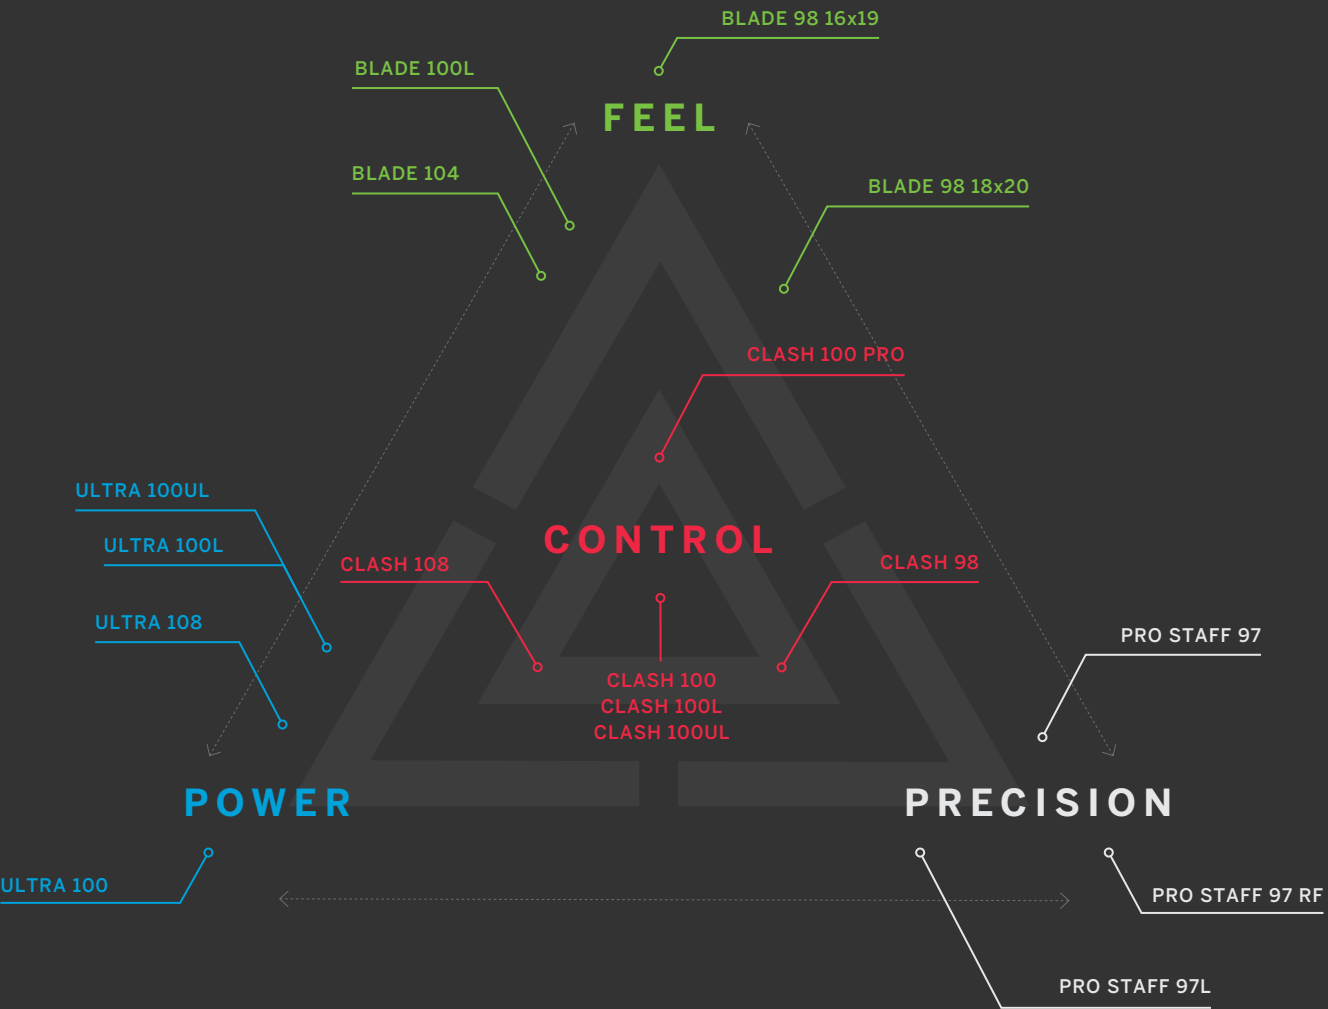

Spin Effect® Technology is a racket and string pattern innovation that increases ball spin. Pros often customize the racket they use. Racket specifications on endorsed consumer models may vary from the models used by Pros for match-play.

WHAT RACKET SHOULD I USE?

ALL NEW RACKET SEGMENTATION CHART

FRANCHISE	ICON	BENEFIT	PLAYER
CLASH		CONTROL FEEL POWER PRECISION	I want a racket that gives me total confidence to powerfully swing away, knowing my racket will give me unparalleled control on every shot.
BLADE		CONTROL FEEL POWER PRECISION	I am a big-hitter and I need a racket that allows me to feel the ball to attack my opponent.
ULTRA		CONTROL FEEL POWER PRECISION	I play a variety of tennis and want a racket that provides me with easy access to power, in order to make playing tennis effortless.
PRO STAFF		CONTROL FEEL POWER PRECISION	I am an experienced player looking for a racket that delivers the pinnacle in precision and performance.

PERFORMANCE RACKET BENEFIT CHART

PRO STAFF® V13 NEW

Featuring a design that summons the heritage of the iconic Pro Staff franchise from years past, the all-new Pro Staff series enhances precision while maintaining the classic feel beloved by its users worldwide. The key ingredient: braid fibers arranged at 45 degree angles net improved ball pocketing and incredible stability.

TENNIS BALLS

A FOCUS ON SUSTAINABLE PERFORMANCE

From packaging design to recycling initiatives to ball performance, Wilson is tapping its resources in an effort to change the narrative on the relationship between tennis balls and the environment. Here is a snapshot of Wilson's 2020-2021 sustainability initiatives within the category.

US OPEN

To be unveiled at the 2020 US Open, the US Open tennis ball can will feature a doughnut overcap that cuts the amount of required plastic in half. For players that prefer to re-use their cans, the overcap manages to prevent balls from spilling out – even when turned completely upside down.

TRINITI

Launched in 2020, the groundbreaking tennis ball is the first performance tennis ball with fully recyclable packaging. In addition, unique core and felt materials deliver enhanced durability and longer fresh-ball feel. Five percent of Triniti profits support global sustainability efforts.

TRINITI CLUB

Available only in cardboard 72-ball master carton packaging, Triniti Club eliminates the need for individual sleeves. Developed for clubs and academies, players and coaches can directly place the balls into their baskets without having to dispose any packaging. Balls also feature unique Triniti core and felt materials that provide enhanced durability.

PRACTICE TENNIS BALLS

In an effort to minimize packaging, Wilson removed the overcap and labels from its practice tennis balls sent to clubs and academies. Since these balls typically end up in baskets after opening, the overcap and label were deemed unnecessary and removed from production.

RECYCLEBALLS PARTNERSHIP

A non-profit founded in 2014, RecycleBalls collects and recycles millions of tennis balls that end up in landfills each year. They then repurpose these materials into socially relevant products, such as tennis courts, playgrounds, turf and other sustainable uses. The RecycleBalls program works through the distribution of weather-resistant bins at tennis courts, community centers and tennis retail locations. For more information on ways to become involved, please visit www.recycleballs.org.

A BETTER BALL FOR THE PLANET

- 100% SUSTAINABLE PACKAGING
- ENHANCED DURABILITY WITH LONGER FRESH-BALL FEEL
- 5% OF TRINITI PROFITS SUPPORT WORLDWIDE SUSTAINABILITY EFFORTS

TRINITI

TRINITI™ ★

Engage Core™* maintains ball liveliness 4x longer and produces more consistent bounce than standard core

STR Felt™** is 50% more flexible than standard felt for more core compression and longer dwell times

100% Sustainable packaging first of its kind in performance ball category

SOFT GOODS

SPEED

NO LIMITS

Reach another gear with lightweight attire designed for no distractions or inhibitions as you go sideline to sideline.

POWER

NO COMPROMISES

Maximize your explosiveness with breathable outfits crafted for excellent range of motion and dynamic movement.

FOOTWEAR

INNOVATIONS

UPPER

AMPLIFEEL™

Adds increased upper support for feel, control and explosive lateral acceleration.

ENDOFIT® COMFORT

Full inner bootie construction provides the ultimate in comfort, stability, and feel with an overall intuitive fit experience.

ENDOFIT®

Inner sleeve construction provides enhanced comfort, stability, and an intuitive fit experience.

SENSIFEEL™ 2.0

A minimally layered upper with an engineered mesh that provides enhanced breathability, feel, support, comfort, and a homogeneous fit.

SENSIFEEL™

A minimally layered upper upgrades comfort while maintaining superior support.

UPPER

SKINGUARD™

Upper protection for durability. Forefoot and lateral reinforcement to enhance support during lateral movements and push-offs.

MEDIAL DRAG PADS

Rubber or TPU overlay(s) on the medial side supplies added durability and protection when dragging the foot.

FOREFOOT SUPPORT

3D-FS™: TPU strategically placed in the forefoot and extended to the heel provides unparalleled stability and increased response time - explosive acceleration with controlled deceleration.

2D-FS™: PU strategically placed in the forefoot provides lateral stability with enhanced responsiveness.

FS™: Forefoot overlay for overall support.

QUICKLACE

Minimalistic and strong lace for one-pull tightening. Easy-on, easy-off.

MIDSOLE/OUTSOLE

TRUEMOTION CHASSIS

A double chassis construction to enhance the natural foot movement via a flexible arch support for comfort & agility and a lateral support for torsional control & overall stability.

4D SUPPORT CHASSIS™

An asymmetrical heel-to-toe chassis that delivers enhanced stability and limits supination / torsion to help control pivot movements while setting up for powerful strokes.

PRO TORQUE CHASSIS (PTC) LIGHT

Arch technology is built for speed by providing ultimate stability and flexibility.

PRO TORQUE CHASSIS (PTC)

Arch technology that provides torsion control and stability for explosive acceleration.

DYNAMIC FIT

DF1 – Heel-to-toe drop 6mm. Low-to-the-ground court feel, dynamic comfort, agility.

DF2™ – Heel-to-toe drop 9mm. Cushioned court feel and quick reaction.

DF3 – Heel-to-toe drop 12mm. All-around court feel and cushioning.

MIDSOLE/OUTSOLE

R-dst+™/R-dst™

MIDSOLE

R-DST™ – Best combination of cushioning and rebound for more dynamic performance.

R-DST™ – Augments cushioning and rebound for comfort and responsiveness.

DURALAST™™

Exclusive high-density, consummately durable rubber compound provides super abrasion resistance and maximum traction on all surfaces.

AUXILIARY

WSS

Assymetrical heel counter for enhanced foot support. Reduced Rubber thickness on outsole eases propulsion. Lower EVA density (52) to improve comfort and agility.

SOLE VARIATIONS

CREATING MORE KAOS

You know what Kaos stands for. Speed. Agility. Quickness. Flash. Style. Now take these ingredients, and double the recipe. Welcome to the new generation of Kaos. Anchored by an innovative new chassis, this footwear is slicker and faster than ever. You like maximum court coverage, superior lateral agility and sleek style from your shoes? Then look no further.

KAOS RAPIDE

NO LIMITS: Reach another gear with lightweight shoes designed for ultimate speed from sideline to sideline

A P P A R E L

Driven by an unquenchable desire for ultimate performance, appeal and comfort, the 2021 Wilson Apparel Collection features a new look across its Performance, Training and Team lines. Lightweight attire engineered for SPEED helps players reach another gear without distractions. Breathable outfits crafted for POWER optimize range of motion and dynamic movement. Training pieces accommodate on-court warmups, gym workouts and even general lifestyle use. Team wear boasts a fresh new palette for clubs and school uniforms. No matter your style or primary use, this collection speaks to the tennis player in everyone.

PERFORMANCE

Designed for ultimate freedom of movement in the biggest moments, Wilson's performance line features innovative, lightweight fabrics engineered for maximum stretch, recovery and ventilation.

TRAINING

With an emphasis on enhanced comfort and perfect fit for athletes, Wilson's training pieces can be worn anywhere and are perfect for sweating it out in the gym or on the court.

TEAM

Integrated with performing fabrics and comprising an array of colors, Wilson's team wear is ideal for clubs and schools looking to outfit their teams with classic uniforms.
